

D320012 - Sustainable Landscape Diorama - Box must be no larger than 24" x 24". The exhibit must show a Nebraska landscape that includes elements such as windbreaks, fields, pastureland, CRP, public lands, community/municipal landscapes. The goal of this exhibit is for students to articulate conservation and sustainability best-practices that can be implemented on a landscape, while addressing landowner and other stakeholder interests.

Labeling:

Label the following parts on the on the exhibit. (You can print this chart out and cut out the tags to use as labels)

Point Sources	Nonpoint Sources	Carbon Sequestration
Water-wise practices	wildfire prevention strategies	renewable energy sources

Also label:

1. Other conservation practices
2. At least 10 species of plants included in the diorama

Attach to the exhibit a brief report including supplemental information describing the diorama, defining conservation practices, and outlining opportunities for landscape improvements to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.
