

# Frontier County

## 2021 Impact At-A-Glance

Brought to you by Nebraska Extension

[frontier.unl.edu](http://frontier.unl.edu)

From robotics, cattle, photography, 4-H Council, farm safety, county fair, Nebraska 4-H Livestock Contests, Next Chapter, Connect the Dots to COLLEGE...Jace has discovered his “spark” through 4-H!

12 year 4-H member- Jace is full of energy, many interests & abilities, and wants to make a difference! A few years ago, he thought attending a 2-year college was all he could afford & academically handle. Thru Nebraska 4-H, Jace had opportunities to excel, explore and “learn by doing” while trying out various 4-H projects & contests to find his OWN career “spark!” Through 4-H career exploration programs “Connect the Dots” and “Next Chapter,” Jace discovered his strengths/weaknesses, gained knowledge & confidence to help him find his career choice- Agricultural Engineering at a 4-year college!

### Programs At-A-Glance

- 98% of Medicine Valley School K-5th grade students joined in “Launching Nebraska-nauts” 4-H International Space Station Day. “They loved seeing them on the space station!”- Teacher
- Twenty educational videos highlighting timely beef cattle management topics were developed in 2021 reaching over 3,800 views. One viewer commented, “I enjoy this channel and the information that you provide.”

**100%** Frontier County 2nd or 4th-grade students learned the science of 4-H embryology and the fun of STEM!

**5** new food handlers and two new food managers were certified in food safety.

**70%** Frontier County 9-10th grade students were reached with Nebraska 4-H Career Exploration Programs.
