"When I was with other 4-H kids, I finally felt like I was among like-minded people." -Mila Feindt

Mila Feindt, 17, of Germany joined the crowd of excited exhibitors at the 2024 Holt County Fair. Having visited Nebraska two summers earlier but not yet having had the opportunity to participate in 4-H, she looked forward to finally experiencing it firsthand. Mila showed a variety of species and gained a deeper understanding of 4-H through hands-on learning.

Reflecting on her first visit to the fair two years ago, Mila noted how the excitement and engagement of participants stood out. "I was also amazed by how young kids were trusted to take care of and train animals. I was especially impressed with the chicken show and the knowledge these kids—who were my age—had. They were so responsible and seemed truly in their element, which I admired."

## Programs At-A-Glance

*One producer reduced nitrogen application by 204,600 pounds, resulting in a cost savings of \$110,484 by using the "N" calculator to determine nitrogen needs.*

**152**

**producers reached with individual ranch grazing plans.**

**5,535**
