

Clay County

2020 Impact At-A-Glance

Brought to you by Nebraska Extension

clay.unl.edu

Early life experiences affect future development of youth which is why Clay County 4-H is committed to providing youth, ages 5-7 hands-on & meaningful opportunities to achieve their highest potential.

Elyzabeth Winter joined 4-H when she was eight years old. Following her older sisters, she joined the Shamrock Shepherds 4-H Club and quickly started learning various life skills. During her 4-H career, Elyzabeth was a well-rounded 4-H'er who completed numerous projects from livestock to leadership. Serving leadership roles as a junior leader, her experiences in 4-H helped guide her to a career as a Veterinary Technician.

Programs At-A-Glance

- The annual Cow/Calf College provides cutting-edge research practices for producers to consider in their operation to support beef producers. Since its inception in 2001, over 1,275 producers have participated.
- 254 youth participated in School Enrichment lessons at all four elementary/middle schools in the county.
