

# Boone and Nance Counties

## 2020 Impact At-A-Glance

Brought to you by Nebraska Extension

[boone-nance.unl.edu](http://boone-nance.unl.edu)

Nebraska Extension is fully committed to the health and well-being of Nebraskans. Boone-Nance Extension developed and distributed Grab & Go kits safely to more than 300 youth to engage them.

2020 has been a year of unknowns and stress for the Fleer's of Albion, like most other 4-H families. During this pandemic Brittini Fleer turned to art to keep her children busy. "The past few months we have enjoyed the 4-H Grab & Go kits. As a mom I'm so thankful for the creative projects already to go," Brittini said. "We don't have to run around the house gathering all the items needed. My three kids have enjoyed creating the projects and I love how they have asked to use other items that we had laying around the house to continue creating different versions of the same project. Thank you."

### Programs At-A-Glance

- **4-H Grows:** 34% and 33% of age eligible youth in Boone-Nance Counties, respectfully, were reached by clubs, virtually and other methods, all to engage youth in developing competence
- **Beef Systems:** The Pasture and Forage Team provided timely information throughout a drought year. 500 plus producers received beef and forage education.

**100%** of youth participants can make scientific observations after completing the embryology project.

**1 IN 3** youth in Boone & Nance Counties were reached through 4-H and Youth development Programs.

**212** private pesticide applicators were certified in 2020. A 72% increase in knowledge on Ag topics presented.
