Project Goals:

The first step of a successful project is to set project goals and steps to achieve your goal. Each goal should contain three parts: action, results and timetable. Example: (Action): I want to learn, (Results): how to design and sew and dress using challenging fabrics, (Timetable): before county fair. The steps are the activities we do in the project to reach our project goal before the end of our timetable.

My Project Goals	What I Learned	Time Spent	Special Help (i.e. people, books, internet)
