Pesticide Resistance Workshop

The main objective of this workshop is to educate agricultural clientele and farmers about the importance of herbicide, insecticide and fungicide resistance management, mode of action, and how to use this information to reduce potential spread of weeds, insects and plant pathogens in Nebraska.

Where: Wayne Fire Hall

When: Monday, March 7th

Time: 9:30 am to 2:30 pm
(Lunch and many materials will be provided, along with hands-on training to develop resistance management plans.)

The cost of this meeting will be $50.00 which includes lunch, refreshments, and materials. The only way to register is to do so online at agronomy.unl.edu/pest-resistance.

Please contact Keith Jarvi, Extension Educator with any questions you may have at keith.jarvi@unl.edu or call 402-584-3819.
