

# Holt & Boyd Counties

## 2021 Impact At-A-Glance

Brought to you by Nebraska Extension

[holt.unl.edu](http://holt.unl.edu)

Passing on the passion for 4-H over generations makes the Holt and Boyd County 4-H program stand strong with 387 4-Hers.

4-H has the power to make a lasting impact on youth well past their time in the program. Travis Halsey is one of those 4-Hers who discovered a love for electrical projects. Through 4-H career exploration, Travis turned this passion into a career where he became an electrician. As a 4-H alum, Travis continues to give back. He offers electrical clinics for 4-Hers to learn about electricity and coaches youth about designing their electrical projects. “I want to give back the knowledge and interest that someone gave me,” Travis said. “I get to learn new things even as an adult.”

### Programs At-A-Glance

- Fit and Healthy Kids online childcare classes help encourage high-quality care. FHK taught over 3,897 participants and has indirectly impacted over 96,423 children.
- 72% of the population surveyed stated high-quality child care availability was important for the future growth and development of our community.

**60%** of producers are highly likely to change their management practices to reduce nitrate levels.

**4** Entrepreneurial Communities Activation Process conversations in Atkinson to identify priorities.

**300** students reached virtually across 22 classrooms with 4-H Extreme Engineering program.
