

# Otoe County Impact At-A-Glance

Brought to you by Nebraska Extension

Otoe.unl.edu

4-H connects youth to important careers and strengthens their entrepreneurship skills.

Meet Anthony Robinson, a senior at the Nebraska City High School. He participated in robotics throughout middle school and has volunteered to help at various 4-H events. Robotics helped invigorate his passion for electronics, programming, and technology in general. It also helped him land an internship at the UNO College of Information Science and Technology where he worked on numerous projects including an international database for documenting crimes that involved social media. Anthony also improved his programming skills and plans on majoring in computer engineering when he attends college.

## Programs At-A-Glance

- First Lego League, a program that encourages middle school youth to try to solve real world problems, has impacted youth throughout southeast Nebraska in positive ways.
- RPN Educator, Rex Nelson, worked with communities throughout the region to help them develop local organizations to support economic development.

**OVER \$5,000**

were donated to the Otoe County 4-H Council to support 4-H youth development.

**93%**

of participating youth believe farmers make good choices to keep our food safe.

**1 IN 3**

Otoe County youth were reached through 4-H.
