Buffalo County 4-H Wants You

With the school quickly winding down and the feeling of spring in the air, it is time to determine how we will all be spending our time the next few months. If you are looking for a way to be involved as a family, learn new skills and be able to exhibit at the Buffalo County Fair, joining 4-H is a great option for you. All youth between 5-18 are eligible to be involved in 4-H.

The mission of Nebraska 4-H is to empower youth to reach their full potential working and learning in partnership with caring adults. There are a variety of ways to participate in 4-H, camps, traditional clubs, school enrichment, afterschool programs, special interest programs and independently. 4-H has more than 150 projects to choose from; Robotics, Photography, Shooting Sports, Cooking, Visual Arts, and Companion Animals just to name a few. Whatever your area of interest is, there is a place for you in 4-H.

In addition to opportunities for youth, adults are needed as volunteers. Do you have a skill you are willing to teach others? Do you enjoy working with youth and have time to ensure extra hands are available during a workshop? Volunteer time commitments can range anywhere from a few hours at a workshop to a more involved leader of a traditional club.

To be eligible to participate in the 2021 Buffalo County Fair you need to be enrolled by June 15th. To get more information on joining 4-H visit, <https://extension.unl.edu/statewide/buffalo/>, call 3080-236-1235, or

kerry.elsen@unl.edu. We are happy to help you find the right project area and help you walk through the enrollment process. The opportunities are endless in 4-H!
