

**1. Books (Classes 1-6):** For books, plants must be mounted on sheets that are no larger than 14” wide by 14” high. Plants should be glued rather than taped and the mounts should be protected with a clear cover. Proper plant mount should include root, as well as stem and leaf tissue. Exhibits will be judged based on completeness of plant mount, accuracy of identification, labeling, neatness and conformation to project requirements. Class 6 also requires a paragraph which describes what the plants have in common and why you have chosen to collect them.

This information should be typed or printed neatly.

**Labeling:** The label for each sample must include:

Scientific name (in italic or underlined) with authority: \_\_\_\_\_

Common name: \_\_\_\_\_

County of collection: \_\_\_\_\_

Collection date: \_\_\_\_\_

Collector’s name: \_\_\_\_\_

Personal collection number: \_\_\_\_\_

Order that plants were collected in your personal collection: \_\_\_\_\_

Other information depending on class selected, i.e. value and importance, life span, growth season, origin, major types of range plants: \_\_\_\_\_

\_\_\_\_\_
