
VETERINARY SCIENCE

Premiums: Purple - \$2, Blue - \$1.50,
Red - \$1, White - \$.50

The purpose of a Veterinary Science exhibit is to inform the public about a common health problem of animals of a veterinary science principle. Do not confuse veterinary science exhibit topics with animal husbandry or production topics.

A Veterinary Science exhibit may consist of a poster or display. The exhibit may represent material from any of the Veterinary Science Projects including entry level exhibits from Unit 1.

If photographs are to be part of the exhibit, remember that they will be viewed by the public. Make sure that the photographs are in good taste and will not be offensive to anyone. Graphic photographs of excessive bleeding, trauma or painful procedures are not appropriate. For exhibits related to veterinary surgical procedures, aseptic techniques need to be shown, for example, use of drapes, use of sterile procedures, wearing of gloves, and other appropriate veterinary medical practices.

All static exhibits must have received a purple ribbon at the county fair to advance to the State Fair.

Remember, since these are science displays, all references and information needs to be properly cited.

FIRST AID KITS: Because of public safety concerns and risk of theft of first-aid kit contents (veterinary drugs/equipment) with perceived potential for drug abuse, **NO ANIMAL FIRST AID KITS WILL BE PERMITTED.** Animal first aid kits submitted will be immediately disqualified and not shown.

VETERINARY SCIENCE POSTERS:

This exhibit presents the viewer with a design that is simple and direct, unlike a display that usually present more information.

A poster should not exceed 22" x 28" and may be either vertical or horizontal.

VETERINARY SCIENCE DISPLAYS:

A display may include but is not limited to: a 3-dimensional exhibit, a scale model, the actual product (for example: skeleton; teeth; samples of leather, fur or dried skin damaged by disease or parasites) or a notebook.

A display is not a poster.

A display may be mounted on poster board not to exceed 22" x 28" or on 1/4" plywood or equivalent that does not exceed 24" high or 32" wide.

APPROPRIATE VETERINARY SCIENCE TOPICS:

- Maintaining health
- Specific disease information
- Photographic display of normal and abnormal characteristics of animals
- Animal health or safety
- Public health or safety
- Proper animal management to ensure food safety and quality
- Efficient and safe livestock working facilities
- Or a topic of the exhibitor's choosing.

Remember, since these are science displays, all references and information needs to be properly cited.

DIVISION 840 VETERINARY SCIENCE

1. + 4-H Veterinary Science Large Animal Poster or Display.

2. + 4-H Veterinary Science Small Animal/Pet Poster or Display.
