## 2024 Impact At-A-Glance

Saline.unl.edu

Take-Home Projects began in February 2024 to give youth the opportunity to complete a variety of fair-eligible projects throughout the year and to expose them to new experiences. These projects promote the idea that 4-H meets youth where they are. Since its inception, 139 projects have been distributed, and over 50 youth have completed at least one project.

"The Livewires 4-H group met to do the take-home calendar project and learn how to make kolaches, dumplings, and mini pizzas. It was a fun day, and we loved the Extension Office's thoughtful idea with the calendars. Thanks for all you do! Keep up the great work!"  
– Katie Spohn, 4-H Parent and Volunteer

### Programs At-A-Glance

*Co-Parenting for Successful Kids supports families going through divorce, separation, and custody by enriching parents' knowledge of essential parenting skills and strategies. The program was delivered in person and reached 17 Latino participants.*

# 71

senior citizens learned garden management at three separate Saline County Aging Services locations.

# 30

participants attended the DeWitt Community Health Fair and had the opportunity to learn about healthy cooking options.

# 266

growers had their water management and cropping practices inquiries addressed.

**STRENGTHEN NEBRASKA AGRICULTURE & FOOD SYSTEMS**

**INSPIRE NEBRASKANS & THEIR COMMUNITIES**
