Inspiring youth to find their spark through local 4-H programming, a sophomore high school student said, “The Youth Science Field Day entrepreneur session showed me, I might have what it takes!”

The cornerstone of the Phelps-Gosper Extension team is inspiring youth to find their spark through local 4-H programming. Throughout the year interactive, research-based, positive youth development 4-H programs are offered to all local youth. Phelps-Gosper Extension values local community partnerships in reaching older youth as they begin to look to their future. Lori Larson, Holdrege Area Chamber, stated “The Chamber was very excited to partner with the high school teens for the UpStarts program.” Phelps-Gosper Extension strives to contribute to our local communities.

Programs At-A-Glance

- Youth Science Field Day: 4-H professionals interactively share science-based knowledge with area high school students. Science of ag, entrepreneur, mental health, and careers.
- Connecting The Dots: An interactive career exploration program designed to help high-school students learn more about careers of interest & incorporates local businesses.
