

GENERAL EXHIBITS

Superintendent: Ellie Binder

GENERAL INFORMATION

Many exhibits in the General area divisions require supporting information such as a plan for a Woodworking project, a set of questions 4-H members are required to supply answers for, etc. Failure to provide the required supporting information will result in the exhibit being lowered one ribbon placing.

ENTRY LIMIT

One entry per class.

INTERVIEW JUDGING: Interview judging is available. Please read 4-H static exhibit general information on page 54.

HERITAGE

The purpose of the Heritage project is to acquire knowledge, develop a connection to the past and share the story of a 4-H member's heritage and history around them. An exhibit of items, pictures, maps, charts, slide tapes, drawings, illustrations, writings, or displays that depict the heritage of the member's family or community or 4-H history.

GENERAL INFORMATION

Exhibits are entered at 4-H's own risk. The Saline County 4-H program or the Ag. Society is not responsible for loss or damage to family heirloom items or any items in this division.

All exhibits should be labeled with name, county, age, and number of years' experience in the project.

DISPLAY SIZE

Displays should not be larger than 22 inch x 28 inch wide. Pictures and other hanging items must have a wire hanger for display purposes. Collections should be securely displayed in an attractive container no larger than 22 inch x 28 inch.

DOCUMENTATION

All entries MUST include documentation. When writing documentation ask yourself and think about how does this related to my heritage or why is it important? Examples of documentation; birth dates, death dates, marriage dates, identification of individuals included in the exhibit, or stories related to the subject of the exhibit.

HERITAGE LEVEL I - Division 101

Beginning (1-4 years in project)

- 1. Heritage Poster or Flat Exhibit** - entries may be pictures, posters, items that depict family heritage. Exhibits must be supported by a written explanation.
- 2. Family Genealogy/History Notebook** - include pedigree charts/family group sheets, with documentation for two to three generations of one family line, expanding each year. If multiple books included in exhibit, only bring book with most current year's work.

Heritage cont.

3. Local History Scrapbook/Notebook - scrapbook or notebook that depicts history of local community or Nebraska that helps youth appreciate their heritage.

4. Framed Family Groupings (or individuals) of pictures showing family history - pictures must be supported by a written explanation.

5. Other Exhibits depicting the heritage of the Member's Family or Community - exhibit must be supported by a written explanation. May include biographical album of themselves or another family member, family cookbooks, etc.

6. 4-H History Scrapbook - relating 4-H history of local club or county, must be work of individual 4-H'er, no club reports. If multiple books included in exhibit, only bring the book with most current year's work.

7. 4-H History Poster - relating to 4-H history of local club or county or individual.

8. Story or Illustration about a Historical Event

9. Book Review about local, Nebraska or regional history

10. Other Historical Exhibits - attach an explanation of historical importance.

11. Family Traditions Book - story or illustration of a family tradition or event. Exhibits must be supported by a written explanation.

12. Family Traditions Exhibit - story or illustration of a family tradition or event. Exhibits must be supported by a written explanation.

13. 4-H Club/County Scrapbook - scrapbook relating to 4-H history of local club or county compiled by club historian. If multiple books included in exhibit, only bring book with most current year's work.

14. 4-H Member Scrapbook - scrapbook relating to individual 4-H members' 4-H history. If multiple books included in exhibit, only bring book with most current year's work.

15. Special Events Scrapbook - a scrapbook relating to a 4-H special event, such as Congress or CWF or a personal or family special event, such as a trip, family reunion, etc.

HERITAGE LEVEL II - Division 102

Advanced (over 4 years in project)

1. Heritage Poster or Flat Exhibit - entries may be pictures, posters, items that depict family heritage. Exhibits must be supported by a written explanation.

2. Family Genealogy/History Notebook - include pedigree charts/family group sheets, with documentation for two to three generations of one family line, expanding each year. If multiple books are included in exhibit, only bring book with most current year's work.

3. Local History Scrapbook/Notebook - scrapbook or notebook that depicts history of local community or Nebraska that helps youth appreciate their heritage. **4. Framed Family Groupings (or individuals) of pictures showing family history** - pictures must be supported by a written explanation.

5. Other Exhibits depicting the heritage of the Member's Family or Community - exhibit must be supported by a written explanation. May include biographical album of themselves or another family member, family cookbooks, etc.

6. 4-H History Scrapbook - relating 4-H history of local club or county, must be work of individual 4-H'er, no club reports. If multiple books are included in exhibit, only bring book with most current year's work.

7. 4-H History Poster - relating to 4-H history of local club or county or individual.

8. Story or Illustration about a Historical Event

9. Book Review about local, Nebraska or regional history.

10. Other Historical Exhibits - attach an explanation of historical importance.

11. Exhibit Depicting the Importance of a Community of Nebraska Historic Landmark.

12. Community Report - documenting something of historical significance from past to present.

13. Historic Collection - displayed securely and attractively in a container no larger than 22" x 28".

14. Video Documentary of a Family or Community Event - Must be produced and edited by 4-H member.

15. 4-H Club/County Scrapbook - scrapbook relating 4-H history of local club or county compiled by club historian. If multiple books are included in exhibit, only bring book with most current year's work.

16. 4-H Member Scrapbook - scrapbook relating to individual 4-H members' 4-H history. If multiple books included in exhibit, only bring book with most current year's work.

17. Special Events Scrapbook-A scrapbook relating to a 4-H special event, such as Congress or CWF or a personal or family special event, such as a trip, family reunion, etc.

PREMIUM CODE 14

CITIZENSHIP - Division 120

The purpose of these citizenship exhibits is to foster civic responsibility and action within the diverse areas of citizenship including community service, service learning, government and policy making.

CITIZENSHIP cont.

Supporting Material: All entries must have a statement explaining: the purpose of the exhibit. All exhibitors are encouraged to show evidence of their personal experiences, study or observations that relate to their exhibit. This helps the judges understand what the 4-H'er did and learned in the process that led to the exhibit.

DISPLAY SIZE

Displays are limited to 22 inch x 28 inch wide.

SUPPORTING INFORMATION

All entries must include the following: What did you learn about Citizenship while creating this exhibit?

References: All exhibitors should reference material sources or supporting information if outside sources were used to create exhibits (i.e. if questions from a game were taken from an outside source, they must be referenced).

Identification: All entries should be labeled with the exhibitor's name and county.

1. Care Package Display -This exhibit is a display about the PROCESS of creating and giving a care package, not the actual care package. You may use a poster, Power Point (should be saved to a USB drive) to describe the PROCESS of developing and giving a care package to a service organization. Answer the following questions in your exhibit.

- A) How did you select the organization?
- B) What items did you include in your care package? C) Why did you select those items?
- D) How did it feel to present your care pack to the organization?
- E) What did you learn from this experience?
- F) Other information that you feel is important about the care package or organization.

Examples include: Backpack for school supplies, litter pan for animal shelter items, suitcase for abuse shelter or homeless shelter, etc.

2. Citizenship Game - Design a game which could include but is not limited to symbol flash cards, question and answer board or stimulation with props. Clear game instructions and objectives must be included.

3. Patriotic or Cultural Fine Arts - Design art relevant to citizenship.

4. Public Adventure Scrapbook - Describe a 4-H member's Public Adventure or service-learning Activity. Scrapbooks must measure no more than 16 inch x 16 inch.

5. Public Adventure Poster - Describe your Public Adventure or service-learning activity. Display posters must be stiff enough to stand when supported from behind and below. Length and width must be no more than 24 inch x 28 inch.

6. Written or Recorded Stakeholder Interview - Follow the outline found in the Public Adventures Curriculum. It may be written or recorded. Upload to a video streaming application and 4-H member must provide a hard copy QR code for viewing. 4-H members are encouraged to rest their codes on line on several devices to check for appropriate permissions for public viewing.

7. Written Citizenship Essay - Promote good citizenship and patriotism in essay form. This essay is open for all age groups. All essays should be 300 - 400 typewritten words.

8. For 9th-12th graders only: Oral Citizenship Essay - addressing the theme "Freedom's Obligations", should be 3-5 minutes. No background music, singing or other enhancement allowed. Upload to a video streaming application and 4-H member must provide a hard copy QR code for viewing. 4-H members are encouraged to rest their codes on line on several devices to check for appropriate permissions for public viewing. Voice tone should be normal and conversational. Attach a copy of the written essay.

9. Service Items - Non-perishable item created for donation. Examples include but not limited to lap quilt, Quilt of Valor, and homemade toys. Attach an explanation of who the recipient was and how the service project was made and used. This service item could be part of a later community service effort

10. 4-H Club Exhibit - Depict what a 4-H club has done in the area of community service. This item could include, but is not limited to, a service item, poster, scrapbook, and cultural or creative arts item or care package, Quilt of Valor.

PREMIUM CODE 14

SEEING i2i - Division 130

All exhibitors are encouraged to show evidence of their personal field experiences, study or observations that relate to their exhibit. This helps the judges understand what the 4-H'er did and learned in the process that led to the exhibit.

1. Cultural Fine Arts – Design a piece of art that reflects and symbolizes a culture's unique identity, using the medium of your choice.

2. How Are We Different? Interview - Follow the interview guide on page 3 and reflect on the differences and similarities between you and the person you are interviewing.

3. Name Art - Design a piece of art that symbolizes or explains where your name came from and what it means using media of your choice.

4. Family History - Create a depiction that highlights a 4-H member's family cultural history or the ethnic composition of your community. Include details about the first settlers, their origins, and evidence of their cultural background that still exists today—such as community or family celebrations, museum exhibits, educational displays, or historical markers.”

5. Cultural Food Story or Essay - Share the story of a cultural food that's meaningful to your family. Your entry can be written as a story or essay.

6. “This is Who I Am” Poem – Written by the 4-H member that reflects who they are.

7. i2i Poster – Poster that depicts what you have learned through the Seeing i2i project.

8. Biography of a Historical Figure - Written about a historical figure who has made a positive impact on our society or who has made a difference in the lives of others.

9. Play Script - Written about a different culture.
PREMIUM CODE 15

HUMAN DEVELOPMENT - Division 200

GENERAL INFORMATION

Exhibitors in the Human Development project area will be asked to focus on designing toys/games/activities that meet the different needs of children.

Categories: are based on the Early Learning Guidelines in Nebraska which identify the important areas in which our children should grow and develop. Use the Nebraska Department of Education website and the resources around the Early Learning Guidelines to help understand the six areas and the skills children need to develop to create your exhibit, in conjunction with your project manual. <https://www.education.ne.gov/oec/early-learning-guidelines>

SUPPORTING INFORMATION

Classes 1-6 and Class 8 – final ribbon placings of the exhibit will include the completeness and accuracy of this information sheet. Information sheets not included or not complete will be lowered one ribbon placing.

INFORMATION SHEET for entries for Classes 1-6 should include:

1. Where did I get the idea for this exhibit?
2. What decisions did I make to be sure exhibit is safe for a child to use?

3. What age is this toy, game, or activity appropriate for and why? (Infant, Birth-18 mos.; Toddlers, 18 mths 3 yrs.; Preschoolers, 3-5 yrs. or Middle Childhood, 6-9 yrs.) 4-H'ers must give at least 2 examples that help in understanding the appropriateness of this exhibit for the age of the child (see project manuals).

4. How is the toy, game or activity intended to be used by the child?

INFORMATION SHEET for entries for Class 8 should include:

1. State which ONE age group (infant, toddler, preschooler, middle childhood) the kit was prepared for.
2. What are children this age like? Give 2 examples to show how the kit would be appropriate for children this age.
3. What will the child learn or what skills will they gain by using the kit?
4. What item(s) were made by the 4-H'er. 4-H'er should make one or more items in the kit, but purchased items are also allowed. (It is highly suggested that an inventory list of items in the kit be included).

4-H'ers enrolled in the I HAVE WHAT IT TAKES TO BE A BABYSITTER project may enter:

Toy, game, or activity made for a selected and identified age group. The intent is for the toy, game, or activity to teach the child in the developmental area related to each class. For example, a game that is developed to help youth learn language and literacy skills would be an exhibit for class 2. Each area is a different class.

1. Social Emotional Development

2. Language and Literacy Development

3. Science

4. Health and Physical Development

5. Math

6. Creative Arts

7. Activity with a Younger Child - poster or scrapbook showing 4-H'er working with a child age 0 to 8 years. May show making something with the child, or childcare or child interactions. May include photos, captions, story, or essay. The size of exhibit is your choice. Other people may take photos so 4-H member can be in the photos. 4-H'er must make a scrapbook or poster. No information sheet needed for class 7. (SF 115)

8. Babysitting Kit - purpose of the kit is for the 4-H member to take this with them when they babysit in someone else's home. Do not make a kit for a combination of ages or for your own family to use. Chooser ONE age group (infant, toddler, preschooler, middle childhood).

4 4-H'ers must make one or more items in the kit, but purchased items are also allowed. A list of items in the kit is suggested to be included. Display in box or bag suitable for what it contains. Approximate size not larger than 12 inches x15 inches x10 inches. All items in the kit must be safe for child to handle. Most importantly the kit should serve a defined purpose and not be a catch all for several items. Information sheet for class 8 must be included.

4-H'ers taking any of the projects in Department C 200 may enter:

9. Family Involvement Entry - scrapbook, poster, or story describing an activity the family did together. It might include making something such as a doll house or feed bunk. Items may be exhibited if desired. Other possibilities include a house or farm cleanup project, a family reunion, a celebration of a family milestone, a trip or vacation, moving, a community service project. Photographs are encouraged. Visuals should show family participation. Participation by all family members is important. Include a list of family members and what each person did to participate in the event.

10. Growing With Others - scrapbook or poster. Examples - How to decide if it is time you can be home alone, and related activities. How responsibilities and privileges are related. Friendships. Working with others. Understanding rules and boundaries. A family tree. A family rules chart. A family meal plan, with pictures of a special family meal. A home safety checklist. Being street smart (safety). A school scrapbook showing yourself and your school activities, memories, and special interests.

11. Growing In Communities - scrapbook or poster. Examples: A career study. A photo story about your own growth and development, not only physically but emotionally, socially, spiritually, mentally. A television evaluation (see project manual). How have you overcome obstacles. Friendships. A community profile. A community service project. Working with parents. Teaching experiences. Understanding discipline. Playground safety check.

PREMIUM CODE 13

QUILT QUEST - Division 229

GENERAL INFORMATION

A quilted exhibit is made up of at least 3 layers. Quilts or quilted items must be machine quilted or hand tied through all layers. No fleece blankets, please.

All quilt piecing and finishing must be the sole work of the 4-H member. Quilting, whether machine or hand or hand-tied, except for the Premier Quilt class. No pre quilted fabric may be used. Wall quilts must have a hanging sleeve on the back of the quilt or some method for hanging. All quilts must be clean and finished for intended purpose.

When judging Quilt Quest exhibits, the judges consider SF209 "Standards for Judging Quilts and Quilted Items."

Note the description of the classes. They denote the degree of difficulty in construction and not the number of years in the project.

SUPPORTING INFORMATION

All quilted exhibits in classes 50-83 must include a half sheet of 8.5 inch x 11-inch paper including an explanation answering the following questions:

- A) How did you select the design and fabrics?
- B) Did you use a kit, jelly roll, charm squares, etc.
- C) Explaining what you did and what was done by others.
- D) What did you learn that could be used on your next project?

Attached the question and answers using a safety pin (no straight pin) to the lower left corner of the back of the quilt with the name of the quilt maker and date completed.

FABRIC

For all classes, 4-Hers can choose fabrics for the quilt by selecting fabric from fabric bolts. 4-Hers may also use "fabric collections" offered by manufacturers in a particular designer or fabric line. Examples of fabric collection include:

- **Jelly Rolls** are made of (up to) 40 different strips of 2 1/2 inches wide fabric laying on top of one another and rolled up to look like a jelly roll. The fabric is created by one designer or fabric line and compliments each other. In many cases, less skilled 4-Hers find it difficult to cut narrow strips with a rotary cutter and ruler, so this fabric selection may make it easier as they learn.
- **Honey Buns** are made like the Jelly Rolls with 1 1/2 inch strips of fabrics.
- **Layer Cakes** are 10-inch squares of fabric from a manufactured designer or fabric line with different pieces of fabric "layered" on top of one another to look like a piece of cake.
- **Charm Packs** are made of 5-inch squares of coordinating fabric and may be tied up with a string or scrap of fabric.

- **Candies** are 2.5-inch squares of fabric from a manufactured designer or fabric line.
- **Turnover** is a collection of coordinating fabrics that are cut into 6-inch triangles
- **Fat Quarters** are ½ yard cuts of fabric which are cut in half to make a rectangle that is approximately 18 inches x 21 inches. (One half yard of fabric yields 2 fat quarters). The “fat quarter” can be more economical to purchase for a smaller quilt because the purchaser does not have to buy the entire yardage width.
- **Fabric Kit** is a collection of fabrics cut in large pieces to accommodate the requirements of a particular quilt pattern. The 4-Her must cut out all of the smaller squares, rectangles, etc. to make the quilt top according to the pattern directions.

After fabric selection, youth can use a variety of tools for cutting the fabric and completing the quilt. Cutting into pattern pieces may include hand roller die cutting machines that cut various shapes that can be applied to fabric. This is allowed in the construction of the quilt.

EXPLORING QUILTS

10. Exploring Quilts - illustrate some aspect of quilts or quilt making. Examples include, but are not limited to, language arts, quilts of different cultures, chemistry, design, preservation, history, and construction, math conversion of quilt patterns, textiles/fabrics, computerization, and entrepreneurship. History may include history of an old quilt or history or research of a particular style of quilt such as Baltimore album quilts, or Amish quilts. Exhibit may be a 14 inch x 22 inch poster, three-ring binder notebook that is 8.5 inches x 11 inches, or the use of a digital platform. All items in an exhibit must be attached together and labeled. No quilted items in this class.

RULES: In Classes 20, 21, and 22. Supporting information is required for these exhibits. Information must also include elements or principles of design used and steps taken to complete project. Tag templates can be found on the 4-H State Fair website, please note this is in the Home Design and Restoration information sheet: <https://go.unl.edu/ne4hquilting>. Exhibits without supporting information will be lowered a ribbon placing.

20. Quilt Designs Other Than Fabric - two or three-dimensional item with quilt design made using medium other than fabric such as stained glass, paper, etc. Supporting information required - see rules above.

21. Barn Quilt - Less than 4 feet x 4 feet. Supporting information required see rules above..

22. Barn Quilt (SF208B) - 4 feet x 4 feet or larger. Supporting information required see rules above.

30. Computer Exploration – Exhibit may be a 14 inch x 22 inch poster or three-ring notebook that is 8.5 inches x 11 inches with a minimum of six computer-generated quilt designs or color variations on a quilt design. Include information of type of program used, process used to generate designs, or how you used color to create different quilt designs. No quilted items in this class.

PREMIUM CODE 4

QUILTED EXHIBITS

40. Wearable Art - quilted clothing or clothing accessory which must have a recognizable amount of quilting. May include fabric manipulation. Quilting must be done by 4-H'er. On a half sheet of 8.5 inch x 11 inch paper, tell how you selected the design and fabrics including whether or not you used a kit, jelly roll, charm squares, etc.

41. Inter-generational Quilt - a quilt made by a 4-H youth and family members or friends of different generations. On a half-sheet of 8.5 inch x 11 inch paper, include A) How was the quilt planned and who did what in the construction of the quilt? B) How did you select the design and fabrics including whether or not you used a kit, jelly roll, charm squares, etc.? C) What did you learn that you can use on your next project?

42. Service Project Quilt - a quilt that has been constructed by 4-H youth to be donated. On a half sheet of 8.5 inch x 11 inch paper, include A) explanation of why the quilt was constructed and who will receive the donated quilt, B) How did you select the design and fabrics used including whether or not you used a kit, jelly roll, charm squares, etc.? C) What did you do and what was done by others? D) What did you learn that you can use on your next project?

QUILT SIZES

Add the length and width of your quilt to determine the size to make sure it is entered in the correct class.

Small - length + width = less than 60 inches. This size includes miniature quilts, wall hangings, table runners, placemats (4), and pillow and must be quilted.

Medium - length + width = from 61 inches to 120 inches.

Large - length + width over 120 inches.

Pieced quilts are made up of squares or rectangles.

Attach card with supporting information.

50. Small

51. Medium

52. Large

In addition to squares or rectangles, quilts may have triangles, and/or may be embroidered.

QUILTED EXHIBITS CONT.

Attach card with supporting information.

60. Small

61. Medium

62. Large

In addition to any of the methods in classes 50 - 62, quilts may have curved piecing, appliqué, Celtic style, stained glass style, paper piecing, art quilt style. An art quilt is an original exploration of a concept or idea rather than the handing down of a “pattern”. It experiments with textile manipulation, color, texture and/or a diversity of mixed media. An Art Quilt often pushes quilt world boundaries, or other non-traditional styles. Attach card with supporting information.

70. Small

71. Medium

72. Large

PREMIER QUILTS

Premier Quilt - entire quilt is the sole work of the 4-H'er, including quilting (hand or machine). No tied quilts. Attach card with supporting information.

80. Hand Quilted

81. Sewing Machine Quilted

82. Long Arm Quilted - non-computerized/hand-guided

83. Long Arm Quilted - computerized

PREMIUM CODE 2

MAKING CENTS OF IT - Division 246

COUNTY ONLY ENTRIES

1.+ Money Objects - read the story listed on page 8 and draw and label on an 8.5 inch x 11 inch sheet at least 5 different objects used as money before coins and paper currency were made.

2.+ Wants & Needs - make a wants/needs poster (11 inch X 17 inch) using the information on page 16 of the manual.

PREMIUM CODE 15

CONSUMER MANAGEMENT

MY FINANCIAL FUTURE - Division 247

GENERAL INFORMATION

Entries should be typed and then attached to a piece of colored card stock or colored poster board (limit the size of the poster board or card stock to 14 inch x 22 inch or smaller). You may use the front and back of the poster board.

Beginner/Intermediate

1. Write 3 SMART Financial Goals For Yourself - one should be short term, one intermediate, and one long term.) Explain how you intend to reach each goal you set.

2. Income Inventory - using page 13 as a guideline, list sources and amounts of income you earn/receive over a six month period. Answer the following questions: What were your income sources? Were there any steady income sources? What did you do with the income you received? Include your income inventory in the exhibit.

3. Tracking Expenses - use an app or chart like the one on page 17 to track your spending over 2 months. Answer the following questions: What did you spend most of your money on? What did you learn about your spending habits? Will you make any changes in your spending based upon what you learned? Why or why not? Include your chart in your exhibit.

4. Money Personality Profile - complete the money personality profile found on pages 21-22. Answer the following questions: What is your money personality? How does your money personality affect the way you spend/save money? Have a friend or family member complete the money personality profile. Compare and contrast (how are you alike how are you different) your money personality profile with theirs.

5. Complete Activity 8 “What Does It Really Cost?” - on pages 39-40.

6 My Work; My Future - interview three adults in your life about their careers or jobs using the questions on page 51 and record these answers. In addition, answer the following questions on your display. What did you find most interesting about these jobs? Were there any positions you might want to pursue as your career? Why/Why not? What careers interest you at this point in your life? What are three steps you need to do now to prepare for this career?

Intermediate/Advanced

7. Interview - someone who is paid a salary; someone who is paid a commission; and someone who is paid an hourly wage. Have them answer the following questions plus any additional questions you may have.

*What are some benefits of receiving your pay the way you do (salary, commission, or hourly wage)? *What are some negative outcomes for getting paid the way you do? *Does your pay keep pace with inflation? Why do you think this? Summarize: Based upon your interviews which payment method would suit you the best? Discuss your answer.

8. The Cost of Not Banking - type your answers to the questions about Elliot on page 50.

9. Evaluating Investment Alternatives - complete the case study of Jorge on page 64. Answer all three questions found at the bottom of the page.

10. Understanding Credit Scores - watch the video and read the resource listed on page 71. Answer the following questions. *Name 3 prudent actions that can reduce a credit card balance.

10. Understanding Credit Scores CONT.

*What are the main factors that drive the cost of credit? *List one personal financial goal that you could use credit or collateral to purchase. Discuss possible consequences that might happen with improper use of credit for your purchase.

11. You Be the Teacher - create an activity, story board, game or display that would teach another youth about “Key Terms” listed on page 62. Activity/display must include at least five (5) of the terms.

PREMIUM CODE 15

DEPARTMENT - Environmental Education/Earth Sciences

ECOSYSTEM SERVICES - Division 310 COUNTY ONLY ENTRIES

1.+ Write a Story about an Ecosystem - why there are no honeybees. See page 13.

2.+ Energy In/Energy Out! Display - make a display following pages 32-33.

3.+ Create an Ethanol - education poster 14 inch x 22 inches. See pages 36-37.

EARTH'S CAPACITY - Division 315 COUNTY ONLY ENTRIES

5. + Book Report - Read one of the two books listed on page 6. Answer the questions on page 7 on one sheet of paper.

6.+ Butterfly Observations -Observe butterflies in your area. Answer the questions on the bottom of page 23 on a sheet of paper for your exhibit.

7.+ Take in the Trash -Do the Take in the Trash activity on pages 38-39. Answer the questions at the bottom of page 39 on a sheet of paper for your exhibit.

PREMIUM CODE 15

FORESTRY - Division 320

GENERAL INFORMATION

The official reference for all forest projects is the Tree Identification Manual 4-H 332 which can be picked up at the Extension Office. Other helpful forestry references include Trees of Nebraska (EC 92-1774-X).

DISPLAY BOARD, POSTER AND BOOK SIZES Display “boards” must be made from wood or wood composite, i.e. plywood, masonite or equivalent, 1/4 inch to 1/2 inch thick and no larger than 24 inches x 24 inches. Display boards may be coated, e.g. painted, varnished or equivalent, on both sides, to prevent warping.

Display “posters” must be made from a material, i.e. foam board or poster board that will stand upright without buckling. Length and width must be no more than 24 inches x 24 inches.

Display “books” must measure no more than 16 inches x 16 inches

At least 5 of the 10 samples in Classes 2, 3, 4, and 5 must be from the list of 60 species described in 4-H 332. Samples must be from 10 different tree species. For example, Emerald Queen Maple and Crimson King Maple are both varieties of the same species (Norway Maple) and thus have the same genus and species name, i.e.. *Acer platanoides*. All samples must be from trees, NO shrubs. If more than 10 samples are included in the display, only the first 10 samples from the current year will be judged.

Due to Emerald Ash Borer infestation, no true ash species (Green Ash, White Ash, Black Ash, or Blue Ash) may be included in any collection. Inclusion of a true ash species will result in the project being disqualified.

Remember that other general labeling standards apply. For example, scientific names are always italicized or underlined. Also, the first letter of a Genus is always capitalized. The first letter of a species name is always lower case. When required, always indicate complete scientific names (Genus and species) and common names, (i.e. Norway Maple) even when “variety names” are included. For example, the scientific name of Emerald Queen Maple is *Acer platanoides* and the common name is Norway maple “Emerald Queen” may be included as the variety name, but variety names are not required.

How well the exhibitor follows written directions is an important factor in judging.

1. Design Your Own Exhibit - prepare an educational exhibit about some aspect of trees, forests, or forestry. Examples include paper recycling, forest fire, forest products, forest wildlife, or forest pests. The only requirement is that the display be no larger than 24 inches by 24 inches by 24 inches. You can use photographs, drawings, samples, charts, posters, etc. Include enough information to adequately explain the subject to the viewer. Be as creative as you like.

2. Leaf Display - the leaf display must include samples of “complete leaves” from at least 10 different tree species. At least 5 of the 10 samples must be from a tree on the 2026 Nebraska 4-H Tree list. The display must include at least two samples of simple leaves, compound leaves, and conifer leaves. Leaves should be pressed, dried, and mounted.

Collection: Collect leaves any time after they have reached full size, usually beginning in early summer.

Leaf samples should be in good condition and representative of the average leaves on the tree. Keep in mind that shaded leaves often are much larger than leaves in the sun. Carefully remove leaves from the twig with the entire petiole or rachis (if compound) intact. After collection, fresh leaf samples can be temporarily stored within the pages of an old magazine, but they should be properly pressed and dried for display. Be sure to record pertinent information during collection and when collecting leaves on private land, remember to get permission. All collection must be done by the 4-H member.

Mounting: Leaves may be displayed in a notebook or on a display board. Any method may be used to mount leaves, e.g. wire, glue, tape, staples, plastic bags, but be sure all their features can be clearly identified.

Labeling: The label for each sample must include:

- 1) common name
- 2) scientific name
- 3) leaf type (i.e. broadleaf, needle-like, etc.)
- 4) leaf arrangement (for broadleaf trees, i.e alternate, opposite, whorled)
- 5) leaf composition (for broadleaf trees,i.e. simple, pinnately compound, palmately compound, etc)
- 6) collector's name
- 7) collection date
- 8) collection location (be specific, state and county at a minimum)

Supplemental information: May include general uses, common products, fall color, etc., to enhance its educational value. These are important factors in judging, and should not exceed three printed pages including citation of sources.

3. Twig Display - The twig display must include twig samples from at least 10 different tree species. At least 5 of the 10 species must be from the 2026 Nebraska 4-H Tree List. The display must include at least two samples each of opposite and alternate leaf arrangements from broadleaf trees.

Collection: Twig samples should be collected during the dormant season (approximately November-March) when the buds are mature, but before spring budbreak. Be sure to collect healthy twigs, not diseased or dead twigs. Twig samples must be at least 6 inches long and exhibit buds. The terminal end of the twig must be included. If present, leaves of deciduous trees should be removed. Leaves of evergreen trees should be retained but be sure the buds are visible. Side branches should be trimmed to less than 1 inch in length. All twig collection must be done by the 4-H member.

Mounting: Twigs must be mounted on a display board. Any method including wire, glue, tape, staples, etc, may be used to mount twigs, but be sure all their features

can be clearly identified. Be sure to cut the non-terminal end at a slant so the pith can be seen.

Labeling The label for each sample must include:

- 1) common name
- 2) scientific name
- 3) leaf arrangement (for broadleaf trees, i.e. alternate, opposite, whorled)
- 4) collector's name
- 5) collection date
- 6) collection location (be specific, including county and other relevant information)

Supplemental information: This may include general uses, common products, fall color, etc.to enhance educational value. These are important factors in judging, and should not exceed three printed pages including citation of sources.

4. Seed Display The seed display must include seed samples from at least 10 different tree species. At least 5 of the 10 species must be from a tree on the 2026 Nebraska 4-H Tree List.

Collection: Tree seeds should be collected at the time of year when they mature, which varies widely depending upon tree species. For example, Silver maple seeds mature in May while Norway maple seeds mature in September or October. Seed samples should be free of insect or disease symptoms. All seed collection must be done by the 4-H member. The focus of this display is seeds; however, species identification by seeds is often greatly aided by including the fruit since some seeds are very difficult to separate from the fruit. Use the following guidelines when preparing this display:

- If the fruit is displayed along with the seeds, clearly label each.
- Seeds enclosed in a dry, papery fruit (such as maple, ash, and elm) should be left within the fruit to aid in identification.
- Seeds enclosed in large fleshy fruit(s) (such as apple, mulberry, pawpaw) should be removed from the fruit and displayed without the fruit. Small fleshy fruits that can be dried (such as hackberry) may be displayed, but some seed should also be removed from the fruit and displayed alongside the dried fruit.
- Acorns (oaks) should be left intact to aid in identification.
- Seeds easily removed from the fruit, such as seeds within husk (walnuts, hickory, buckeye, etc.), a pod (honey locust, Kentucky coffee tree, etc.), or a capsule (poplar, sweetgum, etc.) should be removed from the fruit for display. The fruit may be displayed in addition to the seed.
- Cones from conifers (pines, spruces, fir, etc) may be displayed along with the conifer seeds.

Mounting: Seeds may be displayed in a variety of ways, but they must be securely mounted and easily viewed. For example, seeds might be mounted on a display board or displayed in jars in a rack.

Labeling: The label for each sample must include:

- 1) common name
- 2) scientific name
- 3) type of fruit (e.g. samara, pod or legume)
- 4) collector's name
- 5) collection date
- 6) collection location (be specific, including county and other relevant information)

Supplemental information: This may include general uses, common products, fall color, etc. to enhance educational value. These are important factors in judging, and should not exceed three printed pages including citation of sources.

5. Wood Display - the wood display must include wood samples from at least 10 different tree species. At least 5 of the 10 species must be from a tree on the 2026 Nebraska 4-H Tree List.

Preparation: Samples may be of any shape, for example sections of a board, wood cylinders turned on a lathe, horizontal or vertical cross sections of a small log with bark attached, etc. All samples should be the same shape, for example all wood cylinders or all sections of a board. Each sample can be no larger than 4 inches by 4 inches by 4 inches. Cut surfaces should be sanded to show the grain. Treating samples with a clear finish (no stain) is optional. All samples must be collected by the 4-H member.

Mounting: Samples may be displayed in a variety of ways, for example mounted on a display board or displayed in a box or rack etc, but they must be securely mounted and easily viewed.

Labeling: The label for each sample must include:

- 1) common name
- 2) scientific name
- 3) wood type (softwood or hardwood)
- 4) collector's name
- 5) collection date
- 6) collection location (be specific, including county and other relevant information)

Supplemental information: This may include general uses, common products, fall color, etc. to enhance educational value. These are important factors in judging, and should not exceed three printed pages including citation of sources.

6. Cross Section Display - a disc cut from a tree species listed on the 2026 Nebraska 4-H Tree List. The sample must be collected by the 4-H member within one year of the fair. The disc must measure 6 to 12 inches in diameter and 1 to 3 inches thick.

The bark should be firmly attached, which may be difficult if the tree was dead when the disc was cut. Sand at least one side of the disc so the grain can be seen. If the disc is treated with a clear finish, both sides must be treated to minimize warping. Some cracking or checking can be expected and is allowed.

Labeling: The following parts must be clearly, accurately and securely attached. Cross sections could be labeled with pins, paper tags, or some other form of identification

- 1) pith
- 2) heartwood
- 3) sapwood
- 4) one growth ring
- 5) cambium
- 6) bark

A separate label firmly attached to the back of the disc must include:

- 7) common name
- 8) scientific name
- 9) tree classification (softwood or hardwood)
- 10) age of the cross section
- 11) collector's name
- 12) collection date
- 13) collection location (be specific, including county and other relevant information)

7. Parts of a Tree (This project is for youth ages 8- 11) -

Prepare a poster, no larger than 24 inches x 24 inches that identifies the main external parts of any tree: trunk, crown, leaves, roots, fruit, flowers, buds, bark. Identifying other internal parts, e.g. cambium, annual rings, etc. is optional. Attach a separate label on the back of the poster that includes the exhibitor's name and age.

8. Living Tree Display - a tree seedling grown by the exhibitor from seed. The seed must be from a species listed on the 2026 Nebraska 4-H Tree List. The seedling must be 60 days to 1 year old (on State Fair judging day). The container must contain at least 8 inches of soil (potting mix or suitable natural soil), vertically have drainage holes, and a drain pan to catch drainage water. For this display, the 4-H member does not have to be the one to collect the seed, but they will need to plant the seed themselves.

Labeling: A waterproof label must be attached to the pot or to a stake that is in the soil of the pot and include:

- 1) common name
- 2) scientific name
- 3) seed treatments (if any)
- 4) planting date
- 5) emergence date
- 6) exhibitor's name

Supplemental information: Examples include where the seed was collected, growth measurements, uses for that species, etc. These may be included in an attached notebook, poster, etc. Supporting information will enhance value and be an important factor in judging.

Supplemental information needs to be attached to either the pot or to a stake that is in the soil of the pot. DO NOT attach supplemental information to the living tree. Supplemental information should not exceed three 3 printed pages and cite sources of information.

9. Forest Product Display - Prepare a visual display and/or collection tracing the origin of one non-lumber product that comes from trees and/or forests. The display must be no larger than 24 inches x 22 inches x 28 inches. Original photographs, drawings, samples, charts, posters, etc. can be used. Posters submitted may be no larger than 24 inches x 24 inches and may be either vertical or horizontal. The contestant must identify what species of tree the product is derived from and where the product is harvested, grown, or otherwise collected. The product listed must be partially or fully derived from trees; if partial the approximate percentage should be articulated in the display.

- The goal of this exhibit is for 4-H members to learn that many products come from trees and forests and to explore one of these products through in-depth study.
- Information about the tree or forest product: For Example information about harvesting, processing, industry information, and environmental or other benefits may be included to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.
- Personal interviews with industry professionals are encouraged as a source of information.

10. Forest Health Display - Prepare a visual display outlining a specific forest health issue such as a tree disease, insect pest, animal- or human-caused damage, or an abiotic issue such as weather damage. The display must be no larger than 24 inches x 24 inches x 24 inches. Original photographs, drawings, samples, charts, posters, etc. can be used. Actual specimens are strongly encouraged but must be properly preserved, such as insects pinned or placed in vials of alcohol, leaves pressed and dried. Posters submitted may be no larger than 24 inches x 24 inches.

- Explain through the display what species of trees the health issue affects, diagnostic features of the issue (symptoms in trees, identifying features of the pest, etc.), and management options.
- Include common and scientific names of trees and pests.

Supplemental information about the tree or forest health issue: for example origin, proliferation in Nebraska/United States, and physiological effects on the tree may be included to enhance educational value.

Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Include citation of sources.

11. Wildfire Prevention Poster - Prepare a poster, no larger than 24 inches x 24 inches that promotes wildfire prevention strategies. Strategies articulated in the poster can include personal and/or land management actions such as forest management plans and implementation, placement of fire breaks or fuel breaks around buildings, wildfire preparedness items, etc.

Supplemental information about wildfire prevention should be attached to the poster: for example frequency of wildfires in Nebraska/United States, financial costs of wildfires, environmental factors that contribute to wildfires, etc. To enhance educational value.

Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Include citation of sources.

12. Tree Planting Project Display – Plant a tree in your community- on private or public property. Prepare a visual display where the 4-H member articulates proper tree planting techniques and follow up care for the tree after planting, why the individual tree species was chosen, as well as steps taken to continue care for the tree after initial planting. The display must be no larger than 24 inches x 24 inches x 24 inches. Original photographs, drawings, charts, posters, etc. can be used. Posters submitted may be no larger than 24 inches x 24 inches. The tree must have been planted 60 days to one year before State Fair judging day. 4-H members must obtain permission from necessary authorities and property owners before planting any trees. Diggers Hotline (811) MUST be contacted before planting. Provide documentation that permission was obtained and that Diggers Hotline was contacted.

Display: The following information about the tree must be included in the display:

1. common name
2. scientific name
3. planting location
4. planting date
5. tree source (nursery or store where the tree purchased)
6. planter's name
7. proper tree planting steps
8. tree care and maintenance (after planting)

Supplemental information about the tree: For example why the species was chosen, growth measurements, uses for that species, etc., may be included in an attached notebook, poster, etc. to enhance educational value.

Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.

PREMIUM CODE 13

GENERAL INFORMATION

Each exhibit must be properly identified with Unit and Class.

All plant displays and display covers must be the results of the current year's work. Plant identification and lists of appropriate plants in each category (grasses, forbs, shrubs, and grass-like plants) can be found in the Range Judging Handbook and Contest Guide (EC150, Revised. 2025) -

<https://extensionpubs.unl.edu/publication/ec150/2025/pdf/view/ec150-2025.pdf>, Common Grasses of Nebraska (EC170), and Common Forbs and Shrubs of Nebraska (EC118).

The purpose of these exhibits is to demonstrate to the public the benefits from the study and application of crop, weed, range, and soil sciences to solving problems in management, conservation, sustainability, and environmental protection.

Books (classes 1-6) - plants must be mounted on sheets that are no larger than 14 inches wide by 14 inches high. Plants should be glued rather than taped and the mounts should be protected with a clear cover. Exhibits will be judged on completeness of the plant mount, accuracy or identification, labeling, neatness and conformation to project requirements. Proper plant mount should include root as well as stem and leaf tissue. Each completed mount must have the following information (see example below) in the lower right corner of the mounting sheet:

1. Scientific name (in italic or underlined), with authority.
2. Common name.
3. County of collection.
4. Collection date.
5. Collector's name.
6. Personal Collection number, indicating order that plants were collected.
7. Other information, depending on class selected, i.e., value and importance, life span, growth season, origin, major types of range plants. This information should be typed or printed neatly.

Scientific name: *Schizachyrium scoparium* (Michx.)

Nash Common name: Little bluestem

County of collection: Hall County

Collection date: 6 August 2011

Collector's name: Joe Smith

Collection number: 3

Value and Importance: Livestock Forage: High, Wildlife Habitat: High, Wildlife Food: Medium

Displays (class 7) - The purpose of the display is to tell an educational story to those that view the display. This display is a visual representation (pictures, charts, graphs) no larger than 28 inches by 28 inches on plywood or poster board. The display should be neatly titled. Make sure to label the display with exhibitor's name, address, and county on the back side.

BOARD SIZE

Boards (classes 8-9) - Display boards should be 30 inches wide by 36 inches tall or if hinged in the middle a maximum of 60 inches wide by 36 inches tall. Display boards should be adequately labeled.

- 1. Value and Importance for Livestock Forage and Wildlife Habitat and Food Book** - a collection of 12 different plant mounts, with 4 classified as high value, 4 as medium value, and 4 as low value for livestock forage, wildlife habitat, or wildlife food. Value and importance classifications can be found in the Range Judging Handbook and Contest Guide (EC150, Revised, 2025). Plants can consist of any combination of grasses, grass-like plants, forbs, or shrubs. Assemble plant mounts in order of high, medium, and low value and importance. Label each plant mount with its value and importance classifications for each of the three areas; Livestock Forage, Wildlife Habitat, Wildlife Food.
- 2. Life Span Book** - a collection of 6 perennial plant mounts and 6 annual plant mounts selected from grasses or forbs.
- 3. Growth Season Book** - a collection of 6 cool season grass mounts and 6 warm-season grass mounts.
- 4. Origin Book** - a collection of plant mounts of 6 native range grasses and 6 introduced grasses.
- 5. Major Types of Range Plants Book** - a collection of plant mounts of 3 grasses, 3 forbs, 3 grass-like and 3 shrubs.
- 6. Range Plant Book** - a collection of 12 range plant mounts with something in common (i.e. poisonous to cattle, or historically used as food by Native Americans, or dye plants, or favorite antelope forage, etc.) Include a short paragraph in the front of the book which describes what the plants have in common and why you have chosen to collect them.
- 7. Parts of a Range Plant Poster** - Mount a range plant on a poster board. Label the key plant parts useful for ID & correct for that plant species such as root, branch, cotyledon, petiole, midrib, stem, node, leaf, leaflet, spikelet, collar, ligule, sheath, internode, culm, crown, flower, etc.

Include the plant label in the lower right corner with the scientific and common name of the plant. Put your name and 4-H county on the back of the poster. No larger than 28 inches x 28 inches. The entry should be neatly titled.

8. Special Study Board - this is a display of the results of a clipping study, a degree of use study, range site study, etc. Boards should be no larger than 30 inches wide by 36 inches tall. Boards should be adequately labeled. A short essay must accompany the display to explain the reason for the study, what was learned and study results and should be placed in a sheet cover attached to the board.

9. Junior Rancher Board - this exhibit should include a ranch map with a record book or an appropriate educational display on some phase of rangeland or livestock management. Boards should be no larger than 30 inches wide by 36 inches tall. Boards should be adequately labeled. A short essay must accompany the display to explain the purpose of the rancher board, what was learned, etc.

CONSERVATION & WILDLIFE - Division 340

Example to attach to your exhibit

Name: Chris Clover
County: Clover County
Age: 10

Field Experience, Study, or Observations:

I attended a 4-H workshop where we put out a food plot, and then made turkey calls. We played a game about attracting turkeys. Sometimes we acted like a female to draw in a tom turkey. Sometimes we acted like a lost baby turkey to call in a whole flock. I was able to use my turkey call and play the game successfully. While I never turkey hunted in person, I went on-line to research more turkey calls. I hope to turkey hunt someday, and I want to use a box call to hunt fall turkeys.

Credits/Source:
Information was obtained from Nebraska Game & Parks website

NO FIREARMS, ITEMS WITH A BLADE (broad heads, knives, saws, etc.) or related items of any kind may be exhibited. This applies to actual items, replicated items, and item parts. Photos are a suitable substitution for the actual items.

GENERAL INFORMATION

Show what you did and learned - All exhibitors must show evidence of their personal field experiences, study or observations that relate to their exhibit. This helps judges understand what the 4-H'er did and learned in the process that led to the exhibit.

Proper Credit - Show proper credit for the sources of plans or other supporting information used in exhibits.

Exhibitor Information - The exhibitor's name, address, and parent's (or guardian's) name must be on the back or bottom of all displays.

Wildlife and Wildlife Laws - "Animals" or "wildlife" in the following classes includes wild fish, amphibians, reptiles, birds, or mammals. Please make sure you are following the appropriate wildlife laws. Domestic animals such as domestic livestock or house pets and insect exhibits are not appropriate for this area. 4-H members must comply with current state and federal laws. It is illegal to possess threatened or endangered or protected wildlife or the feathers, nests, or eggs of non-game birds. These items cannot be part of an exhibit. Game birds and game animals taken legally during an open season may be used.

Project Materials - Related project booklets include Exploring Your Environment Series, 4-H Shooting Sports, Amphibians, Bird Behavior (EC 59381), Fishing for Adventure Project Manuals, Wildlife Conservation (4-H 125), Geology, and Outdoor Adventure. Other resources include: Outdoor Skills: Learning Science in the Outdoors series (Science Signature Outcome Program), outdoornebraska.gov/afterschool/ and www.whep.org.

Board and Poster Exhibits - These are displays that show educational information about a topic of interest. Board exhibits can hold objects such as fishing equipment or casts of animal tracks. Mount all board exhibits on ¼ inches plywood, Masonite, or similar panel no larger than 24 inches high by 24 inches wide. Poster exhibits should be on regular poster sheets, no larger than standard size (22 inches by 28 inches) but half size, 22 by 14 inches, is recommended.

All Other Exhibits - Exhibits other than poster/display boards should not exceed 48 inches x 48 inches and be able to be moved by two people. Large exhibits (larger than noted) must be suited and prepared for outdoor exhibition at the Nebraska State Fair. If large exhibits are not suited to outdoor exhibition, youth have the options to create a poster or another suitable substitute for the exhibit, instead of exhibiting the project itself.

PREMIUM CODE 13

Wildlife and How They Live

GENERAL INFORMATION

Classes 1-4 are board or poster exhibits. Display may show any aspect of wildlife, wildlife habitat, or related conservation.

1. Mammal Display- Choose one mammal from the wild and share on your display about the mammal. Examples include life history, behavior, habitat or other interesting facts.

2. Bird Display- Choose one bird from the wild and share on your display about the bird. Examples include life history, behavior, habitat or other interesting facts.

3. Fish Display- Choose one fish from the wild and share on your display about the fish. Examples include life history, behavior, habitat or other interesting facts.

Wildlife and How They Live cont.

4. Reptile or Amphibian Display- Choose one reptile or amphibian and share on your display about the reptile or amphibian. Examples include life history, behavior, habitat or other interesting facts.

5. Wildlife Connections - the purpose of this display is to show interconnections and related aspects among animals, plants, and other habitat components. All displays should show two or more interactions (connections) that occur between/among animals or between animals and their habitat. Displays might show how animals interact with other animals, with people, or with their habitat.

Examples: 1) Food chain display. Use pictures, drawings, or other items to illustrate the source of food energy and where it goes, who eats whom or what. Use arrows to show the direction of the energy (food) flow. 2) Show the role of predators, scavengers, insect eaters, or others in nature. 3) Show how wildlife number (populations) change through the year. 4) Show predation, competition, or other behavioral interactions of wildlife. 5) Choose one kind of wildlife and make observations through a season or year, keep notes of interactions, then make a display of what you saw.

6. Wildlife Tracks - Board or diorama-type box exhibit. Make a display of animal tracks using casting plaster. There are 3 options. For all options, include a brief description of your experiences in making the tracks so the judges better understand what you did and learned. Positive casts (impressions as they would be in nature) are preferred. - Option 1 should show plaster tracks of five or more kinds of wildlife along with a picture or illustration of each kind of animal. (OR) - Option 2 should show two or more plaster tracks of one specific kind of wildlife and should include a picture or illustration of the animal, what the animal may eat, and what may eat the animal. (OR) - Option 3 should show two tracks and include the animal's habitat needs including preferred food, shelter, water, and space in addition to picture or illustration of the animal.

7. Wildlife Knowledge Check - use electrical circuits, pictures or other methods of teaching wildlife identification or other wildlife conservation or shooting sports related knowledge. Maximum size 24 inches x 24 inches.

8. Wildlife Diorama - box must be no larger than 24 inches x 24 inches. The exhibit might show a grassland, prairie, agricultural, woodland, riparian (stream or river corridor) wetland, and/or other area with wildlife habitat.

Example: show a large unbroken grassland or prairie for area-sensitive species such as meadowlarks, greater prairie-chicken, lark bunting, grasshopper sparrows, Ferruginous hawk, burrowing owl, horned lark, upland sandpiper, or pronghorn; AND/OR show an area interspersed with several habitats such as windbreaks, farm fields, woods, waste areas, ditches, and pastures for edge-adapted species such as white-tailed deer, Northern bobwhite, ring necked pheasants, mourning doves, cottontail rabbits, fox squirrels, Northern cardinals, or blue jays. Label the habitats displayed and show at least five kinds of wildlife in their proper habitat. Remember to include supporting information about the wildlife and habitat that is on display.

9. Wildlife Essay - choose a conservation or wildlife topic that interests you and write an essay about it. For example, write about a particular species of wildlife that you have observed or about the values of wildlife on a farm, in town, in a backyard, at a backyard feeder, or at other places. You might write about hunting, or fishing. The essay is between 100 and 1000 words long and should be typed, double spaced, on standard size paper (8 ½ x 11). You might use books, magazines, or personal interviews as resources, but you must give credit to all sources by listing them.

10. Wildlife Values Scrapbook - make a scrapbook about the values of wildlife. This could include aesthetic, scientific, commercial, game, genetic, and/or ecological.

11. Wildlife Arts - the purpose of this class is to allow artistic exhibits that contain educational information about conservation and wildlife. Examples might include paintings, photographs, wood carvings, painted duck decoys, or songs or poems written by the exhibitor. Entries must be appropriate for fair display and no larger than 24" x 24". For example, paintings or photographs should be displayed in notebook format or mounted on a sturdy display panel.

All entries must include a title and brief explanation of the purpose or message (what is the exhibit meant to show).

PREMIUM CODE 9

WILDLIFE HABITAT - Division 342

1. Houses - make a house for wildlife. Examples: bird house (bluebird, purple martin, wood duck, kestrel, barn owl, etc.) or bat house; no insect houses. Make the house functional so that dimensions, hole size, etc. are appropriate to fit the intended species' needs. Include the following information:

1) the kinds of animal(s) for which the house is intended, 2) where and how the house should be located for best use, 3) any seasonal maintenance needed, and 4) any evidence of your personal observations or experiences. Tips: check NebGuide on bird houses and shelves.

2. Feeders/Waterers - make a bird feeder or bath. Examples: seed, suet, or nectar feeders. Squirrel feeders are acceptable. No insect feeders. Include the following information: 1) the kinds of animal(s) for which the water/feeder is intended, 2) where are how the water/feeder should be located for best use, 3) any seasonal maintenance needed, and 4) any evidence of your personal observations or experiences. Tips: check NebGuide on bird houses and shelves.

3. Wildlife Habitat Design - board or poster exhibit. Choose a backyard, acreage, or farm, and design a habitat plan to meet the food, water, shelter, and space needs of at least three kinds of animals you would like to attract. Draw an outline of the area and show what plants or other habitat will be provided. Indicate how the various parts of your plan provide the desired habitat needs. You might include an aerial photo of the area if you have one.

4.+ Bird Species Scrapbook - in an 8 ½" x 11" binder, include 20 bird species photos (either drawings or cutouts, clipart, magazines) and identify each bird. Identification should include the name of the bird, migratory habits, food habits, habitat and nesting habits for each bird.

5.+ Nebraska Bird Poster - poster should be 14" x 22" on white posterboard (horizontal or vertical). Pick ONE bird commonly found in Nebraska and provide information about this bird.

Information to include should be the name of the bird, migratory habits, food habits, habitat, and nesting habits for the bird.

PREMIUM CODE 9

HARVESTING EQUIPMENT - Division 343

1. Fish Harvesting Equipment - board exhibit. Display of equipment used in fish harvesting. Example: fishing knots, hooks (with corks over ends for safety), and lures. Label all items displayed. Include a brief explanation of the purpose of each item and when or where it is used and any personal experiences you have had with the item(s).

2. Build a Fishing Rod - rod building kits with instructions are available for this purpose. May not exceed 96 inches in length. Mount on a board and label with name, county, class number. Include explanation of cost of materials/components, where materials/components were purchased, how made, and number of hours required for construction. Label all parts. Necessary components are: grip, line guides, guide wraps, and hook keeper. Reel seat needs to be aligned with guides, and guides aligned accurately down rod. Guide wraps of size A to D, nylon, or silk thread.

3. Casting Target - make a casting target for exhibit and use. Target must be under 48" x 48". The bullseyes must be 2 feet, outer band must be 1 foot in diameter and can have up to 3 rings. The exhibit must be easy to store, durable, and weather resistant. Include the purpose and rules of using your casting target.

4. Wildlife Harvesting Equipment - board exhibit. Display of equipment used in harvesting wildlife. Examples: expended ammunition casings (no live ammunition permitted), steel traps, hide stretchers, fleshers, etc. For displays of shotguns, rifles, or bows, use drawings or pictures. Label all items displayed: the purpose of each item, when or where it is used, and any personal experiences you have had with the item(s).

5. Inventing Wildlife/Fish Harvesting Equipment - use engineering principles to invent or adapt equipment that helps you harvest fish or wildlife. This could include wildlife calls, an adapted fishing pole for shallow water, a blind, decoys, etc. Share your drawing (or adapted plans), how the equipment works, how you tested it, and the results of testing your prototype and any adjustments you made.

PREMIUM CODE 10

TAXIDERMISTRY - Division 346

1. Tanned Hides - exhibit of a wild animal properly processed by member. No requirement as to mounting, but must meet the size requirements listed under general size rules for state fair exhibits in this General section. Must include the animal's name and the following information about the exhibitor's personal field experiences, study, or observations that relate to the exhibit.

2. Taxidermy - any legal fish, bird, or other wild animal properly processed by the member. No requirement as to mounting, but must meet the size requirements listed under general size rules for state fair exhibits in this General section. Must include the animal's name and the following information about the exhibitor's personal field experiences, study, or observations that relate to the exhibit.

PREMIUM CODE 10

SHOOTING SPORTS - Division 347

4-H Shooting Sports requires youth to be under the direct leadership of a certified 4-H Shooting Sports Leaders in either shotgun, rifle (BB Gun), archery, pistol, black powder/muzzleloader, and/or hunting skills. No firearms can be entered as an exhibit, nor live ammunition; however, information can be shared through pictures. Classes 4-9 can be entered by anyone in the conservation and wildlife area.

1. Shooting Aid or Accessory - any item which helps the shooter/hunter better perform their sport, examples: rifle sling, kneeling roll, arm guard, shotgun vest, target boxes, shooting stick. Include your design or plans you adapted and what the item is and how it is used.

2. Storage Case - an item to safely hold a firearm, bow, ammunition, and/or arrows such as: soft sided shotgun case, quivers, firearm safe. Include your design or plans you adapted. Explain how the storage case is used.

3. Practice Game or Activity - invent or adapt an activity to practice or teach a project skill. Include pictures of youth playing the game, testimonials by 4-H members who played the game, what skill is being worked on, and directions for the game. Explain how you came up with the game or adapted it to fit the needs of your group members.

4. Science, Engineering, Technology Advancements of Shooting Sports, Conservation, or Wildlife Essay or Display - choose a specific area of shooting sports and share how it has advanced, include a timeline and photos or illustrations. Keep your topic narrow and manageable. Essays are limited to 1000 words and should be on 8.5 inch x 11 inch paper.

5. Healthy Lifestyles Plan - include a shooter's (camper, angler, hiker) diet and exercise plan, and how the 4-H member will benefit or improve from following the plan. Ideally, the 4-H member would follow the plan and include some journal entries about adaptations or improvements made while following the plan.

6. Citizenship/Leadership Project - share a display on a citizenship project or leadership project the 4-H member took on individually or with a group to improve some aspect related to 4-H Shooting Sports, Conservation or Wildlife. Examples could be range development, conservation planting to attract wildlife, a camp, or 4-H recruitment event. Include who benefitted from the project, what the 4-H member's role was, and any results.

7. Career Development/College Essay, Interview or Display - research opportunities for careers related to this area or opportunities for college majors or college activities to help discover using project skills beyond a person's 4-H career. Essays are limited to 1000 words and should be on 8.5 inch x 11 inch paper. Interviews need to include a picture of the interviewee in their work setting, questions asked, and a transcript of answers.

8. Community Vitality Display - explore the difference shooting sports, conservation, fishing, and hunting make in keeping Nebraska vibrant especially in rural areas. Present facts and research in an interesting way for the public to learn.

9. Ag Literacy-Value Added Agriculture Interview or Research Project - explore how traditional ag producers are adding value to their production agriculture operations through conservation efforts, hunting, raising pheasants, shooting sports related tourism, etc. Present findings in an interesting way for the public to learn.

10. Shooting Sports Educational Exhibit or Display - Create an educational exhibit or display relating to a topic about Shooting Sports. Displays involving firearms or bows may be exhibited as a photographic display on a poster or in a notebook. Handmade items must include information explaining how the item was made and its intended use. Photos are encouraged.
PREMIUM CODE 10

OTHER NATURAL RESOURCES - Division 361

1. Design Your Own Exhibit (SF164) - in Natural Resources, Conservation, Geology, or Ecology This class is for educational exhibits about natural resources, conservation, wildlife, or ecology that do not fit into other categories. Entries must be appropriate for fair display and no larger than 24" x 24".

All entries must include a title and should be clear (a brief explanation or other method) about the intended purpose or message - what the exhibit is meant to show. Think about accuracy, creativity, educational value for viewers, and evidence of exhibitor's personal experiences and learning.

PREMIUM CODE 14

OUTDOOR ADVENTURES - Division 341

DISPLAY SIZES: Display posters must be made of material, Display poster must be made of material, e.g. foam board or poster board and measure no larger than 22 inch x 28 inch. Poster material should be sturdy enough to hold display items. Display exhibits other than posters to be no larger than 18 inch x 24 inch. Journal/Binder exhibits measure no larger than 16 inch x 16 inch, Consider neatness and creativity. Display exhibits other than posters to be no larger than 18 inch X 24 inch.

Journal/Binder exhibits measure no larger than 16 inch X 16 inch. Consider neatness and creativity.

Level 1 – County Only exhibits

11.+ Poster - create a poster or display no larger than 22 inch X 28 inch. Topics may include one of the following, but not limited to: trail map(s) you have hiked, hiking essentials, your hiking adventures, wildlife or plants observed while hiking (birds, animal prints, butterflies, etc.), plan a hike, explain “Leave No Trace” and how this was followed during hiking, collection of photos from your hikes.

12.+ Journal/Binder - written report of actual, virtual, or imagined trail(s) hiked with observations, OR field journal (notes of actual experiences, sights, sounds, smells, etc.), OR camping trip diary. Feathers/leaf/flower pressings must be securely attached if included. Photos or drawings of observations encouraged. Exhibits measure no larger than 16 inch X 16 inch.

13.+ Hiking Safety - must include explanation of use of item, why selected/purpose of item and how it meets hiking needs. May include, but are not limited to, one of the following: a compact hiking safety kit, homemade compass, or homemade water purifier. Exhibits measure no larger than 18 inch X 24 inch.

14.+ Hiking Adventures Game -create a game of trails of outdoor adventures. Must be educational on one or more aspects of hiking, must include clear instructions as to the purpose and what can be learned by playing the game. Exhibits measure no larger than 18 inch X 24 inch.

15.+ Other Hiking Items - Must include what inspired the creation of the item and its purpose. May include but are not limited to one of the following: hiking backpack, nature art, nature poem or story, homemade hiking snack mix displayed in a re-sealable plastic bag. (include why ingredients were selected and nutritional value). Exhibits measure no larger than 18 inch X 24 inch.

Level 2

1. Poster - Topics may include, but not limited to one or more of the following; how to pitch a tent, knot tying, cooking over a campfire, how to start a campfire, wildlife and plants identified while camping, how to set up emergency shelter, dealing with weather, collection of photos from camping trips, “Leave No Trace” and how that was followed while camping, plan a camping trip, camping essentials, environmental issues/protecting natural resources, park or trail clean up, sanitation/hygiene while outdoors or use of GPS.

2. Journal/Binder - Written report of virtual or actual camping/hiking trips with observations OR field journal (notes of actual experiences, sights, sounds, smells, etc.), OR camping or hiking trip diary. Explain growth in project, leading the hikes, planning the camping trip, now being able to identify the wildlife and nature around you and how identified (sight/sound/shape/smell/color).

Feathers/leaf/flower pressings must be securely attached, if included. Photos of drawing of observations encouraged. Exhibits measure no larger than 16 inch x 16 inch.

3. Camping/Hiking Safety - Must include explanation of use of item and why selected/purpose, how it fits hiking/camping needs. May include, but are not limited to, one of the following: travel sized poisonous plants guide, camping first aid kit, weather/water safety or hand hygiene kit.

4. Digital Media - Use digital media to show video/slideshow/presentation of setting up a tent (include why site is chosen) or protecting natural resources or environmental issues or computer video camping/hiking game. Submit a USB drive or DVD inside a report cover or notebook. If using a slideshow, include printed slides inside a report cover or notebook.

5. Other Camping Items - Must include what inspired the creation of the item, and its purpose. May include but are not limited to one of the following; nature art, nature haiku poem, spider web sketches or knot display.

Level 3

6. Poster - Topics may include but not limited to one of the following; Topographic map, backpacking trip plan, camp layout, plan an expedition (can be dreamed or lived), collection of photos from your expedition, trails hiked, cost comparison of rental vs purchase or using GPS/compass.

7. Journal/Binder - Written report of actual, virtual or imagined expeditions/camping/hiking, OR field journal (notes of actual experiences, sights, sounds, smells, etc.). Explain growth in project, challenges in leading a group, teaching others about wildlife and nature identification and “Leave No Trace.” Exhibits measure no larger than 16 inch x 16 inch.

Level 3 CONT.

8. Expedition Safety - Must include an explanation of use of items, why selected/purpose of item, how it meets hiking/camping/expedition needs. May include but are not limited to; travel sized edible plants, creepy crawly guide, tent repair kit, travel first aid kit or weather/water safety.

9. Digital Media - Use digital media to show video/slideshow/presentation of one of the following, but not limited to; building a non-tent shelter (include why needed), packing your backpack/equipment and getting it onto you, teaching others about environmental issues or a computer video backpacking expedition game. Submit a USB drive or DVD inside a report cover or notebook. If using a slideshow, include printed slides inside report cover or notebook.

10. Other Expedition Items - Must include what inspired the creation of the item, and the purpose of the item. May include, but are not limited to; nature art, nature cinquain poem, backpacking food recipes, hiking/expedition conditioning plan, charcoal etching, dehydrated meal or snack (at least 1 cup displayed in a re-sealable plastic bag with ingredients, instructions, and nutritional facts included). Exhibits measure no larger than 18 inches X 24 inches.

PREMIUM CODE 9

DEPARTMENT - Healthy Lifestyles SAFETY - Division 440

1. General Purpose First Aid Kit – The kit should be assembled in a container appropriate for use in a home. Refer to score sheet SF110. A description of where the kit will be stored and examples of specific emergencies the kit is designed for should be included.

The kit should include a written inventory and purpose statement for included items. Consider items needed to cover the following areas of first aid: airway and breathing, bleeding control, burn treatment, infectious disease protection, fracture care, and miscellaneous supplies. Use Citizen Safety manual 4-H 425, pages 6- 7 for guidance. Kits containing the following will be automatically disqualified:

1. Prescription medication on any kind. If the kit's purpose is to provide medication for someone with special needs, explain in the written description and inventory, but remove the medication. No purchased kits allowed.
2. Materials with expiration dates on or before the

judging date. This includes sterile items, non-prescription medications, ointments, salves, etc. Articles dated month and year only are considered expired on the last day of that month.

3. Any controlled substances.

2. Specific Purpose First Aid Kit – A first aid kit is a good way to organize supplies in an emergency. The kit should be assembled in a container appropriate for the kit's intended purpose. Examples include a kit for a vehicle, recreational vehicle, boat, livestock building, camping, etc. A description of where the kit will be stored and examples of specific emergencies expected for that location should be included in the exhibit. The kit should include a written inventory and purpose statement for the included items. Items included should be relevant to the kit's intended purpose. Consider items needed to cover the following areas of first aid: Consider items needed to cover the following areas of first aid: airway and breathing, bleeding control, burn treatment, infectious disease protection, fracture care, and miscellaneous supplies.

3. Disaster Kit – Disaster kits must contain the materials to prepare a person or family for emergency conditions caused by a natural or man-made incident. Selection of materials is left to the exhibitor. Family or group kits must have enough material or items for each person. A description of the kit's purpose, the number of people supported, and a list on contents is required. 4-H members are encouraged to test their kit by challenging their family to try to survive using only the included materials for a designated time. If tested, please share that experience in the kit documentation. Please include an explanation of drinking water needs for your disaster kit. Do not bring actual water to the fair in the kit.

TELLING A STORY DISPLAY- Exhibit will include three photos to tell a story. Photos should capture the beginning, middle, and end of a single story, project, or event showcasing a weather-related event, or man-made disaster. Display will consist of three 4 inch x 6 inch photos mounted on a single horizontal 11 inch x 14 inch black or white poster or mat board. Include a caption of a few sentences to explain the story the photos are telling.

5. Safety Experience Poster or Scrapbook– Share a learning experience the youth had related to safety or incident types. Examples could be participating in a first aid or first responder training, a farm safety day camp, babysitting workshop or similar event; scientific experiment related to safety, or the youth's response to an emergency situation. Include a detailed description of the experience, the situation, and a summary of the learning that took place. Exhibits may be presented in a poster with supplemental documentation, a notebook including up to ten pages of narrative and pictures, or a multimedia presentation lasting up to five minutes.

6. Careers in Safety - exhibit should identify a specific career area in the safety field and include education and certification requirements, salary, demand for the field, and summary of the youth's interest in the field. Some examples of careers in safety: firefighters, paramedics, emergency management, law enforcement, etc. Additional research sources might include books, articles, career web sites, job related government web sites or interviews with career placement or guidance counselors. Exhibit may be a poster with supplemental documentation, a notebook including up to 10 pages of narrative and pictures, or a multimedia presentation on a CD lasting up to five minutes.

PREMIUM CODE 15

COUNTY ONLY SAFETY AWARENESS POSTERS – Division 441

DISPLAY SIZE

Use poster board at least 11 inches by 14 inches but not larger than 22 inches by 28 inches. You may use photos or drawings. If quoting any facts or figures, be sure to always cite your sources of information.

- 1+. Farm Equipment Safety Poster** - pick one topic of farm safety (i.e. PTO safety, grain bin safety, tractor operating safety, ATV, etc.).
- 2.+ Bicycle Safety Poster** - pick one topic of bicycle safety.
- 3.+ Severe Weather Safety Poster** - pick one topic of weather safety (i.e. lightning, tornado, etc.)
- 4.+ Internet and Social Media Safety Poster** - pick one topic of interest regarding social media safety.
- 5.+ Electrical Safety Poster** - pick one topic of electrical safety.
- 6.+ Other Safety Poster** - another safety topic of your choice (poisons, fire, choking, etc.)

PREMIUM CODE 15

FIRE SAFETY - Division 450

1. Fire Safety Poster - use poster board at 11 inches by 14 inches but not larger than 22 inches by 28 inches. This is a home floor plan drawn to scale showing primary and secondary escape routes and where fire extinguishers and smoke detectors are located. Draw every room, including all doors and windows.

Use black or blue arrows showing primary escape routes from each room. Use red arrows showing secondary routes to use if the primary routes are blocked. Primary and secondary escape routes must lead outside to an assembly location. Documentation should include evidence the escape plan has been practiced at least four times.

2. Fire Prevention Poster - use poster board at least 11 inches by 14 inches but not larger than 22 inches by 28 inches for posters that could be used during National Fire Safety week or at special times of the year (i.e. Christmas, Halloween, camping, 4th of July). Originality, clarity, and artistic impression will all be judged. Do not include live fireworks, matches or other flammable/explosive/hazardous materials. Any entry containing this material will be disqualified.

PREMIUM CODE 15

DEPARTMENT – Entrepreneurship (ESI) - Division 531

GENERAL INFORMATION:

All exhibits are directly related to activities in the project manual. Refer to the manual for ideas, suggestions, and additional information to enhance project exhibits. All static exhibits must have received a purple ribbon at the county fair to advance to the State Fair.

EXHIBIT GUIDELINES

The 4-H member's name, age, town, and county must be listed on the back of the exhibit. Entry cards should be stapled (not paper-clipped or taped) to the upper right-hand corner of posters. If exhibit is a poster, it must be 14 inches by 22 inches and may be arranged either horizontally or vertically. Poster may not use copyrighted materials, such as cartoon characters or commercial product names. **Exhibits which do not conform to size or content guidelines will be lowered one ribbon placing.** Posters may include photographs, charts, or examples as well as a written explanation.

ESI Unit 1 Discover the E-Scene For classes 1-3, follow guidelines for posters above.

1. Interview an Entrepreneur - share what you learned from the person about having an entrepreneurial mindset. How have they applied their mindset? Have they start a business? Are they tackling a social issue? How do they deliver excellent customer service? How will what you have learned through this interview change your future plans or ways of thinking about entrepreneurship? The summary of the interview should be typed and with a maximum length of two pages (12 pt font). Enter the exhibit in a folder with fasteners (no slide bars).

ESI Unit 2 The Case of ME

2. Social Entrepreneurship Presentation - prepare a five slide power point presentation about a social entrepreneurship venture to benefit a group or individual in your community. Submit a printout of the note pages which show each slide and include an explanation of each slide. Enter exhibit in a folder with fasteners (no slide bars).

ESI Unit 3 Your Business Inspection

3. Marketing Package - (mounted on a 14 inch x 22 inch poster) must include at least three items (examples) developed by the 4-H'er from the following list: business card, brochure, advertisement, business promotional piece, printout of an internet home page, packaging design, signs, logo design, direct mail piece, etc. The marketing package should be for an original business developed by the 4-H'er and not an existing business.

4. Sample on an Original Product - with an information sheet (8.5 inches x 11 inches) answering the following questions:

1. What did you enjoy the most about making the product?
2. What challenges did you have when making the product?
3. Would you do anything differently next time? If so, what?
4. What is the suggested retail price of the product? How did you decide on the price?
5. Market analysis of the community - data gathered through a survey of potential customers. Use the three questions on page 3.3 and survey at least 10 people in your community about your product.
6. How much would you earn per hour? Show how you determined this figure.
7. What is unique about this Product?

5. Photos of an Original Product - (mounted on a 14 inch by 22 inch poster) must include three photos of developed product and a mounted information sheet answering the following questions. Classes 4 and 5 must be entirely DIFFERENT products.

1. What did you enjoy the most about making the product?
2. What challenges did you have when making the product?
3. Would you do anything differently the next time? If so, what?
4. What is the suggested retail price of the product?
5. How did you decide on the price?
6. Market analysis of the community – data gathered through a survey of potential customers. Use the three questions on page 3.3 and survey at least 10 people in your community about your product.
7. How much would you earn per hour? Show how you determined this figure.
8. What is unique about this product?

If exhibiting in both Class 4 and Class 5, products must be entirely different products.

6. Entrepreneurship Challenge - take on the entrepreneurship challenge. Entrepreneurship Challenge is open to 4-H'ers enrolled in any of the three units of ESI. Complete five (5) or more of the challenges from the following list. The exhibit will include highlights from these five (5) challenges. Consider labeling each challenge so the viewer will understand what the challenge was. Enter a poster, video, report, or scrapbook related to the learning from the challenge. Use your creativity to show and share what you learned. Multi-media presentations and exhibits are to be uploaded to a video streaming application and 4-H member must provide a hard copy QR code for viewing. 4-H members are encouraged to test their codes or link on several devices to check for appropriate permissions for public viewing. Select your five (5) challenges from the list below:

1. Sell something.
2. Talk to local leaders about entrepreneurial thinking and how it is being applied or could be applied to a current community issue.
3. Be a detective! Look for Nebraska-made products and find out more about the business.
4. Tour 2 - 3 entrepreneurial businesses and create a photo story.
5. Investigate what it takes to be an entrepreneur and complete a skills assessment.
6. Make a prototype (sample/model) of a new product idea. (Include the prototype or a photo of prototype.)

Entrepreneurship Challenge CONT.

7. Work with a friend to develop a new business idea.
8. Contact your local Extension Office to learn about entrepreneurship opportunities.
9. Create an activity to teach others about entrepreneurship (coloring page, puzzle, game, etc.)

PREMIUM CODE 13

DEPARTMENT - Agronomy

GENERAL INFORMATION

The purpose of these exhibits is to demonstrate to the public the benefits from the study and application of crop, weed, and range and soil sciences to solving problems in management, conservation, sustainability, and environmental protection. For guidelines on specific projects, refer to the appropriate project manuals.

Grain or Plant Exhibits – Classes 1-5:

- A completed Crop Production Worksheet (available at <https://go.unl.edu/cropworksheet>) must accompany grain and plant exhibits or it will automatically be lowered one ribbon placing. The worksheet must include the 4-H member's name and address, county, plant hybrid or variety, plant population, whether crop production was irrigated or dryland, and general information including farm cropping history, soil type and weather effects.
- The worksheet also must include an economic analysis of the project, listing individual expenses and income, on a per acre basis. Other topics to discuss are the selection of variety or hybrid, impacts of tillage and conservation practices, inputs (fuel, fertilizer, irrigation, labor, pesticides, etc.), any observations made during the growing season and what you learned from your crops project. The worksheet counts as 50% of the total when judged.
- Worksheet must be the original work of the individual 4-H member or it will be lowered one ribbon placing.
- Attach the worksheet to the entry in a clear plastic cover such that it can be read without removing it from the cover. In addition to the worksheet, grain and plant exhibits will be judged on condition, appearance (i.e. disease and insect damage, grain fill), uniformity (size, shape, color, maturity), and quality of exhibit. Refer to Scoresheet SF264.

Grain exhibits must be one gallon per sample. Grain exhibits harvested in the fall (e.g., corn or soybeans) may be from the previous year's project and brought in an appropriately sized box/container for display. NEW: Place in a clear container so it can be viewed and displayed.

Plant exhibits: with the exception of ears of corn, must be the result of the current year's project.

- Corn- 10 ears or three stalks (cut at ground level with no roots or soil and bound together)
- Grain Sorghum - four stalks (cut at ground level and bound together)
- Soybeans - six stalks (cut at ground level and bound together)
- Small grains (oats, barley, wheat, triticale) - sheaf of heads two inches in diameter at top tie with stems about 24 inches long.
- Other crops (alfalfa, millet, etc.) - sheaf of stems three inches in diameter at top tied with stems cut at ground level or half size small square bale.

PREMIUM CODE 15

FIELD CROPS - Division 750

1. **Corn** (includes yellow, white, pop, waxy, or any other type)
2. **Soybeans**
3. **Oats**
4. **Wheat**
5. **Any other crop** (includes grain sorghum, alfalfa, millets, barley, rye, triticale, amaranth, dry beans, sugar beet, mung bean, canola, forage sorghum, safflower, etc.).

Displays- Classes 6-10:

The purpose of the display is to tell an educational story to those that view the display.

The display is a visual representation (pictures, charts, graphs) no larger than 28 inches wide by 28 inches tall on plywood or poster board.

The display should be neatly titled. Make sure to label display with exhibitor's name, address, and county on back side. Explain pictures and graphs clearly and concisely.

Consider creativity and neatness. Refer to Scoresheet SF259. Each display must have a one-page essay (minimum) explaining why the exhibitor chose the area of display and what they learned from their project. Include any reference used. If a display does not have an essay, it will automatically be deducted one ribbon placing.

Displays- Classes 6-10 CONT.

The essay should be in a clear plastic cover with the exhibitor's name outside. Displays with an essay will be lowered a ribbon placing.

6. Crop Production Display - the purpose of this class is to allow original and creative exhibits that contain educational information about crop production aspects, such as crop scouting, alternative crops, pest management, etc.,

7. Crop Technology Display - display information about aspects of technology used in crop production, such as genetic engineering, crop breeding, GPS, yield mapping, etc,

8. Crop End Use Display - display information about final product or end uses such as food, feed, fuel, or other products for example corn can be processed into livestock feed, ethanol, plastics, etc. or soybeans can be processed into biodiesel, pet bedding, crayons, oil, etc. This should not be about the process of crop production, but focus on an end product.

9. Water or Soil Display - display information about water or soils, such as how soils are being used for crop production, range, conservation, wildlife, or wetland use, or ways to protect or conserve water and soil resources,

10. Career Interview Display - the purpose of this class is to allow youth to investigate a career in agronomy. Youth should interview 1 person that works with crops about such topics as, what parts of their job do they enjoy or dislike, why did they choose that career, what was their education, etc. Include a picture of the person interviewed.

Special Agronomy Project - Division 750

The crop for the year 2026 is Popcorn. These seeds must have been purchased through the Extension Office to participate in the Special Agronomy Project and exhibits.

11. Special Agronomy Project - Educational Exhibit (SF259)

- Educational exhibit based on what was learned from the project. Present information on a no larger than 28 inches wide x 28 inches tall on plywood, or poster board.

The 4-H member's name, age, address, and county must be on the back of the poster or report cover.

Refer to Scoresheet SF259 Each display must have a one-page essay (minimum) explaining why the exhibitor chose the area of display and what they learned from their project. Include any references used.

12. Special Agronomy Project - Video Presentation - 4-H member designs a multimedia presentation related to the crop. This could include narration of the growing process, presenting facts about the crop or any other innovative multimedia practices. The presentation should be at least two2 minutes in length and no more than five5 minutes in length, appropriate graphics, sound and either a video clip, animation or voice over and/or original video clip. Presentations are to be uploaded to a video streaming application and 4-H member must provide a hard copy QR code for viewing. 4-H members are encouraged to test their codes or link on several devices to check for appropriate permissions for public viewing.

13. Special Agronomy Project (Freshly Harvested Crop) - plant exhibits must be the result of the current year's project. Depending on the type of crop selected for the current year:

- Corn - 10 ears or three stalks (cut at ground level with no roots or soil and bound together)
- Grain Sorghum - four stalks (cut at ground level and bound together)
- Soybeans - six stalks (cut at ground level and bound together)
- Small grains (oats, barley, wheat, triticale) - sheaf of heads two inches in diameter at top tie with stems about 24 inches long.
- Other crops (alfalfa, millet, etc.) - sheaf of stems three inches in diameter at top tied with stems cut at ground level.

Supporting documentation (1/2 to 1-page in length) should include the following:

- Economic Analysis and/or research that supports feasibility of this crop in Nebraska or how the crop has evolved over time.
- Other topics to discuss are past/current commercial production of this crop. This includes: the selection of variety or hybrid, impacts of tillage and conservation practices, inputs (fuel, fertilizer, irrigation, labor, pesticides, etc.), any observations made during the growing season about this crop and what you learned from your crops project. This ½ to 1-page summary counts as 50% of the total when judged.
- In addition to the summary, grain and plant exhibits will be judged on condition, appearance (i.e., disease and insect damage, grain fill), uniformity (size, shape, color, maturity), and quality of exhibit.

GENERAL INFORMATION

At least 15 specimens must represent this year's work (after the previous county fair to present day). For assistance identifying plants, participants can use Nebraska Department of Agriculture's Weeds of Nebraska and the Great Plains (1994) or Weeds of the Great Plains (2003). Books – Classes 1 & 2: Exhibits will be judged based on completeness of plant mount, accuracy of identification, label, neatness, and conformity to exhibit requirements.

Plants must be mounted on sheets that are no larger than 14 inches wide x 14 inches high". Proper plant mount should include root as well as stem and leaf tissue. Plants should be glued rather than taped and the mounts should be protected with a clear cover.

Exhibits will be judged based on completeness of plant mount, accuracy of identification, label, neatness, and conformity to exhibit requirements.

Each completed mount must have the following information a 3 inch x 5 inch cardstock label glued flush in the lower right corner of the mounting sheet.

The label (see example below) should include the following information:

1. Scientific name (in italic or underlined), with authority
2. Common name
3. County of collection
4. Collection date
5. Collector's name
6. Personal collection number indicating order that plants were collected
7. Other information depending on class selected, i.e., noxious, life form.

This information should be typed or printed very neatly.

PLANTS OF NEBRASKA

Scientific name: *Abutilon theophrasti* Medik.

Common name: Velvetleaf

County of collection: Lancaster County

Collection date: 6 July 2016

Collector's name: Dan D. Lion

Collection number: 3

Life cycle: Annual

1. Weed Identification Book - A collection of a minimum of 15 plant mounts including at least two of the prohibited noxious weeds (Canada thistle, musk thistle, plumeless thistle, salt cedar, leafy spurge, purple loosestrife, diffuse knapweed, spotted knapweed, Japanese knotweed, bohemian knotweed, or phragmites), and at least three weeds that are a problem primarily in lawns.

2. Life Span Book - a collection of seven perennials, one biennial, and seven annual weeds.

Displays:

GENERAL INFORMATION

The purpose of the display is to tell an educational story to those that view the display. The display is a visual representation (pictures, charts, graphs) no larger than 28 inches x 28 inches on plywood or poster board. The display should be neatly titled.

DISPLAY SIZE

Make sure to label display with exhibitor's name, address, and county on back side. Explain pictures and graphs clearly and concisely.

Each display must have a one-page essay explaining why the exhibitor chose the area of display and what they learned from their project. Include any references used.

The essay should be in a clear plastic cover with the exhibitor's name outside.

3. Weed Display - the purpose of this class is to allow original and creative exhibits that contain educational information about weeds, such as interesting information about a weed species, effects of weed control, herbicide resistant weeds, what makes a weed a weed, or uses for weeds.

PREMIUM CODE 13

DEPARTMENT - Science & Technology

ENTOMOLOGY - Division 800

GENERAL INFORMATION

Specimens in display collections should be mounted properly and labeled with the date and location of collection, name of collector, and order. Follow mounting and labeling instructions in the Nebraska 4-H Entomology manual.

DISPLAY SIZE

Entomology boxes are preferred to be 12 inches high x 18 inches wide and landscape in orientation, so they fit in display racks. Purchase of commercially made boxes is allowed. All specimens are to be pinned and labeled by the exhibitor. No purchases specimens allowed.

ENTOMOLOGY CONT.

No projects over 50 pounds allowed.

1. Entomology Display, First-Year Project - collection to consist of 25 or more different kinds (species) of insects representing at least six orders. Limit of one box.

2. Entomology Display, Second-Year Project (SF186) - collection to consist of a minimum of 50 kinds (species) of insects representing at least eight orders. Replace damaged or poorly mounted specimens. At least 25 species must be present after July 1 of previous year. Limit of two boxes.

3. Entomology Display, Third or More Year Project - collection to consist of a minimum of 75 kinds (species) representing at least 10 orders. Replace damaged or poorly mounted specimens. At least 25 must be present after July 1 of previous year. Limit of 3 boxes.

4. Special Interest Display or Advanced Insect Display - Educational display developed according to personal interests and/or advanced identification capability. This also is an opportunity to highlight favorite insects in a creative arrangement. Insects should conform to pinning and mounting standards as in Classes 1-3 and be protected in an insect box. Each specialty display should include names of the insects, interesting information about them, and why the display was made. Advanced identification collections should have insects grouped with labels that correspond with identification level (e.g., family, genus, and species). A specialty collection may consist of insects by taxonomic group (e.g., butterflies, grasshoppers, dragonflies, scarab beetles) or by host, subject or habitat (e.g., insect pests of corn, aquatic insects, insect mimicry, insect galls, insect from goldenrod, insect pollinators, etc.)

5. Insect Habitats - habitats consist of any hand-crafted objects, made of natural or artificial materials to be placed outdoors, which promote or conserve insects in the environment. Insects may include bee pollinators, butterflies, beneficial insects, etc. A one page report describing activities must accompany the exhibit.

Report should include placement, target insect, why materials were chosen, functional design, and indicators of success. See the following resources for reports:

1. Nebraska Extension NebGuide: Creating a Solitary Bee Hotel (G2256)
2. University of Minnesota: Wild Bees and Building Wild Bee Houses
3. National Wildlife Federation: How to Provide Water in Monarch Gardens

6. Macrophotography - subjects should be insects, spiders or other arthropods, or any nests, webs, or constructions they make. All exhibit prints should be 8 inches x 10 inches or 8.5 inches by 11 inches and mounted on rigid, black 11 inches by 14 inches poster or matt board. Either orientation is acceptable. No frames or mat board framing is allowed. A caption of a few sentences should explain the subject, and be printed on white paper, and glued below the print on the poster board.

7. Insect Poster/Display Exhibits (SF190) - can be posters or three-dimensional displays, and artistic creativity is encouraged. Posters should be no larger than 22 inches x 28 inches. They should be instructional and can be attractive and have pictures, drawings, charts, or graphs. Posters and displays may show any aspect of insect life, habitat, or related conservation or management.

Examples include life history and other facts about an insect; insect anatomy; how to manage insects in a farm, home, lawn, or garden setting; experiences rearing one kind of insect; survey of an important insect; insect behavior (ex. nesting, finding food, mobility, defenses, etc.); habitats (e.g. forests, grasslands, wetlands, rivers, or lakes) and what insects are found there, etc. Three-dimensional displays, such as dioramas, sculptures, models, or decorative boxes should have a page of explanatory information accompanying them and fit within a 22 inch x 28 inch area.

8. Reports or Journals - should be in a three-ring binder. A report may be informational, that is, an original article about a favorite insect, a history of insect outbreaks, diseases caused by insects, insects as food, etc. Or it may be a research report about an investigation or experiment done in a scientific manner. It then should have a basic introduction of the insect studied, methods used, observations, and results of the project. Tables, graphs, and images are helpful to include. A journal is an observational study over a period of time with personal impressions. It may cover watching changes in kinds of butterflies over the summer, rearing a specific insect from egg to adult, managing a beehive, observations of insects in a specific habitat, accounts of insect behavior in a forest or flower garden, etc.

PREMIUM CODE 8

ANIMAL SCIENCE EDUCATION – Division 905

GENERAL INFORMATION

4-H'ers create a poster highlighting an educational aspect of their animal project. The poster could focus on a current livestock issue, animal industry career, animal care or health, economic impacts of the livestock industry.

DISPLAY SIZE

Posters should increase the educational experiences of both the member and the general public increasing agricultural literacy. Poster should be sturdy enough to advance to state fair for display in the livestock barn and be no larger than 22 inches x 28 inches. Entries must match the specie of livestock the exhibitor has entered at the county fair. Species include dairy, beef, horse, sheep, swine, goat, poultry, or rabbit.

100.+ Educational Displays

PREMIUM CODE 13

VETERINARY SCIENCE- Division 840

GENERAL INFORMATION

The purpose of the Veterinary Science display is to inform the public regarding a common health problem of animals, a veterinary science principle, or public health/zoonotic diseases. Exhibits can be a poster, notebook, or a display. The exhibit may represent material from any of the Veterinary Science projects including entry level exhibits from Unit 1.

POSTER & DISPLAY SIZE

Posters: sends simple and direct message. A poster should not exceed 22 inches x 28 inches and may be either vertical or horizontal.

Displays: A display may include but is not limited to: a three-dimensional exhibit, a scale model, the actual product (for example: Skeleton, teeth, samples of leather, fur, or dried skin damaged by disease or parasites), or a notebook. Displays are not posters. A display may be mounted on poster board not to exceed 22inches x 28inches or on 1/4inch plywood or equivalent that does not exceed 24inches high or 32inches wide or in a three-ring binder or another notebook format. Formaldehyde preserved specimens will not be accepted due to biohazard and public health concerns.

If photos are to be part of the exhibit, remember that they will be viewed by the public. Make sure that the photographs are in good taste and will not be offensive to anyone. Graphic photographs of excessive bleeding, trauma or painful procedures are not appropriate. For exhibits related to veterinary surgical procedures, aseptic techniques need to be shown, for example, use of drapes, use of sterile procedures, wearing of gloves, and other appropriate veterinary medical practices.

All references and information needs to be properly cited. Proper sources include but are not limited to: professional journals and publications, professional AVMA accredited websites, interviews with Veterinarians and excerpts from Veterinary Educational Literature.

Plagiarism will result in disqualification. Please study your topic and present the information to your audience in your own words.

First-Aid Kits: Because of public safety concerns and risk of theft of first-aid kit contents (veterinary drugs/equipment) with perceived potential for drug abuse, **animal first aid kits containing any drugs, or medications, or sharps (including needles and scalpel blades) will be immediately disqualified and not displayed. First Aid kits wishing to include medication information should instead utilize written descriptions, photographs, drawings, computer generated print-outs or empty packaging of pharmaceuticals.**

Appropriate vet science topics include: maintaining health, specific disease information, photographic display of normal and abnormal characteristics of animals, animal health or safety, public health or safety, proper animal management to ensure food safety and quality, efficient and safe livestock working facilities, or other veterinary medicine or veterinary science topic.

1. 4-H Vet Science Large Animal Poster, Notebook or Display

2. 4-H Vet Science Small Animal/Pet Poster or Display

PREMIUM CODE 13

STEM ROCKETS AND DRONES - Division 850

GENERAL INFORMATION

1. The name and county of each 4-M member should appear separately on the back of each board, poster, or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.
2. Rockets must be supported substantially to protect the rocket from breakage. Rockets are to be mounted on a base that has dimensions equal or less than 12 inches x 12 inches and the base should be 3/4 inch thick. No metal bases. If the rocket fins extend beyond the edges of the required base (12 inches x 12 inches), then construct a base that is large enough to protect the fins. The base size is dictated by the size of the rocket fins.
3. The rockets must be mounted vertically. Please do not attach sideboards or backdrops to the displays. In addition, a used engine or length of dowel pin is to be glued and/or screwed into the board and extended up into the rockets engine mount to give added stability.
4. Rockets must be equipped as prepared for launching, with wadding and parachute or other recovery system. Rockets entered with live engines, wrong base size or sideboards will be disqualified.
5. A report, protected in a clear plastic cover, must include: 1) rocket specification (include original or photo of manufacture packaging stating rocket skill level), 2) a flight record for each launching (weather, distance, flight height), 3) number of launchings, 4) flight pictures 5) Safety (How did you choose your launch site? Document safe launch, preparations, and precautions 6) objectives learned and 7) conclusions.
6. The flight record should describe engine used, what the rocket did in flight and recovery success. Points will not be deducted for launching, flight or recovery failures described. This includes any damage that may show on the rocket. Complete factory assembled rockets will not be accepted at the State Fair.
7. Judging is based upon display appearance, rocket appearance, workmanship, design or capabilities for flight, number of times launched and report. Three launches are required to earn the maximum launch points given on the score sheets. For scoring for the State Fair, only actual launches count, misfires will not count towards one of the required three launches.
 - o For self-designed rockets only, please include digital recorded copy of one flight. In the documentation, please include a description of stability testing before the rocket was flown.

- o The skill level of project is not determined by number of years in project. Skill level is determined by the level listed on the manufacturing packaging.
- o 4-H Rocket project levels are not intended to correspond to National Association of Rocketry model rocket difficulty ratings or levels.

8. **High power rockets (HPR) are similar to model rocketry with differences that include the propulsion power and weight increase of the model. They use motors in ranges over "G" power and/or weigh more than laws and regulations allow for unrestricted model rockets. These rockets are NOT appropriate for 4-H projects and will be disqualified.**
9. **3D Printed Rockets are deemed unsafe in fabrication and design for launch. These rockets are NOT appropriate for 4-H Rocket projects and will be disqualified if entered into Rocket Classes. 3D Printed Rockets are ACCETPABLE if entered into 3D Printing Classes.**

ROCKETS AND DRONES

PRE-FLIGHT - Unit 1

COUNTY ONLY ENTRIES IN UNIT 1

9. + Any rocket or exhibit made using skills from Unit 1

Unit 2, 3 or 4

1. **Rocket** - any Skill Level Rocket with wooden fins and cardboard body tubes painted by hand or air brush.
2. **Aerospace Display** - poster or display board that displays or exemplifies? one of the principles learned in the Lift Off project. Examples include: display of rocket parts and purpose, explaining the parts of a NASA rocket or shuttle, interview of someone in the aerospace field, or kite terminology. Include notebook containing terminology (definition), and what was learned. Display can be any size up to 28 inches by 22 inches. .
3. **Rocket** - any Skill Level Rocket with wooden fins and cardboard body tubes painted using commercial application, for example: commercial spray paint.

Drones

5. **Drone Poster** - exhibit must be designed to educate yourself and others on one or more of the following topics: drone technologies, uses of drones, the different types of drones, types of training needed to operate drones, and the laws and regulations users must follow. Posters can be any size up to 28 inches by 22 inches.

6. Drone Video - exhibit must demonstrate how the drone interacts with the outside world. Examples include: field scouting, surveying damage from natural disasters, drones used in commercial applications and settings, and drones used for structural engineering. Video should not exceed 5 minutes. State Fair qualified videos should be submitted to <https://go.unl.edu/2025nesfest> by August 15, or be uploaded to a video streaming application and exhibitors MUST provide a hard copy QR code for viewing. Exhibitors should test their codes or links on several devices to check for appropriate permissions.

PREMIUM CODE 15

MODELS (Model Cars) - Division 855

COUNTY ONLY ENTRIES

No Legos in this class.

1.+ Exhibit will consist of two models built in this project - one must be an auto with interior, engine and chassis painted. You may paint more than this if desired. Both models are to be mounted together on Styrofoam. You may use background accessories, figures, etc. if you want.

PREMIUM CODE 15

LEGOS – Division 865

COUNTY ONLY ENTRIES

2.+ Lego/K'nex Purchased Kit

3.+ Lego/K'nex Original Design - no kits included in the exhibit

4.+ Lego/K'nex Diorama - include 1 or more items, kit, or original design in setting/scene, maximum 18 inch x 24 inch base. Ex: cardboard box with sides/top partially cut down for display purposes.

PREMIUM CODE 15

GENERAL RULES FOR STEM PROJECTS

Rules

1. The name and county of each 4-H should appear separately on the back of each board, poster or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.

2. Demonstration boards should include an overall title for the display, plus other necessary labeling.

3. Reports should be written using the scientific method whenever possible (Background, the Question or hypothesis, what you plan to do and what you did, Method used and observations, Results: what you learned.)

All reports should be computer generated and enclosed in a clear plastic cover. The reports should be attached securely to the display.

4. Please refer to the General Rules for the policy regarding firearms, items with a blade, and other related items.

5. Please refer to the General Rules for the policy regarding the use of copyrighted images.

6. Premier 4-H Science Award is available in this area

7. Team Entries: To qualify for entry at the Nebraska State Fair team materials entered in H860008 – Maker Space/Digital Fabrication must clearly be the work of a team instead of an individual, and must have at least 50% of all team members enrolled in 4-H.

Additionally, all enrolled 4-H members on the team should complete and attach an entry tag to the materials. A supplemental page documenting the individual contributions to the project should be included.

8. State Fair qualified videos, presentations and other electronic exhibits should be submitted to go.unl.edu/2026nesfstem by August 15th, 2026. Videos can be uploaded to a video streaming application and exhibitors MUST provide a hard copy QR code for viewing. 4-H members are encouraged to test their codes or links on several devices to check for appropriate permissions for public viewing

9. Posters in this department can be any size up to 28 inches by 22 inches when ready for display. Example: trifold poster boards are not 28 inches by 22 inches when fully open for display.

10. Several classes require a display board which should be a height of 24 inches and not to exceed 1/4 inch in thickness. A height of 27 7/8 inch is acceptable to allow for the saw kerf (width) if two 24" boards are cut from one end of a 4 feet x 8 feet sheet of plywood. Nothing should be mounted within 3/4 inch of the top or bottom of the board (Examples: Woodworking and Electricity exhibits).

- Fabricated boards such as plywood, composition board, particle-type lumber may be used for demonstration displays.
- Demonstration boards should be sanded and finished to improve their appearance. The finish on a demonstration board will be judged as a woodworking exhibit.
- Demonstration boards should include an overall title for the display, plus other necessary labeling.
- Reports should be written using the scientific method whenever possible (Hypothesis, Research, Experiment, Measure, Report or Redefine Hypothesis).

GENERAL RULES STEM PROJECTS CONT.

- All reports should be computer-generated and enclosed in a clear plastic cover. The report should be attached securely to the display.
- If the project is a picnic table, wishing well, swing, chair, bridge, dog house, etc. is designed to be used outside, it will be displayed outside if selected for the state fair.

11. All outside projects MUST have entry tag and supporting information placed in a protective bag to prevent damage from weather events such as rain and be ATTACHED to projects with string, zip ties, etc.

STEM COMPUTERS - Division 860

COUNTY ONLY ENTRIES IN UNIT 1

Computer posters shall be mounted on a 14 inch x 22 inch poster either in a vertical or horizontal arrangement. Please put your name and county on the back of all exhibits.

COMPUTER MYSTERIES – Unit 1

15. + Computer Art Poster (Black & White) - exhibit should be created on at least 8.5 inch x 11 inch paper using a commercially available graphics software package and a single-color printer-plotter. Display in a clear sheet protector.

16. + Computer Art Poster (Color) - exhibit should be created on at least 8.5 inch x 11 inch page using a commercially available graphics software package and a color printer-plotter. Display in a clear sheet protector.

17. + Computer Designed Greeting Card - Exhibit will consist of four (4) greeting cards, each for a different occasion/holiday. Exhibit should be created on 8.5 inch x 11 inch paper using a commercially available graphics program and a color printer/plotter or single color printer/plotter. The cards should vary in folds and design. Prefabricated cards from commercially available card programs will NOT be accepted. No theme required. Place in a Ziploc bag.

18. + Slide Show or Movie - using digital technology on a CD. Contact the Extension Office for software compatibility prior to entry.

COMPUTER MYSTERIES - Unit 2

1. Computer Application Notebook - 4-H exhibitor should use computer application to create a graphic notebook utilizing computer technology. The exhibit consists of a 8.5 inch x11 inch notebook and should include tow parts:

1. A detailed report describing
 - a. The task to be completed
 - b. The computer application software required to complete the task
 - c. Specific features of the computer application software necessary for completing the task
2. Print out your project. Project may be in color or black & white. 4-H member may create any of the following:
 - a. Greeting card (five different cards such as birthday, wedding, anniversary, sympathy, get well or other)
 - b. Business card (three cards for three different individuals or businesses)
 - c. Menu (minimum of two pages including short descriptions of foods and pricing) book layout (I-book)
 - d. Promotional flyer (three flyers promoting three different events)
 - e. Newspaper (minimum of two pages)
 - f. Other (precision family or family business logo, etc.)

2. Produce a Computer Slideshow Presentation -

using presentation software a 4-H exhibitor designs a multimedia computer presentation on one topic related to youth. A 8.5 inch x 11 inch three ring notebook with a printout of all the slides should be submitted. Slideshow should include a minimum of 10 slides and not more than 25. Incorporate appropriate slide layouts, graphics, animations, and audio (music or voice and transition sounds do not count). Each slide should include notes for a presentation. All slideshows must be uploaded.

COMPUTER MYSTERIES – Unit 3

3. Produce an Audio/Video Computer Presentation -

using presentation software a 4-H exhibitor designs a multimedia computer presentation on one topic related to youth including audio and/or video elements. A notebook with a printout of all the slides should be submitted. The presentation should be at least two minutes in length and no more than five minutes in length, appropriate graphics, sound and either a video clip, animation, or voice over and/or original video clip. All digital exhibits must be uploaded according to the guidelines and by the deadline listed in the department rules.

4. How to STEM (Science, Technology, Engineering and Math) Presentation - youth design a fully automated two to five minute 4-H “how to” video. Submissions should incorporate a picture or video of the 4-Her, as well as their name (first name only), age (as of January 1 of the current year), years in 4-H, and their personal interests or hobbies. All digital exhibits must be uploaded according to the guidelines and by the deadline listed in the department rules.

5. Virtual Platform Presentation - youth design a fully automated education presentation using any current multimedia platform such as Tik Tok, YouTube, Canva, Canvas, etc. Submissions may include a notebook, poster, et., explaining the process, experience, and/or presentation. All submissions must include a link to the virtual presentation. All digital exhibits must be uploaded according to the guidelines and by the deadline listed in the department rules.

6. Create a Web Site/Blog or App - design a simple website, blog, or app for providing information about a topic related to youth. Include an explanation of why the entry was created. (Any current website, blog, or appl development platform is accepted such as Google Sites, iBuild App, Wix, etc.) If the website, blog, or app is not live, include all files on a flash drive in a plastic case. All digital exhibits must be uploaded according to the guidelines and by the deadline listed in the department rules.

7. 3D Printing - 3D printing uses plastic or other materials to build a three-dimensional (3D) object from a digital design (including 3D Pen Creation). Youth may use original designs or someone else’s they have redesigned in a unique way. Exhibits will be judged based on the motivation and/or problem identified. For example, 3D objects printed as part of the design process for robot or other engineering project. Must include design notebook that addresses the following questions:

1. What was the motivation for your design or the problem you were solving with your design? i.e. Is your item a functional or decorative piece?
2. Please include a picture of original design, citation of designer/website OR if design is completely original (you created it using CAD software), then state that it’s original. If item was not completely original, indicate what you did to the original design to modify it to better meet the design problem stated in #1 above. Its design was modified multiple times, please indicate what change was made with each modification, and what prompted the need for the change. i.e., I printed it and the design was too fragile, so I resliced the print to make thicker external walls, or to have a denser infill.

3. Define your process for designing/printing. What software and/or hardware was used (indicate type of 3D printer or if item was created with 3D pen)?
4. What materials were selected for your project?
5. If your final design has any moving parts, define how you determined an appropriate allowance in your design.
6. Identify any changes that you would make to improve your design.

8. Maker Space/Digital Fabrication - (SF1051) - This project is a computer-generated project created using a laser cutter, vinyl cutter, heat press or CNC router. Vector or 3D based software such as Corel Draw or Fusion 360 would be an example of an appropriate software used to create your finished project. Project should include a notebook with the following:

- What motivated you to create this project
- Software and equipment used
- Directions on how to create the project
- Prototype of plans
- Cost of creating project
- Iterations or modifications made to original plans
- Changes you would make if you remade the project

See Rule 8 Team Entries: To qualify for entry at the Nebraska State Fair team materials entered in H860008 – Maker Space/Digital Fabrication must clearly be the work of a team instead of an individual, and must have at least 50% of all team members enrolled in 4-H. Additionally, all enrolled 4-H members on the team should complete and attach an entry tag to the materials. A supplemental page documenting the individual contributions to the project should be included. The entry will be judged as a team, with all team members receiving the same ribbon placing.

PREMIUM CODE 13

STEM ELECTRICITY - Division 870

Rules

- 1.** The names and county of each exhibitor should appear separately on the back of each board, poster, or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.
- 2.** Several classes require a display board which should be a height of 24 inches and not to exceed 1/4 inches in thickness. A height of 24 7/8 inches is acceptable to allow for the saw kerf (width) if two 24 inch boards are cut from one end of a 4 foot X 8 foot sheet of plywood. Nothing should be mounted within 3/4 inches of the top or bottom of the board. (Example Woodworking or Electricity).
- 3.** Fabricated board such as plywood, composition board, or particle-type lumber may be used for demonstration displays.

STEM Electricity cont.

4. Demonstration boards should be sanded and finished to improve their appearance. The finish on a demonstration board will be judged as a woodworking exhibit.

5. Demonstration boards should include an overall title for the display, plus other necessary labeling.

6. Reports should be written using scientific method whenever possible (Background, the Question or hypothesis, what you plan to do and what you did, Method used and observations, Results: what you learned. All reports should be computer generated and enclosed in a clear plastic cover. The reports should be attached securely to the display.

COUNTY ONLY ENTRIES

14.+ Any Display/Item Based On What You Learned in Unit 1

17.+ Any Display/Item Using Skills Learned in Unit 2.

ELECTRICITY

1. Electrical Tool/Supply Kit - create an electrical supply kit to be used for basic electrical repair around the house. Include a brief description of each item and its use. Container should be appropriate to hold items.

2. Lighting Comparison - display studying the efficiency of various lighting (incandescent, florescent, halogen, Light Emitting Diodes, etc.). Exhibit could be a poster display, or an actual item.

3. Electrical Display/Item - Show an application of one of the concepts learned in the Wired for Power project. Examples include: re-wiring or building a lamp, re-wiring or making a heavy-duty extension cord or developing an electrical diagram of a house. Exhibit could be a poster display, or an actual item.

4. Poster - should exemplify one of the lessons learned in the Wired for Power Project. Posters can be any size up to 28 inches x 22 inches.

5. Electrical/Electronic Part Identification - display different parts used for electrical/electronic work. Exhibit should show the part (either picture or actual item) and give a brief description, including a symbol of each part and its function. Display should include a minimum of 10 different parts.

6. Electronic Display - show an application of one of the concepts learned in the Electronics project. Examples include: components of an electronic device (refer to p. 35 of the Electronic manual).

7. Project - exhibit an electronic item designed by the 4-H member or from a manufactured kit that shows the electronic expertise of the 4-H member. Examples include: a radio, a computer, or a voltmeter.

8. Poster (SF231) - should exemplify one of the lessons learned in the Entering Electronics Project.

Posters can be any size up to 28 inches x 22 inches.
PREMIUM CODE 13

STEM ROBOTICS - Division 861

Rules

1. The name and county of each exhibitor should appear separately on the back of each board, poster or article and on the front cover of the notebooks so the owner of the exhibit may be identified if the entry tag is separated from the exhibit.

1. The name and county of each exhibitor should appear separately on the back of each board, poster or article and on the front cover of the notebooks so the owner of the exhibit may be identified if the entry tag is separated from the exhibit.

2. Reports should be written using the scientific method whenever possible (Background, the Question or hypothesis, what you plan to do and what you did, Method used and observations, Results: what you learned. All reports should be computer generated and enclosed in a clear plastic cover. The reports should be attached securely to the display.

3. Posters can be any size up to 28 inches by 22 inches when ready for display. Example: tri fold poster boards are not 28 inches by 22 inches when fully open for display.

Team Entries: To qualify for entry at the Nebraska State Fair team materials entered in robotics classes that are clearly the work of a team instead of an individual must have at least 50% of all team members enrolled in 4-H. Additionally all enrolled 4-H members on the team should complete and attach an entry tag to the materials. A supplemental page documenting the individual contributions to the project should be included. The entry will be judged as a team, with all team members receiving the same ribbon placing.

Creating a video of your robot in action would be helpful for the judges but is not mandatory. Video should be uploaded to a video streaming application and exhibitors should provide a hard copy QR code for viewing. State Fair qualified videos should be submitted to <https://go.unl.edu/2025nesfstem> by August 10, 2026. Videos can be uploaded to a video streaming application and exhibitors must provide a hard copy QR code for viewing. Exhibitors should test their code and links on several devices to check for appropriate permissions for public viewing.

1. Robotics Poster - create a poster (28 inches X 22 inches) communicating a robotics theme such as “Robot or Not”, “Pseudocode”, “Real World Robots”, “Careers in Robots” or “Autonomous Robotics”, “Precision Agriculture” or a robotic topic of interest to the 4-H member.

2. Robotics Notebook - explore a robotics topic in depth and present your findings in a notebook. Documentation should include any designs, research, notes, pseudocode, data tables or other evidence of the 4-H member’s learning experience. The notebook should contain at least three pages. Topics could include a programming challenge, programming skills, calibration, sensor exploration, or any of the topics suggested in Class 1.

4. Robotics /Careers Interview - Interview someone who is working in the field of robotics and research the career in robotics. Interviews can either be written or in a multimedia format such as a short video uploaded to a cloud sharing service. Include a QR code with your project to allow judging access. State Fair qualified videos should be submitted to <https://go.unl.edu/2025nesfstem> by August 15, 2026.

Written interviews should be in a notebook. Multimedia reports should be between three to five minutes in length. Written interviews should be in a 8.5 inch x 11 inch notebook. Written reports should be three to five pages, double spaced, 12-point font, and 1 inch margins.

5. Robotics Sensor Notebook - Write pseudo code which includes at least one sensor activity. Include the code written and explain the code function. Codes can be submitted as a multimedia format uploaded to a cloud sharing service. Include a QR code with your project to allow judging access. Multimedia presentations should be three to five minutes in length. State Fair qualified videos should be submitted to <https://go.unl.edu/2025nesfstem> by August 15, 2026.

7. Kit Labeled Robot (cannot be free programmed) and Notebook - this class is intended for explorations of robotic components such as arms or vehicles OR educational kits marketed as robots that do not have the ability to be programmed to “sense, plan and act.” The exhibit should include a notebook with the robot the youth has constructed. Included in the notebook should be

- (1) a description of what the robot does,
- (2) pictures of programs the robot can perform
- (3) why they chose to build this particular form, and
- (4) how they problem solved any issues they might have had during building and programming.

A picture story of assembly is recommended. If the robot is more than 15 inches wide and 20 inches tall they may not be displayed in locked cases at the state fair.

If the robot is to large, we recommend you create a video of how your robot works. We recommend that you submit the project under class H861003 – Robotics Video in the Robotics Showcase.

8. 3D Printed Robotics Parts - this class is intended for youth to create parts, through 3D printing, to help create their robot or aid the robot in completing a coded function. Project should include notebook describing the process used to create the project, describe the success of your designed piece (did it work), intended use of the product and the modifications made to the item.

PREMIUM CODE 14

STEM GEOSPACTIAL - Division 880

Rules

The name and county of each exhibitor should appear separately on the back of each board, poster, or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.

Reports should be written using the scientific method whenever possible (Background, the Question or hypothesis, what you plan to do and what you did, Method used and observations, Results: what you learned. All reports should be computer generated and enclosed in a clear plastic cover. The reports should be attached securely to the display.

Please refer to the General Rules for the policy regarding firearms, items with a blade, and other related items.

Please refer to the General Rules for the policy regarding use of copywritten images.

1. Poster - create a poster (14 inches x 22 inches) communicating a GPS theme such as How GPS or GIS works, Careers that use GPS or GIS, How to use GPS, What is GIS, GPS or GIS in Agriculture, Precision Agriculture, or a geospatial topic of interest.

2. 4-H Favorite Places or Historical Site Poster - the 4-H exhibitor identifies a favorite place or historical site (including grave sites) in Nebraska. Exhibit should include latitude and longitude, digital picture, and local area map. Poster size should not exceed 14 inches x 22 inches.

STEM GEOSPACIAL CONT.

3. GPS Notebook - Keep a log of at least five places visited using a GPS enabled device. At least one site should be from a community other than where you live. For each site, record the latitude, longitude, and elevation. Also include a description of the site, a paragraph explaining what was interesting about the site or finding it. Photos of each site and/or cache are optional but encouraged.

4. Geocache - assemble a themed geocache (physical geocache is REQUIRED with the exhibit). Each geocache should include a logbook and pencil for finders to log their visits and may include small trinket, geocoins, etc. for the finders to trade. Documentation should include a title, teaser description and the geographic coordinates of Intended placement. Register the site at geocaching.com following the Nebraska State Fair. The entry may include a photograph of the cache in its intended hiding place.

5. Agriculture Precision Mapping - 4-H'ers will assemble a 8.5 inches x 11 inches three-ring notebook that will include a minimum of two digital copies of various data layers that can be used in precision agriculture to identify spatial patterns and/or correlations (printed copies of websites where applications can be purchased is acceptable). A report how the analysis of the various data will be used to make a management decision.

7. GIS Thematic Map - Using any GIS software, create a thematic. Thematic maps can utilize any subject of interest to the 4-H members. Example map would be Amelia Earhart's or Sir Francis Drake's voyage population density maps, water usage maps or 4-H project in Nebraska. Create GIS Map using data from books, and or internet. Use reliable data, (U.S. Center or U.S. Census Bureau etc.) Map any size from 8.5 inches x 11 inches up to 36 inches x 24 inches, should include Title, Base Map, Neat Line, North Arrow, and Legend. Identify the source of your information on the back of map.

8. Virtual Geocache - keep a log of at least 5 places visited using a virtual geocache platform. At least one site should be from a community other than where you live. For each site, record the latitude, longitude, and elevation. Also include a description of the site, a paragraph explaining what was interesting about the site or finding it. Photos of each site/or cache are optional, but encouraged.

PREMIUM CODE 15

STEM ENERGY - Division 900

Rules

1. The name and county of each exhibitor should appear separately on the back of each board, poster or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated.

2. Reports should be written using the scientific method whenever possible (Background, the Question or hypothesis, what you plan to do and what you did, Method used and observations, Results: what you learned. All reports should be computer generated and enclosed in a clear plastic cover. The reports should be attached securely to the display.

3. Posters can be any size up to 28 inches by 22 inches when ready for display. Example: tri fold poster boards are not 28 inches by 22 inches when fully open for display.

1. Create and Compare Energy Resources Poster - poster should explore 2 alternative/renewable energy resources. Compare and contrast the two resources including two of the following information: amount of energy created, costs of production, usability of the energy, pros/cons of environmental impacts, etc. Posters can be any size up to 28 inches by 22 inches

2. Experiment Notebook - notebook will explore the scientific method involving alternative/renewable energy sources. Information required 1.) Hypothesis 2.) Research 3.) Experiment 4.) Measure 5.) Report or Redefine Hypothesis.

3. Solar as Energy Display/Poster - item should be the original design of the 4-Her. Include the item, or a picture if item is in excess of 6 feet tall or 2 feet X 2 feet. Include a notebook of why the item was designed and how it harnesses the power of the sun. Examples include solar ovens, solar panels, etc.

4. Water as Energy Display/Poster - item should be the original design of the 4-H member. Include the item, or a picture if item is in excess of 6 feet tall or 2 feet X 2 feet. Include a notebook of why the item was designed and how it harnesses the power of water.

5. Wind as Energy Display/Poster - item should be the original design of the 4-Her. Include the item, or a picture if item is in excess of 6 feet tall or 2 feet X 2 feet. Include a notebook of why the item was designed and how it harnesses the power of wind.

6. Other Nebraska Alternative Energy - notebook should explore Nebraska an alternative energy source besides wind, water, and solar power.

Include information on type of power chosen, infrastructure for distribution, what resources are needed to create this alternative resource, cost of production, and potential uses of bio-products. Examples include geothermal, biomass, ethanol, biodiesel, methane reactors, etc.

PREMIUM CODE 15

STEM WOODWORKING - Division 911

Rules

1. The name and county of each exhibitor should appear separately on the back of each board, poster, or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.

2. Requirements: All articles exhibited must include a plan (with drawings or sketch or blueprints) stating dimensions and other critical instructions a builder would need to know how to build the project and the 4-H's name and county. Plans may include narrative instructions in addition to the dimension drawings and include any alternations to the original plan. Part of the score depends on how well the project matches the plans. If the plans are modified, the changes from the original need to be noted on the plans. All plans used for making the article must be securely attached and protected by a clear plastic cover.

3. 4-H members must be in Unit 3 or Unit 4 for the exhibit to be considered for State Fair. All projects must have an appropriate finish.

4. If the project (i.e. picnic tables, wishing wells, swings, chairs, bridges, doghouses, etc.) is designed to be used outside and is selected for state fair, it will be displayed outside.

5. All outside projects MUST have entry tag and supporting information placed in a protective bag to prevent damage from weather events such as rain and be ATTACHED to projects with string, zip ties, etc.

COUNTY ONLY ENTRIES IN UNITS 1 & 2 WOODWORKING

9.+ Article - Select from Unit 1 or use comparable plans from other sources.

10.+ Article-Select from Unit 2 or comparable plans from other sources.

1. Woodworking Article - item should be made using either joints, hinges, dowels, or a dado joining made using skills learned in the Nailing It Together manual. Item is required to be appropriately finished. Examples include: bookcase, coffee table or end table.

3. Recycled Woodworking Display - article made from recycled, reclaimed, or composite wood. Article must be appropriately finished and/or sealed and utilize one or more woodworking techniques from page 2 of the Unit 3 manual. Exhibit must include the woodworking plan and a minimum one-page report of how the engineering design process was used to develop the woodworking plan. Engineering Design Process

1. State the problem (Why did you need this item?)

2. Generate possible solutions (How have others solved the problem? What other alternatives or designs were considered?)

3. Select a solution (How does your solution compare on the basis of cost, availability, and functionality?)

4. Build the item (What was your woodworking plan, and what processes did you use to build your item?)

5. Reason for article finish (What type of finish, how did you finish or why you choose this finish?)

6. Evaluate (How does your item solve the original need?)

7. Present results (How would you do this better next time?)

4. Composite Wood Project - 60% of the project must be wood and 40% made from other materials such as metal, rubber, resin, etc. All plans and plan alterations must be attached to the article. Protect plans with a cover. If project is designed to be outside it is required to have appropriate outdoor finish because project may be displayed outside.

5. Outdoor Wood Project made with Treated Wood - treated wood projects DO NOT have to have a finished coating. All plans and plan alterations must be attached to the article. Protect plans with a cover. If project is designed to be outside. Examples include: picnic tables, planters, outdoor furniture, etc.

6. Wood Projects Created on a Turning Lathe - article is the object created from spinning wood on a turning lathe. Article must be appropriately finished and/or sealed. Exhibits must include plans detailing design and process of completion, any changes made to the design, details of finishing techniques, and other relevant information about the article. Must include a description of tools used.

PREMIUM CODE 6

WELDING - Division 920

Rules

1. The name and county of each exhibitor should appear separately on the back of each board, poster, or article and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.

WELDING CONT.

2. All articles exhibited must include a plan (with drawings or sketch or blueprints) stating dimensions and other critical instructions a builder would need to know how to build the project and 4-Her's name & county.

3. Plans may include narrative instructions in addition to the dimension drawings and include any alternations to the original plan.

4. Part of the score depends on how well the project matches the plans. If the plans are modified, the changes from the original need to be noted on the plans.

5. All plans used for making the article must be securely attached and protected by a clear plastic cover.

6. If the project (i.e. picnic tables, wishing wells, swings, chairs, bridges, doghouses, etc.) is designed to be used outside, it will be displayed outside.

7. All outside projects MUST have entry tag and supporting information placed in a protective bag to prevent damage from weather events such as rain and be ATTACHED to projects with string, zip ties, etc.

1. Welding Joints - a display of one butt, one lap and one fillet weld.

1. All welds should be made with the same electrode/wire/rod size and number.

2. Welds should be made only on one side of metal so penetration can be judged.

3. Welds should be cleaned with chipping hammer and wire brush. Apply a coat of light oil (penetrating oil) to the metal to prevent rusting. Wipe off excess oil.

4. It is suggested that all welds be on the same size and thickness of metal. These pieces, referred to as coupons, should be 1.5 to 2 inches wide and 3.5 to 4 inches long. A good way to get this size is to buy new cold rolled strap iron and cut to length. These pieces, referred to as coupons, should be 1.5 to 2 inches wide and 3.5 to 4 inches long. A good way to get this size is to buy new cold rolled strap iron and cut to length. The extra width is needed to provide enough metal to absorb the heat from the welding process and prevent the coupons from becoming too hot before the bead is completed. Narrower coupons will become very hot, making an average welder setting too cold at the bead start, just about right in the middle, and too hot at the end. The correct way to weld narrow strips is to make short beads and allow time to cool, however this project requires a full-length bead.

5. Stick welding: Suggested coupon thickness - 1/4 inch if using 1/8 inch rod. Suggested rod-AC and DC straight or reverse polarity- first E-7014, second E-6013

6. MIG welding: Suggested coupon thickness - 1/4 inch if using .035 wire and 1/8 inch if using .023 wire

7. Oxy-Acetylene: Suggested coupon thickness - 1/4 inch if using .035 wire and 1/8 inch mild steel rod.

2. Position Welds - a display showing three beads welded in the vertical down, horizontal and overhead positions.

1. It is suggested that all welds be of the same size and thickness of metal. These pieces are referred to as coupons. The welds can be on one coupon that is about 4 inches x 4 inches or on individual coupons that are about 2 inches x 4 inches and 1/4 inch thick. Suggested rods for this class of position welds for AC and DC straight or reverse polarity is, first E-6013, second E-7014 and E-6010 for DC reverse polarity only.

2. Welds should be cleaned with a chipping hammer and wire brush. Apply a coat of light oil (penetrating oil) to the metal to prevent rusting. Wipe off excess oil.

3. 4-H Welding Project Tips and Suggestions: Class 3 & 4

1. All welds should be cleaned and protected from rust with paint or light oil. Plans are to be complete enough that if they were given to a welding shop, the item could be made without further instructions. Bill of materials should include a cost for all items used including steel, electrodes, paint, wheels, etc.

3. Welding Art - any art created using tack welds to hold the metal pieces together (examples include horseshoe projects). Type of welder, welder settings, all plans, plan alternations, and a bill for material must be attached to the article. Protect plans with a cover. If project is designed to be outside, it is required to have appropriate outdoor finish.

4. Welding Article - any shop article where welding is used in the construction. 60% of the item must be completed by 4-H member and notes regarding laser welding or machine welding must be included. Type of welder, welder settings, all plans, plan alternations, and a bill for material must be attached to the article. Protect plans with a cover. If project is designed to be outside it is required to have appropriate outdoor finish because project may be displayed outside.

5. Welding Furniture - any furniture with 75% welding is used in the construction. 60% of the item must be completed by 4-H member and notes regarding laser welding or machine welding must be included. Type of welder, welder settings, all plans, plan alternations, and a bill for material must be attached to the article. Protect plans with a cover. If project is designed to be outside it is required to have appropriate outdoor finish because project may be displayed outside.

6. Plasma Cutter/Welder Design - plasma cutters/welders allowed for detailed design(s) to butt cut into metal. 4-H members will create a notebook describing the design process to create the "artwork" to butt cut into metal. In the notebook include:

- A photo (front and back) of the finished project;
- Instructions on how the design was created (include software used), this allows for replication of the project;
- Lessons learned or improvements to the project;
- Steps to finish the project.

7. Composite Weld Project - 60% of the project must be welded and 40% made from other materials such as wood, rubber, etc. Type of welder, welder settings, all plans, plan alternations, and a bill for material must be attached to the article. Protect plans with a cover. If project is designed to be outside it is required to have appropriate outdoor finish because project may be displayed outside.

PREMIUM CODE 9

DEPARTMENT – COUNTY ONLY

ALL ENTRIES LISTED BELOW ARE NOT ELIGIBLE TO BE SELECTED TO THE STATE FAIR

LET'S CREATE CRAFTS - Division 265

Exhibits in this section are not eligible for state fair and will not be judged. Each entry will receive a participation ribbon and a \$1.00 premium. Each exhibitor may bring up to three entries. Ideas for exhibits include crafts made using some type of material such as: appliqué, clay, leather, weaving, painting, paper, plastic, glass, holiday, etc.

1.+ First Entry

2.+ Second Entry

3.+ Third Entry

SCRAPBOOKING - Division 268

1.+ Scrapbook

JEWELRY - Division 270

1. + Leather

2. + Hemp

3. + Beaded

4. + Metal

5. + Other

LEATHER WORK - Division 271

PREMIUM CODE 15

1.+ Belt

2.+ Pet Collar

3. + Other (wallet, card holder, etc.)

PREMIUM CODE 18

LEADERSHIP UNIT 1, 2 AND 3 - Division 275

4-H'ers will develop exhibits that show what they have learned and may include but is not limited to: Posters, 14 inches by 22 inches; notebooks, 8½ inches by 11 inches; PowerPoint with copy of slides; scrapbook, any size; or any other means that would best show skills learned in the project. Leadership manuals include My Leadership Workbook for grades 3-5, My Leadership Journal for grades 6-8; and My Leadership Portfolio for grades 9-12.

1.+ My Treasure Chest - develop an exhibit that shows your skills as a leader and/or skills that you would like to achieve to become a better leader.

2.+ Leader Essay - write an essay that identifies a local, regional, state, or national leader; discussing their strengths and weaknesses as a leader and leadership characteristics.

3.+ Plan a Vacation - follow guidelines from My Leadership Workbook, pages 26-27, on Step Out and Step Inward Activities to help you develop a vacation timeline to depict what needs to be completed to have a successful vacation. Exhibit could be a poster, notebook or calendar with steps listed and dated.

4.+ Goal Setting - write three goals you want to achieve. When writing your goals consider what actions you must take to reach these goals, how you are going to do it and when you are going to do it. Make sure all your goals include all three parts.

5.+ Interview a Leader - interview a leader or a person close to you. What is very important to them? Explain an activity or event they enjoy. Why is it important? Who is important to them, and why? What leadership characteristics do they possess? What are their strengths and weaknesses as a leader? What would they like to improve? How will what you have learned through this interview change your future plans or way of thinking about leaders? How can you apply to your own life and how? Exhibit can be recorded or written and should include the questions asked and the responses.

6.+ Career Essay - choose a career and job shadow in that career. Write an essay to share your experience and what you learned. What type of leadership skills did this person utilize in their position? What goals will you set as a result of this experience?

7.+ Decisions, Decisions, Decisions - explore an issue and develop recommendations on how you should respond to the issue. Examples: homelessness, school violence, community improvement or any other topic facing youth today.

8.+ Youth Leadership Experience - share what you have learned while participating in a youth leadership role through photos and narrative. May cover a single event or ongoing experience.

9.+ Educational Display or Poster about Leadership - about leadership.

PREMIUM CODE 17

MISCELLANEOUS - Division 940

This is for any 4-H entry completed in conjunction with a 4-H project or 4-H workshop that does not fit in another class. Please ask an Extension Educator for more information.

1. + County eligible only

2. + County eligible only

PREMIUM CODE 15

BATH SALTS, BODY SCRUBS AND BATH BOMBS - Division 942

1.+ Handmade Bath Salts, Body Scrubs or Bath Bombs -

Include ingredients and instructions for use. **2.+**

Handmade Soap – included ingredients and instructions for use.

POSTERS - Division 945

Posters should be: 14 inches x 22 inches (horizontal or vertical) on white poster board. You may use photos. Use your creativity in creating your poster.

1. + Agriculture Promotion Poster – poster featuring agricultural promotion. Why is agriculture important.

2. + 4-H Promotion Poster - poster must have on it: For questions, contact Saline County 4-H - 402-821- 2151.

Accurate use of the 4-H Clover MUST be used. For guidelines for using the 4-H Clover, visit:

<https://go.unl.edu/useof4hclover>

3.+ My Favorite 4-H Project Poster - highlight ONE favorite 4-H project

4.+ Saline County Fair Theme Poster – must use the current year’s fair theme

5.+ Careers Poster - highlight ONE career that interests you

6.+ Alternative Energy Poster - select ONE source of alternative energy (solar, hydropower, wind, etc.)

PREMIUM CODE 15
