Priceless Preteen is an interactive leadership development program that helps students recognize their leadership strengths & determine how to apply them to their schools, families & communities.

Priceless Preteen Camp was held for the first time in August 2022. Schools in Jefferson County nominated eight 6th grade students, who had demonstrated outstanding leadership skills to attend. Two high-school aged students helped facilitate the camp as Teaching Assistants and led much of the discussion with camp participants. During the two day camp, students identified and studied difference makers in their lives, named their own strengths, and used that knowledge to invest in others in their communities. This camp focused on meaningful relationships and building up others to be their best.

Programs At-A-Glance

- **Wheat Variety Plot Tour:** Over 40 farmers attended the evening program near Fairbury where they learned about the latest winter wheat varieties to help make future seed decisions.
- **The Building Better Babysitters Program** provided 22 youth the opportunity to increase their knowledge and skills about child care, safety and running a babysitting business.
