

Fillmore County

2021 Impact At-A-Glance

Brought to you by Nebraska Extension

fillmore.unl.edu

School enrichment programs provide information from UNL in collaboration with local schools and Extension. Lessons add to the curriculum already being taught through fun learning activities.

Meet Doreen, a Fillmore Central Elementary teacher who has utilized Extension in her classroom for several years. Extension staff has supplemented her curriculum with an experiential lesson on soils which ties into her educational standards. She says, “Soil is Not a Dirty Word” is a phenomenal resource provided by our Extension. Brandy does such a great job conducting the lesson. The students are fully engaged with the experiments, and I didn’t need to supply anything.”

Programs At-A-Glance

- Farmers & Ranchers College reached over 185 people in-person & virtually that manage over 50,000 acres. 319 people viewed program recordings available on our YouTube site.
- Ag Safety: Since 2006, Progressive Ag Safety Day has taught 1,180 rural youth how to stay safe on the farm. 627 volunteers help implement the annual community event.

1 IN 2

youth in Fillmore County were reached through 4-H and Extension programming.

486

Fillmore County students were taught through school enrichment programming.

100%

of Ag Venture Day youth better understand where their food comes from as a result of the program.
