

# Start *simple* with MyPlate

Healthy eating is important at every life stage,  
with benefits that add up over time, bite by bite. Small changes matter.

**Fruits**

Focus on whole fruits like fresh, frozen, canned, or dried.  
Buy fruits to have them available to add to your meal or eat as a snack. If you buy juice, select 100% fruit juice.

**Vegetables**

Eat a variety of vegetables and add them to mixed dishes like casseroles, sandwiches, and wraps.  
Fresh, frozen, and canned count, too. Look for "reduced sodium" or "no-salt-added" on the label.

**Grains**

Choose whole-grain versions of common foods such as bread, pasta, and tortillas.  
Not sure if it's whole grain? Check the ingredients list for the words "whole" or "whole grain."

**Protein**

Eat a variety of protein foods such as beans, soy, seafood, lean meats, poultry, and unsalted nuts and seeds.  
Select seafood twice a week. Choose lean cuts of meat and ground beef that is at least 93% lean.

**Dairy**

Choose low-fat (1%) or fat-free (skim) dairy. Get the same amount of calcium and other nutrients as whole milk, but with less saturated fat and calories.  
Lactose intolerant? Try lactose-free milk or a fortified soy beverage.
