

Cuming County

2021 Impact At-A-Glance

Brought to you by Nebraska Extension

cuming.unl.edu

Cuming County Youth stay active and complete marathons, 26.2 miles, through summer nutrition and running program.

Summer is always a busy season for Nebraska Extension! This past summer, the Cuming County Extension office was able to partner with a local summer program that supports youth ages PK-6th grade. The Marathon Kids program was offered to help kids stay active during the summer months and get excited about physical activity! Youth alternated between playing active games and heading to a local practice field to run or walk. By the end of the summer, youth logged a total of 543 miles, but most importantly they were able to stay active and stay excited about physical activity!

Programs At-A-Glance

- Tassel to Table is an ag literacy program that was offered to 5 classrooms, grades 3-6. Youth learn about Nebraska agriculture and how their food goes from field to table.
- Food in the Field is a program that helps farmers and their families make healthy choices during harvest and planting. The program reached 289 individuals in 2021.

1,077
