

H861007 - Kit Labeled Robot (cannot be free programmed) and Notebook - (SF243) – This class is intended for explorations of robotic components such as arms or vehicles OR educational kits marketed as robots that do not have the ability to be programmed to “sense, plan and act.” The exhibit should include a notebook with the robot the youth has constructed. A picture story of assembly is recommended. If robot is more than 15” inches wide and 20” inches tall they may not be displayed in locked cases.

Put your supporting information in a clear plastic cover

1.A description of what the robot does

2. Why did you choose to build this particular form

3.How did you problem solve any issues you had during the building and programming?

Include as many pictures as possible to create a better story of how you built your robot.
