

Dawes County 2024 Impact At-A-Glance

Dawes.unl.edu

Nebraska 4-H gives youth many leadership opportunities including hold club offices, teaching and workshops, and serving as camp conselors.

Morgan Schommer's most memorable moment in 4-H was serving as the summer intern. Her passion for teaching and working with youth became a reality through the internship program. Morgan praises the 4-H program for strengthening her leadership skills through the numerous workshops and after-school clubs she has participated in and helped lead over the years. Some of these include the gardening club, cooking club, sewing club, fishing workshop, Wilderness Wonders Camp, Maker Day workshops, and several Clover Kid Camps.

Programs At-A-Glance

Let's Eat Healthy enhances the health and well-being of youth in grades K-12. Youth learn the importance of eating balanced meals and the purpose of all five food groups. They also learn how food gets from farm to table.

303

individuals across the region were trained and licensed for Private Pesticide and Chemigation application.

95%

of Dawes County 5th graders said 4H helped them explore future career interests.

83

more youth were reached this year through programming than 2023.
