

Adams County 4-H 2022 Pick-A-Project

Welcome to Adams County's 2022 Pick-A-Project. Some may be unique Adams County projects. All projects that are available to you are listed on the Adams County Project List, which shows how the projects are named in 4-H Online in the project dropdown list. You only have to "Select" and "Add" to enroll in the project online. The State's "Project Resource Central" (PRC) is a great online resource at <https://4hcurriculum.unl.edu/index.php/main/index> because it has much more helpful information about projects that are available, the specific manuals or record books needed for the project or project level can be purchased or obtained directly thru the PRC online or you can visit the Extension Office.

The common Project Title is in bold. Please check to make sure you are enrolling in the correct project and or level. Below the project area is listed what you can do/learn in the project, manuals and reference materials. We hope this will help you decide which projects to enroll in. We may also get new resource materials in for projects periodically throughout the year. Please ask if you are interested in additional information when you come in to pick-up your resource materials. There are some project titles that are denoted with 'County Only' behind the titles. These projects are "**County Only Projects**" the exhibits from these projects do not go to State Fair.
