Nebraska Extension is fully committed to the health and well-being of Nebraskans. Boone-Nance Extension developed and distributed Grab & Go kits safely to more than 300 youth to engage them.

2020 has been a year of unknowns and stress for the Fleer’s of Albion, like most other 4-H families. During this pandemic Brittni Fleer turned to art to keep her children busy. “The past few months we have enjoyed the 4-H Grab & Go kits. As a mom I’m so thankful for the creative projects already to go,” Brittni said. “We don’t have to run around the house gathering all the items needed. My three kids have enjoyed creating the projects and I love how they have asked to use other items that we had laying around the house to continue creating different versions of the same project. Thank you.”
