

Gosper-Phelps Counties 2021 Impact At-A-Glance

Brought to you by Nebraska Extension

phelps-gosper.unl.edu

“Thank you for providing such a wonderful opportunity through the Nebraska Extension for students who would not otherwise get an experience like this.” - Holdrege 4th grade teacher

Phelps-Gosper 4-H delivers lessons of life and agriculture. The popular 4-H Embryology school enrichment connects 4-H to classrooms. 4-H Staff provide embryology supplies and education to each of the schools. Claire, an Elwood 4th grader, took chicks home to live in her garage. As they got older, the family realized the future egg layers were outlaws! Elwood didn't have an ordinance allowing chickens to live in town. Claire and her mom researched community laws regarding chickens and took the information to the Elwood Village Board. Claire won approval allowing three chickens per family.

Programs At-A-Glance

- Phelps-Gosper Extension grows positive agriculture literacy programming through 4-H school enrichment programs.
- 4-H Embryology, Water Jamboree, Connect the Dots, Animals Inside and Out, and Youth Science Field Day ensures local youth have a knowledge and appreciation of Nebraska agriculture

1586
Phelps-Gosper youth participated in 4-H.

90% of Clover Kids meet someone new through 4-H.

4 OF 5
Phelps-Gosper 4-H youth are reached.
