John A. Wilson
Extension Educator
Certified Crop Advisor (CCA)
Nebraska Extension in Burt County
111 N 13th Street, Suite 6
Tekamah, NE 68061

Office: 402.374.2929
Fax: 402.374.2930
Email: jwilson3@unl.edu

John is an agronomist who works with IPM for field and forage crops in eastern Nebraska. His programs focus on soybean nematodes and diseases, but he also works with those pests on corn as well as insects and weeds on both crops. He is also working to prevent and manage pest resistance with all four of these crop pests.

John is starting to develop programs protecting pollinating insects, improving pollinator habitat, and promoting crop production management practices that reduce injury to pollinators.

John received his B.S. degree from the University of Nebraska-Lincoln with a dual major in Agronomy and Agricultural Education and his M.S. degree also from UNL with a major in Agronomy and a minor in Animal Science. He has been an Extension Educator since 1978 and a Certified Crop Advisor (CCA) since 1997.

Accountability Region

- Burt County
- Dakota County
- Thurston County

Topics often dealt with

- Integrated Pest Management (IPM) of Field and Forage Crops
  - Diseases
  - Nematodes
  - Insects
  - Weeds
- Special Focus on Soybean Cyst Nematodes (SCN)
- Noxious Weeds
- Pasture Management

Examples of Programs

- Soybean Cyst Nematode Management
- Diseases of Soybeans or Corn
- Insects of Soybeans or Corn
- Noxious Weed Control
- Pasture Management

Extension is a Division of the Institute of Agriculture and Natural Resources at the University of Nebraska–Lincoln cooperating with the Counties and the United States Department of Agriculture, and abides with the nondiscrimination policies of both institutions.
