This project reference guide lists project resources available for Nebraska 4-H members, families, and volunteers. It includes materials developed by the University of Nebraska–Lincoln Extension 4-H Youth Development Program, National 4-H, and other universities, as well as online resources.

Most items listed are available as printed manuals, but some are available electronically (CD, DVD, or online). All online resource links can be found on the corresponding Project Resource Central on the Nebraska 4-H website: go.unl.edu/projectresources.

National 4-H items are noted by NATL4H; these manuals must be ordered through the National 4-H website at http://www.4-hmall.org/. Unless otherwise noted, materials can be obtained through your county Extension Office or go.unl.edu/projectresources.

4-H provides many educational projects and activities for youth; however, not all of which correspond with a fair exhibit. The names of some projects listed in this manual reflect Nebraska State Fair or National 4-H names and may not match project names at the county level. If you have any questions about a project, contact your county extension staff for assistance.
