

Dear Clover Kid Family,

Because of our new online enrollment system for 4-H this year, we have not been able to find a way for Clover Kids to see all the projects that they are eligible for in our county. Our solution is to give all our Clover Kids a project list and then let the office know what they are interested in. The office will then input the projects for you on 4HOnline. Simply email or bring the list back to office and we will try to make sure our Clover Kids get every opportunity they can. You will still enroll online and pick out the projects on there that you want but anything additional the office will add for you.
