

4-H Traditions Passed Through Generations of Knox County Families

Chloe Hanzlik's father, Dennis grew up connected to 4-H through his father, Waymond, also a 4-H member. As Dennis and Sharla Hanzlik began having children, they instilled the love for 4-H in them. Today, their youngest daughter, Chloe has been mentored by older siblings and now passes on the tradition of 4-H to her nephews, who are fourth generation 4-H members. "Showing livestock teaches responsibility and respect," Chloe, a junior in high school and agriculture advocate is proud of her 4-H roots and making an impact through her involvement in 4-H Council and the Ag Innovators Experience.
