

Cass County 2024 Impact At-A-Glance

Cass County 4-Hers choose to return to work in the 4-H program that provided them with many youth development opportunities.

Cass County Extension had four summer interns this year. All four grew up in the Cass 4-H program. Each intern said they felt compelled to return to a 4-H program that gave them the educational and leadership experiences that led them to where they are today in their undergraduate programs. During their 10-12 weeks, they taught summer workshops, assisted in county fair prep, planned enrichment events, sought out and secured donations for programming, and more, all while "growing their educational, professional, and personal goals," said one intern.

Programs At-A-Glance

Connect the Dots: 115 high school students, from three schools in Cass County, attended the Connect the Dots event. Of those surveyed, 83% said that as a result of the program they had a better idea of what they might do after high school.

1,721
youth in Cass County reached by 4-H programs.

51
volunteer hours were completed by Cass County Master Gardeners, adding a \$1,585 value to the community.

66
hours of workshops were offered to age-eligible youth this summer.
