GENERAL RULES AND REGULATIONS

ENTRIES

ABSOLUTELY NO PRIVATE DRONES ALLOWED DURING THE FAIR

All entries will be made in strict compliance with the official premium list and awards made in accordance therewith.

No animals can be entered more than once except for herds and champions. All animals must be exhibited at such time and place as the superintendent of the class may direct in accordance with the official program. If neglect or abuse of any exhibited animal on the Colfax County Fairgrounds is suspected, the issue shall first be directed to the appropriate species Superintendent. The Superintendent shall investigate the allegation and determine if any action is required. The Superintendent shall include additional individuals as required including but not limited to: Ag Society Executive Board Members, Nebraska Extension Educators, FFA instructors, Veterinarians, etc. Upon completion of the investigation, a report shall be made to the Colfax County Agricultural Society during a noon meeting held daily during the fair. Additional actions required will be determined by the Agricultural Society and may include consultation with the Nebraska Extension Office or FFA instructor.

Any persons feeling aggrieved by the proceedings of the superintendent or judges in any matter not covered by the rules should submit the matter in writing to the secretary of the Colfax County Agricultural Society immediately. Protests may be submitted to the Secretary in writing within one day after the close of the fair, stating plainly all the facts and causes of protest or appeal, accompanied by a deposit of \$10.00, with the Secretary of the Colfax County Agricultural Society.

The Society will do all it can to protect and care for animals exhibited but will not be responsible for any loss or damage that may occur.

**Please note, 4-H specific information can be found beginning on page 26.
FFA livestock entries will be made only by Agriculture Education Instructors.**

No articles or animals entered for the exhibition will be allowed to be removed from the location assigned until 6:00 p.m. on the closing day of the fair. Vehicles and trailers must be moved to approved parking areas after entries have been received. No trailers are allowed to be permanently parked between the horse area (directly East) and directly West of the cattle, cattle fitting and hog barns. Colfax County Agricultural Society will notify once of need to move trailers, if not immediately moved, the Society will move identified trailers to approved trailer parking areas. This will also apply to other vehicles which are determined to be impeding parking and/or traffic flow.

Pets attending the fair with their owners must be controlled and on leash at all times. Colfax County Agricultural Society may order removal of any pet deemed dangerous or inappropriate to be at the fair.

Advertising of any ranch or business endeavor associated with the exhibitor or family of an exhibitor on the fairgrounds is prohibited unless permission is expressly granted by the Ag Society of Colfax County.

Any article or any animal in any division (4-H, FFA or open class) that is removed from the items or animals exhibit prior to the announced check out time without the consent, in writing, of the Colfax County Agricultural Society Board will forfeit ribbons, trophies, banners, premium money and recognition. Clean up prior to announced check out which would interfere with the fair attendees ability to view said exhibits is not allowed.

Obscene and abusive language or actions will not be tolerated and will be dealt with possible expulsion, forfeit of premiums, trophies, banners and ribbons won.

Bagged wood chips shall be the only bedding allowed in the hog and sheep complex and under no conditions will any wet shaving or wet chips be allowed in any livestock barn. The Colfax County Agricultural Society will not have bagged wood chips available for purchase. It is the responsibility of the exhibitor to provide adequate bedding for their entries.

During the parade, candy shall not be thrown from any vehicle to the spectators of the parade. Candy must be handed out by walkers.

OPEN CLASS INFORMATION PREMIUMS

Prizes are limited to Colfax, Platte, Dodge, Butler and Stanton counties only, except 4-H club work, which is limited to the supervision of the Colfax County Extension Educator.

Blues denotes first premium; red denotes second premium, and white denotes third premium.

All open class premium money will be paid starting at 1:30 P.M. Saturday, July 20 providing all shows are completed and records turned in to the office. Premiums may not be available for up to 4 hours after close of the show.

All open class premium money must be picked up before 6:00 P.M. Sunday, July 21, and before any exhibits are released.

NO CHECK BELOW \$5.00 WILL BE MAILED AND PREMIUM SHALL BE FORFEITED.

DUTIES OF THE SUPERINTENDENTS

Superintendents will attach premium tags or ribbons as soon as the judges have rendered a decision.

It shall be the duty of the Superintendents to be on the fairgrounds entry day of the fair to assist in arranging exhibits for their classes.

It shall be the duty of the Superintendents to give exhibitors such information as they may ask, and seek any way to make firm friends for the fair by just and impartial treatment.

Department needs should be studied and reported to the Secretary at the close of the fair in order that needed improvements can be made.

The superintendents should study the rules and regulations of the Society touching their departments. The Superintendents are not responsible for the rules, but they are responsible for their enforcement.

The Superintendent should never allow an article or animal into their departments for competition purposes unless accompanied by an entry tag upon it. They should be sure that every entry tag has a number on it.

An entry should never be changed on the judge's book but should be brought to the Secretary. He alone has the authority to correct an error in the books.

After receiving the judge's book, the Superintendent should never let them leave their hands or allow any person other than themselves to see them. The books should be signed by the judge and returned promptly to the Secretary as soon as the awards are made.

The judges must finish their work on judging on the first day of the fair. In case the judges regularly chosen cannot do the work in that time, the President has the right to choose other judges and put them to work in order that the judging may be finished on the day set.

The Superintendent should never allow the judge or judges, after having once made an award, to change that award.

As soon as the Superintendent has made the entry award in the judge's book, before doing anything else he should attach the premium ribbon to the article receiving an award, tying the ribbon to the entry tag if possible, making sure the ribbon is tied to the right article.

The Superintendent should be sure he understands the award made by the judges. Ask this form of announcement — Number 45 gets first (or second) in entry number 75.

It shall be the duty of every superintendent to inform each exhibitor of the premium payout policy. (Payout begins at 1:30 P.M. on Saturday up till 6:00 P.M. on Sunday.) **No premium check less than \$5.00 will be mailed and premium money will be forfeited unless the money is picked up at the fair office.**

Any operator of a motorized vehicle (2, 3 or 4 wheel and propelled by something other than human pedal power) must possess a license to operate a motor vehicle issued by a state in the United States of America and be at least 16 years of age. Furthermore, use of a motorized vehicle on the fairgrounds other than licensed road vehicles (i.e. cars, trucks pickups, motorcycles, motorized bikes, etc.) must be approved by the fair board prior to use with proof of liability insurance with Colfax County Ag Society specifically named as co-insured.

DUTIES OF THE JUDGES

You will receive your committee book and entry upon the discharge of your duties at 8:00 a.m. The committee books will refer to the number affixed to the different entries submitted for your examination. In these books you will write your report.

Permit no person to interfere with your examination or to be present at your deliberations.

Judges will not award any article or animal a premium unless, in their opinion, it is decidedly meritorious.

An entry which has no competition may be awarded first, second or third, or no premium, depending on its merit.

You may also take into consideration the symmetry, early maturing, size feeding, and other circumstances connected with animals you judge.

Judges should have the same right to exhibit work as others, but neither themselves nor their associate judge or judges shall be allowed to pass judgment upon the class in which the work of the judges shall appear.

In case of bad weather, or for other reasons, the Colfax County Agricultural Society has the right to hold exhibits over another day. Therefore all stock must be held in readiness for all such exhibitions.

Judges must place entry numbers and names on premium cards. The judges are required to adhere strictly to these rules.

CONCESSIONS and COMMERCIAL EXHIBITS

For concession privileges, shows or attractions, apply to the Secretary for plot of space and prices.

No privileges will be granted for questionable or immoral shows; or gambling devices.

All privileges will be sold with the distinct understanding that the right of cancellation is reserved by the Board of Directors of the Society for violations of the Federal or State statutes; the regulations of the Society or the conditions upon which the concession was granted; and any or either of such violations by a concessionaire shall work a forfeiture of his privilege without reimbursement.

Each concessionaire is expected to deal honestly with the public. An attempt at fraud or misrepresentation will be considered sufficient cause, revoking privileges and forfeiture of money.

Each concessionaire and commercial exhibitor is required to pick up and load his own rubbish and garbage prior to 8:00 A.M. They are also expected to keep their area and surrounding area clean and free of trash. All exhibit areas **must be kept in a strictly sanitary conditions.**

To avoid mistakes, read the rules and regulations carefully.

You are invited to make use of the information bureau on the grounds, where all questions will be cheerfully answered at the Secretary's office.

The officers reserve the right to make interpretations and to revise the premium list should the situation warrant such action.

Refer all matters that may arise, not covered by the rules, to the President and the Secretary.

Exhibitors and visitors will take notice that the Society will not be liable for any damage or accident that may unfortunately occur to anyone or for the loss of property, but the Ag Society will use due diligence to avoid accidents and afford protection.

**LOT L — SCHOOL DEPARTMENT
County Fair Exhibit**

The Nebraska School Laws (79.4.139) provide for an annual exhibit of school work from each district in a county. The purpose of the exhibit is to stimulate interest in the work of the schools.

Schools employing more than two teachers may have a maximum of twenty-seven cards. Each child may have a share in an exhibit by group work. The money from the Fair Board for the school exhibit is divided among all the schools depending on the number of entries.

The exhibits displayed should indicate good technique of teaching. Subject matter correlation, pupil-teaching planning, creativeness and subject matter skills should be encouraged in all the work of children. Exhibits will be evaluated in terms of their significance of child growth and development. Individual and group work of children working cooperatively together is to be encouraged. The school exhibit is a children's exhibit and all work must be that of the children.

No article entered for exhibition will be allowed to be removed from the grounds until 8:00 p.m. the last day of the fair. Early removal may result in forfeiture of premium money.

GENERAL 4-H ENTRY RULES

Any boy or girl currently enrolled in the 4-H program in Colfax County may exhibit at the Colfax County Fair. This includes youth who live in adjoining counties but are enrolled in Colfax County. This also includes individual 4-H club members and youth involved in a 4-H school enrichment project.

An exhibitor may not exhibit in the same project area or contest in more than one county. All exhibits must be the property of the exhibitor and the product of the current year’s work.

In the case of livestock entries, each species of livestock is considered a “project”. Thus, an exhibitor can only exhibit in a given species of livestock in one county. (Example: Exhibitor enrolled in two clubs, one in County A and one in County B. If you exhibit in a Beef project of any kind in County A, you cannot exhibit in a Beef project of any kind in County B.)

Use of Copywritten Images — Copyrighted writing, artwork, videos, and images may be used in 4-H educational exhibits under Fair Use for educational purposes of Copyright Law. In order to qualify for Fair Use, 4-H’ers must: 1) only use a small amount of the copy-written work, 2) add new meaning to the work to make it original, 3) rework it and use it in a totally different way, and 4) use it for nonprofit purposes (not to make money). Giving credit to the original creator is also recommended.

No Firearms, Items with a Blade (broad heads, knives, saws, etc.) or related items of any kind, may be exhibited. This applies to actual items, replicated items and item parts. Shooting sports accessories are permissible as described in the Conservation, Wildlife and Shooting Sports fair book.

Entries in the 4-H division shall not be eligible to compete in the open class division.

Judges will place awards on the basis of merit. A purple, blue, red or white ribbon will be given to each exhibit. The judge’s decision in all cases will be final.

Late entries and Livestock ID’s will be lowered one ribbon placing after judging and the exhibits will be ineligible for awards.

Grand Champions, Reserve Champions and trophy/banner/award winners must be from purple ribbon exhibits, unless the judge deems them worthy.

All Clover Kid exhibits will receive participation ribbons.

The executive committee reserves the right to make interpretations and to revise the premium list should the situation warrant.

An incomplete exhibit (e.g. wrong number of items for exhibit, lack of information card, incorrect size of poster, etc.) will be judged on its merit and then lowered one ribbon placing. It is ineligible for awards other than ribbon and premium money.

All possible care will be used to prevent loss or injury but the management of the fair will in no way be responsible should loss or injury occur.

All exhibits in the 4-H building must be labeled with exhibitor name. This is separate from the entry tag.

Fair items brought back to the office on the last night of fair must be picked up by August 15th or premium money will be withheld until they are picked up.

Trophy/banner/award winners must turn in a written thank you note, for their trophy/banner/award sponsor, to Extension Staff to receive their premium money. This includes fair premiums and livestock support fund checks.

APPEALS/PROTESTS

Any person who feels that a violation of the rules or regulations of the Colfax County Fair 4-H/FFA competitions has occurred, must go through a protest/appeals process. This appeals process covers all 4-H contests, static exhibits, and livestock exhibits/shows. The respective superintendent has the authority to make appropriate decisions based on the 4-H/FFA Premium Book. When needed, the protest committee (consisting of respective superintendent, Ag Society representatives, 4-H Council representatives, FFA instructor and Extension Educator) will meet to act upon concerns. The FFA instructor will be asked to be present only when the situation involves FFA livestock or static entries.

Protests for pre-fair contests/competitions must be submitted no later than 7 days after the contest/competition. Protests for fair exhibits/shows will not be accepted after the exhibit release time. All protests must be submitted in writing and signed by the filing party in the time specified. The written protest must be submitted to the 4-H Youth Development Extension Educator and must include: 1) Name of person(s) involved, 2) Nature of concern, 3) Situation and documentation, 4) Recommendations for corrections, 5) Specific action, rule, etc. in question, 6) Additional person(s) committee may contact for further clarification, 7) Procedures and/or steps carried out by person involved prior to submission of protest to the 4-H Youth Development Extension Educator and/or FFA Advisor.

The committee will review the written protest. They may discuss the situation with the affected persons and show/contest/exhibit officials/superintendents. Recommendations will be developed, followed and communicated both verbally and in writing to the group or the individual(s) affected.

In cases of protest, the exhibitor(s) may be allowed to exhibit/show/compete but results of exhibiting/showing/competing will be subject to change based on the outcome of the protest process. This allows for the smooth operation of the shows/competitions and facilitates appropriate processing.

The management reserves the right to withhold premiums and/or awards. The exhibitor(s) may also be excluded from the show/exhibit hall/contest if action warrants. **Protests related to the judges' integrity, decisions, placings or other evaluations will NOT be accepted.**

LIVESTOCK EXHIBITORS INFORMATION

All livestock project animals must be identified by May 31 to be shown at the Colfax County Fair. Late livestock ID's will be lowered one ribbon placing after judging and will be ineligible for awards.

OWNERSHIP — All exhibits must be property of the 4-H exhibitors and the products of the current year's work. All breeding animals must be owned by or in partnership with any member of the immediate family.

- A) Beef, dairy, dairy goat, meat goat, horse, sheep or swine project animals may be owned: solely by the 4-H exhibitor or in partnership by the 4-H exhibitor and/or other members of his or her immediate family. Only the name of the showman can be on the show entry. Immediate family is defined as members of a household including parents, brothers, sisters and youth in the care of the head of the household.

When 4-H exhibitor(s) and parent(s) sign an ownership affidavit, indicating the exhibitor(s) will feed and care for the animals, it is expected that the exhibitor(s) will have primary responsibility for the animals.

- B) Horses, Dairy Animals and Dairy Goats: An exhibitor in a 4-H show of a horse, a dairy animal, or dairy goat, may show an animal owned by someone outside of the immediate family provided he or she manages (cares for, feeds, trains, grooms, etc.) and has use of the animal as a 4-H project animal at least 75% of the time during the project year.

QUALITY ASSURANCE TRAINING: Exhibitors in beef, dairy cattle, goats, sheep, swine, rabbits & poultry must have completed an approved food animal quality assurance training program. Exhibitors must have received quality assurance training through Youth for the Quality Care of Animals (YQCA) prior to the fair. YQCA is an online training.

Completion of quality assurance training gives youth the knowledge and understanding of the importance of caring for their animals. Taking care of animals does not stop at County Fair. Complaints of exhibitors not caring for their animals during County Fair will result in exhibitors being questioned by Extension staff and a veterinarian if deemed necessary.

Pre-register ALL livestock.

A pen shall be considered two hogs, three sheep or three goats.

Only 4-H feeder calves and bucket calves will be released ahead of the official time set for entries to be released. Lactating cows may be released ahead of time providing the exhibitor has another dairy animal at the fair.

DRESS CODE — Exhibitors showing beef, dairy, goats, cats, sheep, swine, small animals, poultry and rabbits are required to wear a Colfax County 4-H T-shirt, plain white shirt (including T-shirt) or blouse with the official 4-H chevron attached, or a national 4-H T-shirt. Club T-shirts are not allowed. Exhibitors in beef, sheep, swine, goat, dairy, dairy goats, goats, small animals, cats, poultry and rabbit must wear closed toe shoes, no sandals are allowed. Dark blue jeans are required for beef, cat, sheep, swine, goat, small animals, poultry and rabbit exhibitors. Dairy and dairy goat exhibitors may wear dark blue jeans or white pants. No hats, caps or other type of headgear are to be worn in the show ring. Exhibitors shall not display commercial or other identification while showing their animals except official 4-H and such identification the show ring may require. Horse exhibitors must have armbands while exhibiting to enter the arena.

Only 4-H exhibitors may exhibit. **ONLY ONE PERSON MAY SHOW AN ANIMAL** in the show ring.

Exhibitors should contact the Fair Board and the appropriate superintendents to secure early release for sick or injured animals.

GROOMING — Preparation and grooming of an animal should be the primary responsibility of the 4-H exhibitor, however, assistance may be provided by other Colfax County 4-H or FFA exhibitors and/or immediate family members including brothers, sisters and/or parents/legal guardian of the exhibitor. Grooming by those outside of this list is not permitted at the Colfax County Fair and if there is a violation of these rules the exhibitor's animal will receive no higher than a red ribbon. Professional groomers are **NOT** allowed.

All livestock exhibitors are encouraged to participate in showmanship.

SUBSTITUTE SHOWMAN. An animal must be shown by the 4-H owner who entered it unless the exhibitor is excused by the Division Superintendent because of serious illness, disability due to an injury (e.g. broken arm or leg) or conflict with other livestock classes in the 4-H show. An exhibitor who has more than one animal in a class need not secure approval for another 4-H member, eligible to exhibit livestock, to show the additional animal in the class.

ETHICS — Nebraska 4-H livestock programs strive to create an atmosphere that encourages good character, accountability and ethical decision making. The International Association of Fairs and Expositions (IAFE) National Code of Show Ring Ethics outlines a number of specific guidelines for all exhibitors and others involved with 4-H livestock projects and will be followed for the Colfax County Fair. The entire IAFE document can be found on our website and was distributed in the Colfax County 4-H Newsletter.

4-H Exhibitors are expected to display a 4-H sign listing their name, club, and livestock project information to help identify their project for herdsmanhip judging. **No breeder or commercial signs may be displayed with your livestock.**

In the event that any animal is found affected with an infectious or transmissible disease, it will remain trailered and inspected by a designated official. Livestock Superintendents have the right to have a vet check an animal. If there's any cost, it will be at the exhibitor's expense.

RINGWORM AND WART POLICY

Each 4-H exhibitor is expected to have a sign identifying if they are a member of a 4-H club or are an independent member over each of their animals and also their tack pens. If a club is sharing a tack pen, the club is responsible for making sure that a sign identifies their tack pen. All exhibitors must use the uniform 4-H stall cards that are provided at the 4-H office.

Herdsmanship will be judged by the following time schedule:

- Friday: 9:00 a.m. - 6:00 p.m.
- Saturday: 9:00 a.m. - 6:00 p.m.
- Sunday: 1:00 p.m. - 4:00 p.m.

Livestock exhibitors at the Colfax County Fair are expected to keep their quarters orderly, neat, and as attractive as possible. The total area will be inspected one to two times each day. Each club will be rated on its herdsmanship. Final herdsmanship placings for each club will be based on herdsmanship rating of all beef, sheep/goats, swine, dairy, and horses exhibited at the Colfax County Fair. Remember that parents should assist in herdsmanship only when absolutely necessary.

Prizes will be awarded for well kept, attractive and educational livestock quarters. Clubs will be judged as a unit in each department on the following basis:

All exhibitors in Beef, Dairy, Goat, Sheep, and Swine Departments are eligible to compete in a Showmanship Contest. Skill as a showman and the appearance the animal makes before the judge are important considerations, not individual excellence of the animal.

Animals shown for showmanship must be shown in another class. Exhibitors cannot bring an animal just for showmanship. Animals must be identified on the 4-H I.D. affidavit to be shown in showmanship. An individual animal can only be shown once in showmanship.

All contestants in the Showmanship Contest will be placed in ribbon groupings and will receive that ribbon. The first four places only in each contest will receive prize money. Three showmanship contests will be held in the departments:

- Senior Division, Ages 14-18 before Jan. 1, 2024
- Intermediate Division, Ages 11-13 before Jan. 1, 2024

**PATTY DOSTAL MEMORIAL
ROUND ROBIN SHOWMANSHIP CONTEST**

This contest will be held on Saturday after the Swine show in the livestock arena. The Senior Showmanship contestants will qualify for the contest by winning showmanship in 4-H or FFA in the Beef, Swine, Sheep or Dairy areas. If an exhibitor wins more than one showmanship award he or she will then select which species and organization he or she will represent. The vacated spot will then be filled by the next place showman from that species and organization.

For Example:

If the Senior Champion Showman in FFA Beef also wins the Senior Champion Showman in 4-H Sheep, the exhibitor may choose which area they would like to show in. If an exhibitor chooses FFA Beef, the Senior Reserve Champion Showman in the 4-H Sheep will be eligible to participate in the contest, in place of the Champion Showman.

The contest will have 8 participants. The contestants will bring their winning animals to the ring. All of the contestants will then show each species including their own. A 4-H or FFA Alumni will serve as a judge for each species. Questions will be asked about each species and the judge will evaluate the showman's skill in that species. The results will be combined and a Champion Round Robin Showman and Reserve will be named.

Prizes:

The Champion and Reserve Round Robin Showman will receive a director's chair, or another similar prize.

Item would not be refinished or repainted but reconditioned to restore it to its original look or to prevent it from further damage as a valuable heirloom. Consult extension publication Care and Conservation of Heirloom Textiles for information on textiles. This publication can be found in the Digital Commons at: <https://go.unl.edu/gcnh> (Refinished items go in classes 2-3.) This class is for situations where it may be best to do very little to the item to maintain its antique value. Item or article should be of complexity suited to an advanced project. SF

DEPARTMENT C, DIVISION 262 — YARD ART
Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

This class is open to anyone enrolled in a home environment project. Examples of yard art are stepping stones, mailbox, gourds, furniture. Exhibits are to be used outside, not in the house.

CLASS 1 - Yard Art

DEPARTMENT C — VISUAL ARTS

All Visual Arts exhibits will be judged on Tuesday, July 16. Visual Arts exhibits must be entered between 9:00 a.m. - 1:00 p.m. Entries will not be accepted after 1:00 p.m.

Items must be the original work of the 4-H member and should show creativity and originality. No copyrighted images or master studies.

Ready for Professional Display — All exhibits must be presented appropriately for the medium(s) used and ready to be professionally displayed. 2-dimensional pieces on paper should be framed behind glass/plexiglass. Canvas boards should be framed but glass/plexiglass is not necessary. Stretched canvases do not need frames as long as staples are not visible on the edges. All 2-dimensional pieces should be ready to hang using a sawtooth or wire hanger.

4-H members may enter one exhibit per class. In addition to the entry tag, a label with the exhibitor's name and county should be attached to each separate piece of the exhibit in the event the entry tag becomes separated from the exhibit. SF indicates that this exhibit may be eligible for State Fair competition.

All wall hangings and framed exhibits must include a means for hanging. MAKE SURE HANGERS ARE STRONG ENOUGH TO SUPPORT THE ITEM!! Items not ready for display will be dropped one ribbon placing.

SUPPORTING INFORMATION — Supporting information is required for ALL Visual Arts exhibits. Information must include responses to all questions and steps taken to complete the project. Supporting information must be securely attached to the back of the piece. Supporting information tag templates can be found at <https://colfax.unl.edu/>. Exhibits with missing or incomplete supporting information will be dropped a ribbon placing.

Exhibits must be entered in the appropriate class based on the medium(s) used or theme. Supporting information may provide evidence or justification for the piece being entered in a specific class.

NEW IN 2024: Exhibits may utilize any medium or combination of mediums on any surface. All exhibits must be appropriately presented and ready to be professionally displayed. Artwork should depict the artist's own interpretation of the theme. All exhibits should include an explanation of how the piece reflects the theme and what ideas or thoughts the artist was attempting to express or communicate.

PLANT SCIENCE

DEPARTMENT D — FORESTRY

The official reference for all forestry projects is Tree Identification Manual (4-H 332). Other helpful forestry references include Trees of Nebraska (EC 92-1774-X) and Leafing Out (4H-431).

Display “boards” must be made from wood or wood composite e.g. plywood, fiberboard, or masonite, 1/4 inch to 1/2 inch thick and no larger than 24 inches x 24 inches. Display boards may be coated e.g. painted or varnished on both sides to prevent warping.

Display “posters” must be made from a material, e.g. foam board or poster board, that will stand upright without buckling, and be no larger than 24 inches x 24 inches.

Display “books” must measure no more than 16 inches x 16 inches.

At least 5 of the 10 samples in Classes 2, 3, 4, and 5 must be from the list of 60 species described in 4-H 332. Samples must be from 10 different tree species. For example, Emerald Queen Maple and Crimson King Maple are both varieties of the same species (Norway Maple), and thus have the same genus and species name, i.e. *Acer platanoides*. All samples must be from trees. NO shrubs. If more than 10 samples are included in a display, only the first 10 samples from the current year will be judged.

Due to emerald ash borer infestation, no true ash species (Green Ash, White Ash, Black Ash, or Blue Ash) may be included in any collections. Inclusion of a true ash species will result of the project being disqualified.

Remember that other general labeling standards apply. For example, scientific names are always italicized or underlined. Also, the first letter of a Genus name is always capitalized. The first letter of a species name is always lower case. When required, always indicate complete scientific names (Genus and species) and common names, (e.g. Norway Maple) even when “variety names” are included. For example, the scientific name of Emerald Queen Maple is *Acer platanoides* and the common name is Norway maple. “Emerald Queen” may be included as the variety name, but variety names are not required.

DEPARTMENT D, DIVISION 320 — FORESTRY

Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

CLASS 1 - Design Your Own Exhibit — Prepare an educational exhibit about some aspect of trees, forests, or forestry that is of special interest to you. Possible topics include paper recycling, wildfire, forest products, forest wildlife, or forest pests. The only requirement is that the display must be no larger than 24 inches by 24 inches by 24 inches. Photographs, drawings, samples, charts, posters, etc. can be used, but include enough information to adequately explain the topic. Your display should be substantially different from other display classes. Be as creative as you like. SF

CLASS 2 - Leaf Display — The leaf display must include samples of “complete leaves” from at least 10 different tree species. The display must include at least two samples of simple leaves, compound leaves, and conifer leaves. Leaves should be pressed, dried and mounted. SF

Collection: Whenever possible, collect leaves from mature trees. Collect leaves any time after they have reached full size, usually beginning in early summer. Leaf samples should be in good condition and representative of the average leaves on the tree. Keep in mind that shaded leaves are often much larger than normal. Carefully remove leaves from the twig with the entire petiole or rachis intact. After collection, fresh leaf samples can be temporarily stored within the pages of an old magazine, but they should be properly pressed and dried for display. Be sure to record pertinent information during collection. All collection must be done by the exhibitor.

Mounting: Leaves may be displayed in a notebook or on a display board. Any method may be used to mount the leaves, e.g. wire, glue, tape, staples, plastic bags, but be sure all their features can be clearly identified.

Labeling: The label for each sample must include: 1) common name, 2) scientific name, 3) leaf type, 4) leaf arrangement (for broadleaf trees) 5) leaf composition (for broadleaf trees), 6) collector’s name, 7) collection date, 8) collection location (be specific, including county, state and other relevant information).

If a twig is included with a sample, indicate “twig included” on the label. For example, the twig may be included with an eastern red cedar sample because the leaves are very small and difficult to remove from the twig.

Supplemental information, e.g. general uses, common products, fall color, etc. may be included with the display to enhance its educational value.

CLASS 3 - Twig Display — The twig display must include twig samples from at least 10 different tree species. The display must include at least two samples of opposite and alternate leaf arrangements from broadleaf trees. SF

Collection: Twig samples should be collected during the dormant season (November-April) when the buds are mature. Twig samples must be at least 6 inches long and exhibit buds. Leaves must be removed and side branches must be trimmed to less than 1 inch in length. All collection must be done by the exhibitor.

Mounting: Twigs must be mounted on a display board. Any method, e.g. wire, glue, tape, staples, plastic bags, etc., may be used to mount twigs, but be sure all features can be clearly identified. The non-terminal end must be cut at a slant so the pith can be seen.

Labeling: The label for each sample must include: 1) common name, 2) scientific name, 3) leaf arrangement (for broadleaf trees), 4) collector's name, 5) collection date, 6) collection location (be specific, including county, state and other relevant information).

Supplemental information, e.g. general uses, tree characteristics, etc., may be included with the display to enhance its educational value.

CLASS 4 - Seed Display — The seed display must include seed samples from at least 10 different tree species. SF

Collection: Tree seeds should be collected at the time of year when they mature, which varies widely depending upon tree species. For example, Silver maple seeds mature in May while red oak acorns do not mature until September. Seed samples should be free of insect or disease symptoms. Remember to display seeds not fruit. For example, the seed of honeylocust is enclosed in a pod. Remove and display the seed, not just the pod. It is acceptable to display the fruit with the seed, but clearly label each. All collection must be done by the exhibitor.

Mounting: Seeds may be displayed in a variety of ways, e.g. mounted on a display board, displayed in jars in a rack, etc. but they must be securely mounted and easily viewed. Be as creative as you like.

Labeling: The label for each sample must include: 1) common name, 2) scientific name, 3) type of fruit, if known (e.g. samara, pod, nut, legume, etc.), 4) collector's name, 5) collection date, 6) collection location (be specific, including county, state and other relevant information).

Supplemental information, e.g. maturity date, average number of seed in the fruit, etc., may be included with the display to enhance its educational value.

CLASS 5 - Wood Display — The wood display must include wood samples from at least 10 different tree species. SF

Preparation: Samples may be of any shape, e.g. sections from a board, wood cylinders turned on a lathe, horizontal or vertical cross sections of a small log with bark attached, etc., but all samples should be the same shape, e.g. all wood cylinders or all sections of a board. Each sample can be no larger than 4 inches by 4 inches by 4 inches. Cut surfaces should be sanded to show the grain. Treating samples with a clear finish (no stain) is optional. All collection must be done by the exhibitor.

Mounting: Samples may be displayed in a variety of ways, e.g. mounted on a display board, displayed in a box or rack, etc. but they must be securely mounted and easily viewed. Be as creative as you like.

Labeling: The label for each sample must include: 1) common name, 2) scientific name, 3) wood type (softwood or hardwood), 4) collector's name, 5) collection date, 6) collection location (be specific, including county, state and other relevant information).

Supplemental information: e.g. common products, wood density, etc., may be included with the display to enhance its educational value.

CLASS 6 - Cross Section Display — A disc cut from a tree species listed in 4H 332. The sample must be collected, by the exhibitor, within one year of the state fair judging day (August 21, 2024). The disc must measure 6 to 12 inches in diameter and 1 to 3 inches thick. The bark should be firmly attached, which may be difficult if the tree was dead when the disc was cut. Sand at least one side of the disc so the grain can be easily seen. If the disc is treated with a clear finish, both sides must be treated to minimize warping. As the disc dries, some cracking or checking can be expected and is allowed. SF

Labeling: The following parts must be clearly and accurately labeled on the cross section with pins, paper tags, or some other form of identification: a) pith, b) heartwood, c) sapwood, d) one growth ring (beginning and end), e) cambium, f) bark. A separate label attached to the back of the disc must include: 1) common name, 2) scientific name, 3) tree classification (softwood or hardwood), 4) age (of the cross section), 5) collector's name, 6) collection date, 7) collection location (be specific, including county, state and other relevant information).

CLASS 7 - Parts of a Tree — This project is only for ages 8-11. Prepare a poster, no larger than 24 inches x 24 inches that clearly identifies the main external parts of any tree: a) trunk, b) crown, c) roots, d) leaves, e) flowers, f) fruit, g) buds, h) bark. Identifying other internal parts, e.g. phloem, xylem, cambium, annual ring, pith, etc. is optional. Attach a separate label on the back of the poster that includes the exhibitor's name and age. SF

CLASS 8 - Living Tree Display — Display a living tree seedling grown by the exhibitor from seed in the display container. The seed must be from a species listed in 4H 332. The seedling must be 60 days to 1 year old on state fair judging day (August 21, 2024). The display container must contain at least 8 inches of soil (potting mix or suitable natural soil), have drainage hole(s), and a drain pan to catch drainage water. SF

Labeling: A waterproof label must be attached and include: 1) common name, 2) scientific name 3) seed treatments (if any) 4) planting date 5) emergence date, 6) collector's name.

Supplemental information about the tree: e.g. where the seed was collected, growth measurements, uses for that species, etc. may be included in an attached notebook, poster, etc. to enhance educational value. Supplemental information will be an important factor in judging.

CLASS 9 - Forest Product Display — Prepare a visual display and/or collection tracing the origin of one non-lumber product that comes from trees and/or forests. The display must be no larger than 24 inches x 22 inches x 28 inches. Photographs, drawings, samples, charts, posters, etc. can be used. Posters submitted may be no larger than 22 inches x 28 inches and may be either vertical or horizontal. The contestant must identify what species of tree the product is derived from and where the product is harvested, grown, or otherwise collected. The product listed must be partially or fully derived from trees; if partial the approximate percentage should be articulated in the display. SF

- 1) The goal of this exhibit is for students to learn that many products come from trees and forests and to explore one of these products through in-depth study.
- 2) Information about the tree or forest product; e.g. information about harvesting, processing, industry information, and environmental or other benefits may be included to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.
- 3) Personal interviews with industry professionals are encouraged as a source of information.

CLASS 10 - Forest Health Display — Prepare a visual display outlining a specific forest health issue such as a tree disease, insect pest, animal or human caused damage, or an abiotic issue such as weather damage. The display must be no larger than 24 inches x 24 inches x 24 inches. Original photographs, drawings, samples, charts, posters, etc. can be used. Actual specimens are strongly encouraged but must be properly preserved, i.e. insects pinned or placed in vials of alcohol, leaves pressed and dried. Posters submitted may be no larger than 24 inches x 24 inches. SF

- 1) Explain through the display what species of trees the health issue affects, diagnostic features of the issue (symptoms in trees, identifying features of the pest, etc.), and management options.
- 2) Include common and scientific names of trees and pests.
- 3) Supplemental information about the tree or forest health issue: e.g. origin, proliferation in Nebraska/United States, and physiological effects on the tree may be included to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.
- 4) Attach a separate label on the back of the display that includes the exhibitor's name and age.

CLASS 11 - Wildlife Prevention Poster — Prepare a poster, no larger than 24 inches x 24 inches that promotes wildfire prevention strategies. Strategies articulated in the poster can include personal and/or land management actions. Attach a separate label on the back of the poster that includes the exhibitor's name and age. SF

Supplemental information about wildfire prevention should be attached to the poster: e.g. frequency of wildfires in Nebraska/United States, financial costs of wildfires, environmental factors that contribute to wildfires, etc. to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.

CLASS 12 - Sustainable Landscape Diorama — Box must be no larger than 24 inches x 24 inches. The exhibit must show a Nebraska landscape that includes elements such as windbreaks, fields, pastureland, CRP, public lands, community/municipal landscapes. The goal of this exhibit is for students to articulate conservation and sustainability best-practices that can be implemented on a landscape, while addressing landowner and other stakeholder interests. SF

- 1) Label point/nonpoint sources of pollution, carbon sequestration, water-wise practices, wildfire prevention strategies, renewable energy sources, and other conservation practices as well as at least 10 species of plants included in the diorama.
- 2) Attach to the exhibit a brief report including supplemental information describing the diorama, defining conservation practices, and outlining opportunities for landscape improvements to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.

CLASS 13 - Tree Planting Project Display — Plant a tree in your community. Prepare a visual display where the student articulates proper tree planting techniques, why the individual tree species was chosen, as well as steps taken to continue care for the tree after initial planting. The display must be no larger than 24 inches x 24 inches x 24 inches. Photographs, drawings, samples, charts, posters, etc. can be used. Posters submitted may be no larger than 24 inches x 24 inches. The tree must have been planted 60 days to 1 year before State Fair judging day. Students must obtain permission from necessary authorities and property owners before planting any trees. SF

- 2) Supplemental information about the tree: e.g. why the species was chosen, growth measurements, uses for that species, etc., may be included in an attached notebook, poster, etc. to enhance educational value. Supplemental information will be an important factor in judging but should not exceed three printed pages of text. Cite sources of information.

CLASS 14 - Educational Exhibit — prepare an educational exhibit informing the viewer about trees or forests. Exhibitors may use whatever means is most effective to show their key points. Photographs, drawings, samples, charts, posters, etc., may be used. The display should fit into an area no larger than 24 inches x 24 inches x 24 inches. Enough information should be included to adequately explain the exhibit to the viewer. Be creative!

DEPARTMENT G — AGRONOMY

DEPARTMENT G, DIVISION 750 — FIELD CROPS

Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

The purpose of these exhibits is to demonstrate to the public the benefits from the study and application of crop, weed, range and soil sciences to solving problems in management, conservation, sustainability and environmental protection. For guidelines on specific projects, refer to appropriate project manuals.

Individuals in the crop production, field crops project may exhibit grain or plants or prepare an educational display representing their project.

Grain or Plant Exhibits (Classes 1-5): A completed Crop Production Worksheet (available at: <https://cropwatch.unl.edu/Youth/Documents/Crop%20Production%20Project%20Worksheet%20Final.pdf>) must accompany grain and plant exhibits or it will automatically be deducted one ribbon placing. The worksheet must include the exhibitors name, address, county, plant hybrid or variety, plant population, whether crop production was irrigated or dryland, and general information including farm cropping history, soil type and weather effects. **The worksheet also must include an economic analysis of the project, listing individual expenses and income, on a per acre basis.** Other topics to discuss are the selection of variety or hybrid, impacts of tillage and conservation practices, inputs (fuel, fertilizer, irrigation, labor, pesticides, etc), any observations made during the growing season, and what you learned from your crops project. The worksheet counts as 50% of the total when judged. Worksheet must be the original work of the individual exhibitor or it will be deducted one ribbon placing. Attach the worksheet to the entry in a clear plastic cover such that it can be read without removing it from the cover. In addition to the worksheet, grain and plant exhibits will be judged on condition, appearance (i.e. disease and insect damage, grain fill), uniformity (size, shape, color, maturity), and quality of exhibit.

Grain exhibits must be one gallon per sample. Grain exhibits harvested in the fall (e.g. corn or soybeans) may be from the previous year's project and brought in an appropriate sized box/container for display. **NEW:** Place in a clear container so it can be viewed and displayed.

Plant exhibits, with the exception of ears of corn, must be the result of the current year's project.

SF

SPECIAL AGRONOMY PROJECT

Youth experience a crop that is grown, was grown or has the potential to be grown in Nebraska by growing it, researching traits of that crop and determining the viability of that crop in the part of the state they live.

Each year information is sent out via newsletter and email introducing the selected seed for the year. The Extension Office distributes the seeds to youth that have contacted the office before the ordering deadline. A different seed will be selected every year. The crop of the year for 2024 is Sugar Beets.

Youth will grow seeds in their garden or pots. Written resources materials will be available for youth, in addition to virtual, live or recorded videos/field trips. Youth will be eligible to enter an exhibit at fair in the agronomy project area.

CLASS 11 - Special Agronomy Project — Educational Exhibit — Educational exhibit based on what was learned from the project. Present information on a poster 14 inches x 22 inches either vertical or horizontal arrangement or in a clear plastic report cover. The 4-H member's name, age, and county must be on the back of the poster or report cover. Each display must have a one-page essay (minimum) explaining why the exhibitor chose the area of display and what they learned from their project. Include any references used. SF

CLASS 12 - Special Agronomy Project — Video Presentation — 4-H exhibitor designs a multimedia presentation related to the crop. This could include narration of the growing process, presenting facts about the crop or any other innovative multimedia practices. The presentation should be at least 2 minutes in length and no more than 5 minutes in length, appropriate graphics, sound and either a video clip, animation or voice over and/or original video clip. CLASS 13 - Special Agronomy Project (Freshly Harvested Crop) Plant exhibits must be the result of the current year's project. Depending on the type of crop selected for the current year. SF

- Corn — 10 ears or 3 stalks (cut at ground level with no roots or soil and bound together)
- Grain Sorghum — 4 stalks (cut at ground level and bound together)
- Soybeans — 6 stalks (cut at ground level and bound together)
- Small grains (oats, barley, wheat, triticale) — sheaf of heads 2 inches in diameter at top tie with stems about 24 inches long.
- Other Crops (alfalfa, millet, etc.) — sheaf of stems 3 inches in diameter at top tied with stems cut at ground level.

Supporting documentation (1/2 to 1-page in length) should include the following:

- Economic Analysis and/or research that supports feasibility of this crop in Nebraska or how the crop has evolved over time.
- Other topics to discuss are past/current commercial production of this crop. This includes: the selection of variety or hybrid, impacts of tillage and conservation practices, inputs (fuel, fertilizer, irrigation, labor, pesticides, etc.), any observations made during the growing season about this crop and what you learned from your crops project. This 1/2 to 1-page summary counts as 50% of the total when judged.

- In addition to the summary, grain and plant exhibits will be judged on condition, appearance (i.e. disease and insect damage, grain fill), uniformity (size, shape, color, maturity), and quality of exhibit.

CLASS 14 - Largest Corn Ear — Display one corn ear either from previous year's crop or current crop. Ear will be judged for total number of kernels. Not eligible for State Fair. No essay needs to be included. Please include a 3 inches x 5 inches card indicating exhibitors name, address and hybrid.

CLASS 15 - Farm to Table — The exhibit will include a grain plus a baked product using that type of grain. For example, if oats are the grain, then the baked product might be oatmeal muffins. The exhibit should include: 1) One quart of grain, 2) baked product using the type of grain in display (e.g. 3/4 loaf of bread, 4 muffins), 3) recipe, and 4) 1 page or less essay about the grain and the baked product. Include info such as how the grain is produced, why you chose the grain or the baked product, etc.

DEPARTMENT G, DIVISION 751 — WEED SCIENCE (WEEDS & GRASSES)

Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

Any individual in the Conservation, Environment 1, 2, or 3, Reading the Range 1, Using Nebraska Range 2, Crop Production, or Field Crops projects may exhibit a weed book or weed display. At least 15 of the specimens must represent this year's work. For assistance identifying plants, participants can use the Nebraska Department of Agriculture's Weeds of Nebraska and the Great Plains (1994) or Weeds of the Great Plains (2003).

Exhibits will be judged based on completeness of plant mount, accuracy of identification, label, neatness, and conformity to exhibit requirements.

Guidelines for books (Classes 1-2): Plants must be mounted on sheets that are no larger than 14 inches wide by 14 inches high. Proper plant mount should include root as well as stem and leaf tissue. Plants should be glued rather than taped and the mounts should be protected with a clear cover. Each completed mount must have the following information in the lower right corner of the mounting sheet: 1) scientific name (in italic or underlined), with authority, 2) common name, 3) county of collection, 4) collection date, 5) collector's name, 6) Personal collection number, indicating the order that plants were collected, in your personal collection. 7) other information depending on class selected, i.e. noxious, life form. This information should be typed or printed very neatly.

CLASS 1 - Weed Identification Book — A collection of a minimum of 15 plant mounts including at least two of the following prohibited noxious weeds (Canada thistle, musk thistle, plumeless thistle, salt cedar, leafy spurge, purple loosestrife, diffuse knapweed, spotted knapweed, Japanese knotweed, bohemian knotweed, giant knotweed, sericea lespedeza or phragmites), and at least three weeds that are a problem primarily in lawns. SF

CLASS 2 - Life Span Book — A collection of 7 perennials, 1 biennial, and 7 annual weeds. SF

Guidelines for all Displays (Class 3): The purpose of the display is to tell an educational story to those that view the display. The display is a visual representation (pictures, charts, graphs) no larger than 28 inches by 28 inches on plywood or poster board. The display should be neatly titled. Make sure to label display with exhibitor's name, address, and county on back side. Explain pictures and graphs clearly and concisely. Each display must have a one-page essay explaining why the exhibitor chose the area of display and what they learned from their project. Include any references used. The essay should be in a clear plastic cover with the exhibitor's name outside.

CLASS 3 - Weed Display — The purpose of this class is to allow original and creative exhibits that contain educational information about weeds, such as interesting information about a weed species, the effects of weed control, herbicide resistant weeds, what makes a weed a weed, or uses for weeds. SF

DEPARTMENT G — FLOWERS & PLANTS

Premiums: Purple \$4.00; Blue \$3.00; Red \$2.50; White \$2.00

The cultivar or variety name must be included on all entry cards. If potted container with several cultivar or varieties identify each individually within the pot. Failure to identify the cultivar or variety will drop the entry one ribbon placing. Proper identification is the responsibility of the exhibitor. Identify the cultivar or variety before you bring your exhibit to fair. Be sure to mark your exhibit with your name (this is separate from the entry tag).

Exhibitors may enter one, or up to a maximum of five different flowers from classes 1-53. One entry per class.

Exhibits entered under an incorrect class number or containing an incorrect number of stems will be dropped one ribbon placing. In classes 23, 45 & 46, do not duplicate entries from the already listed classes or entry will be dropped one ribbon placing. For example, 4-H'ers with two cultivars or varieties of marigolds can only enter the marigold class and cannot enter the other cultivar or variety in any other class.

Cut flowers: All 3 or 5 stems of cut flowers should be the same cultivar and color, do not mix cultivars and colors. Foliage will be considered when exhibit is judged. A perennial is defined as a plant of which the crown overwinters. An annual is a plant that grows from seed each season, whether self-seeded or planted by the gardener. A biennial is a plant that germinates, grows and overwinters as a crown, blooms the following year and dies. Use clear glass containers that won't tip over and of adequate size to display blooms. NO SCREW ON LIDS OR SCREW ON RINGS AND FLATS MAY BE USED. To hold flowers in place it is suggested to use tin foil or a type of plastic wrap with holes poked into it or frog lids. Use paper punch on entry card and then attach entry card to jar with string or rubber band. Each exhibit must also be labeled with name. This labeling should be separate from the entry card.

Cut Flower Annuals and Biennials — 5 stems of a single variety (cultivar) unless otherwise noted in parenthesis.

Follow the guidelines in 4-H "Preparing Cut Flowers for Exhibits" 4H227 (revised 2016) (Free Download - <https://unl.box.com/s/2f3a785c67p7qhqasevp6gu6adf3ugon>) when preparing entries for the fair. Copies are available at the Extension Office.

DEPARTMENT D — CONSERVATION & WILDLIFE

Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

The word "Animal" or "Wildlife" in the following classes includes wild fish, amphibians, reptiles, birds or mammals. Please make sure you are following all wildlife laws. Domestic animal (i.e. domestic livestock or house pets) and insect exhibits are not appropriate for this area. Exhibitor's name, county, age must be on the back or bottom of all displays. For guidelines on specific projects, refer to appropriate project booklets. Displays should be made self-explanatory as possible so that viewers understand the educational points or what the exhibit is all about. All exhibitors **must** show evidence of their personal field experiences, study or observations that relate to their exhibit. This helps judges understand what the 4-H'er did and learned in the process that led to the exhibit. Show proper credit by listing the sources of plans or other supporting information used in exhibits. 4-H'ers enrolled in projects such as Bird Behavior, Fishing for Adventure, Amphibians, Wildlife Conservation, Outdoor Adventure, Exploring your Environment series and Shooting Sports can enter these classes.

Example to attach to your exhibit

Name: Chris Clover
County: Clover County
Age: 10

Field Experience, Study, or Observations:

I attended a 4-H workshop where we put out a food plot, and then made turkey calls. We played a game about attracting turkeys. Sometimes we acted like a female to draw in a tom turkey. Sometimes we acted like a lost baby turkey to call in a whole flock. I was able to use my turkey call and play the game successfully. While I never turkey hunted in person, I went on-line to research more turkey calls. I hope to turkey hunt someday, and I want to use a box call to hunt fall turkeys.

Board and Poster Exhibits — These are displays that show educational information about a topic of interest. Board exhibits can hold objects such as fishing equipment or casts of animal tracks. Mount all board exhibits on 1/4 inches plywood, masonite, or similar panel no larger than 24 inches high by 24 inches wide. Poster exhibits should be on regular poster sheets, no larger than standard size (22 by 28 inches) but half size, 22 by 14 inches, is recommended.

Exhibit Size — Exhibits other than poster/display board should not exceed 48 inches x 48 inches and be able to be moved by two people.

DEPARTMENT D, DIVISION 340 — WILDLIFE AND HOW THEY LIVE

Classes 1-4 are board or poster exhibits. Display may show any aspect of wildlife, wildlife habitat, or related conservation. No domestic livestock, pets, or insects allowed. Examples: life history or other facts about one type of wildlife; how to manage wildlife on a farm or in town; managing habitat for one kind of wildlife; life requirements for one kind of wildlife during one season or through the year; wildlife behavior and habitats. For more ideas, refer to project booklets. Remember to look at General Rules for this area.

CLASS 1 - Mammal Display SF

CLASS 2 - Bird Display SF

CLASS 3 - Fish Display SF

CLASS 4 - Reptile or Amphibian Display SF

CLASS 5 - Wildlife Connections — Board or poster exhibit. The purpose of this display is to show interconnections and related aspects among animals, plants and other habitat components. All displays should show two or more interactions (connections) that occur between/among animals or between animals and their habitat. Displays might show how animals interact with other animals, with people, or with their habitat. Examples: 1) Food chain display. Use pictures, drawings or other items to illustrate the source of food energy and where it goes — who eats whom or what. Use arrows to show the directions of energy (food) flow. 2) Show the role of predators, scavengers, insect eaters, or others in nature. 3) Show how wildlife numbers (populations) change through the year. 4) Show predation, competition, or other behavioral interactions of wildlife. 5) Choose one kind of wildlife and make observations through a season or year, keep notes of interactions, then make a display of what you saw. SF

CLASS 6 - Wildlife Tracks — Board or diorama-type box exhibit. Make a display of animal tracks using plaster-of-paris casts. There are three options. For all options, include a brief description of your experiences in making the tracks so the judge can better understand what you did and learned. Positive casts (impressions as they would be in nature) are preferred. Option 1 should show plaster-of-paris tracks of five or more kinds of wildlife along with a picture or illustration of each kind of animal. OR Option 2 should show two or more plaster-of-paris tracks of one specific kind of wildlife and should include a picture or illustration of the animal, what the animal may eat, and what may eat the animal. OR Option 3 should show two tracks and include the animal's habitat needs including preferred food, shelter, water, and space in addition to picture or illustration of the animal. SF

This also is an opportunity to highlight favorite insects in a creative arrangement. Insects should conform to pinning and mounting standards as in Classes 1-3 and be protected in an insect box. Each specialty display should include names of the insects, interesting information about them, and why the display was made. Advanced identification collections should have insects grouped with labels that correspond with identification level (e.g. family, genus, species). A specialty collection may consist of insects by taxonomic group (e.g. butterflies, grasshoppers, dragonflies, scarab beetles) or by host, subject or habitat (e.g. insect pests of corn, aquatic insects, insect mimicry, insect galls, insects from goldenrod, insect pollinators, etc.). SF

CLASS 5 - Insect Habitats. Habitats consist of any hand-crafted objects, made of natural or artificial materials, to be placed outdoors, which promote or conserve insects in the environment. Insects may include bee pollinators, butterflies, beneficial insects, etc. A one-page report describing activities must accompany the exhibit. Report should include placement, target insect, why materials were chosen, functional design, and indicators of success. See the following resources for reports: SF

It then should have a basic introduction of the insect studied, methods used, observations, and results of the project. Tables, graphs and images are helpful to include. A journal is an observational study over a period of time with personal impressions. It may cover watching changes in kinds of butterflies over the summer, rearing a specific insect from egg to adult, managing a beehive, observations of insects in a specific habitat, accounts of insect behavior in a forest or flower garden, etc. SF

DEPARTMENT H, DIVISION 840 — VETERINARY SCIENCE
Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

The purpose of the Veterinary Science exhibit is to inform the public about a common health problem of animals, a veterinary science principle or public health/zoonotic diseases. A veterinary science exhibit may consist of a poster, notebook or a display.

If photographs are to be part of the exhibit, remember that they will be viewed by the public. Make sure that the photographs are in good taste and will not be offensive to anyone. Graphic photographs of excessive bleeding, trauma or painful procedures are not appropriate. For exhibits related to veterinary surgical procedures, aseptic techniques need to be shown, for example, use of drapes, use of sterile procedures, wearing of gloves, and other appropriate veterinary medical practices.

First Aid Kits: Because of public safety concerns and risk of theft of first-aid kit contents (veterinary drugs/equipment) with perceived potential for drug abuse, **animal first aid kits containing any drugs or medications will be immediately disqualified and not displayed. First Aid kits wishing to include medication information should instead utilize written descriptions, photographs, drawings, computer generated printouts, or empty packaging or pharmaceuticals.**

Veterinary Science Posters — This exhibit presents the viewer with a design that is simple and direct, unlike a display that usually presents more information. A poster should not exceed 22 inches x 28 inches and may be either vertical or horizontal.

Veterinary Science Displays — A display may include but is not limited to a 3-dimensional exhibit, a scale model, the actual product (for example skeleton; teeth; samples of leather, fur, or dried skin damaged by disease or parasites) or a notebook. A display is not a poster. A display may be mounted on poster board not to exceed 22 inches x 28 inches or on 1/4 inches plywood or equivalent that does not exceed 24 inches high or 32 inches wide or in a three ring binder or another bound notebook format.

Appropriate Veterinary Science Topics: Maintaining health, specific disease information, photographic display of normal and abnormal characteristics of animals, animal health or safety, public health or safety, proper animal management to ensure food safety and quality, efficient and safe livestock working facilities, or a topic of the exhibitors choosing related to veterinary medicine or veterinary science.

****Remember, since these are science displays, all references and information needs to be properly cited.** Proper sources include but are not limited to: Professional journals and publications, professional AVMA accredited websites, interviews with Veterinarians and excerpts from Veterinary Educational Literature. Plagiarism will result in a disqualification. Please study your topic and present the information to your audience in your own words.

DEPARTMENT H, DIVISION 850 — STEM ROCKETS (AEROSPACE)
Premiums: Purple, \$4.00; Blue, \$3.00; Red, \$2.50; White, \$2.00

Youth enrolled in STEM Rockets may exhibit in any class within this division.

One entry per class. The name and county of each exhibitor should appear separately on the back of each board, poster or articles and on the front cover of the notebooks so owner of the exhibit may be identified if the entry tag is separated from the exhibit.

General Instructions — Rockets must be supported substantially in order to protect the rocket from breakage. Rockets are to be mounted on a base that has dimensions equal to or less than 12 inches x 12 inches and the base should be 3/4 inch thick (no metal base). If the rocket fins extend beyond the edges of the required base (12 inches x 12 inches), then construct a base that is large enough to protect the fins. The base size is dictated by the size of the rocket fins. The base and rocket should be proportionate. The rocket **MUST BE MOUNTED VERTICALLY**. Please do not attach side boards or backdrops to the display. In addition, a used engine or length of dowel pin is to be glued and/or screwed into the board and extended up into the rockets engine mount to give added stability. Rockets must be equipped as prepared for launching, with wadding and parachute or other recovery system. Rockets entered with "live" engines, wrong base size or sideboards will be **DISQUALIFIED**.

A report, protected in clear plastic cover, must be included describing:

- (1) rocket specification (include original or photo of manufacture packaging stating rocket skill level)
- (2) a flight record for each launching (weather, distance, flight height)
- (3) number of launchings
- (4) flight pictures
- (5) safety (how did you choose your launch site? Document safe launch, preparations and precautions)
- (6) objectives learned and
- (7) conclusions

The flight record should describe the engine used, what rocket did in flight and recovery success. Points will not be deducted for launching, flight or recovery failures described. This includes any damage that may be shown on the rocket.

Complete factory assembled rockets will not be accepted at the State Fair. At County Fair plastic fins can be entered in class 7. Judging is based upon display appearance, rocket appearance, workmanship, design or capabilities for flight, number of times launched and report. Three launches are required to earn the maximum launch points given on the score sheets. Only actual launches count, misfires will not count towards one of the required three launches.

For self-designed rockets only, please include a digital recorded copy of one flight. In the documentation, please include a description of stability testing before the rocket was flown.

The skill level of a project is not determined by number of years in project. Skill level is determined by the level listed on the manufacturing packaging.

4-H rocket project levels are not intended to correspond to National Association of Rocketry model rocket difficulty ratings or levels.

High power rockets (HPR) are similar to model rocketry with differences that include the propulsion power and weight increase of the model. They use motors in ranges over “G” power and/or weigh more than laws and regulations allow for unrestricted model rockets. These rockets are NOT appropriate for 4-H projects and will be disqualified.

Posters can be any size up to 28 inches x 22 inches when ready for display. Example: tri-fold poster boards are not 28 inches x 22 inches when fully open for display.

CLASS 7 - 3D Printing — 3D printing uses plastic or other materials to build a three-dimensional (3D) object for a digital design (including 3D Pen Creation). Youth may use original designs or someone else's they have redesigned in a unique way. Exhibits will be judged based on the motivation and/or problem identified. For example, 3D objects printed as part of the design process for robot or other engineering project. Must include design notebook that addresses the following questions:

- 1) What was the motivation for your design or the problem you were solving with your design?
i.e. Is your item a functional or decorative piece?
- 2) Please include a picture of original design, citation of designer/website OR if design is completely original (you created it using CAD software), then state that it's original. If item was not completely original, indicate what you did to the original design to modify it to better meet the design problem stated in #1 above. If design was modified multiple times, please indicate what change was made with each modification, and what prompted the need for the change. i.e. I printed it and the design was too fragile, so I resliced the print to make thicker external walls, or to have a denser infill.
- 3) Define your process for designing/printing. What software and/or hardware was used (indicate type of 3D printer or if item was created with 3D pen)?
- 4) What materials were selected for your project?
- 5) If your final design has any moving parts, define how you determined appropriate allowance in your design.
- 6) Identify any changes that you would make to improve your design. SF

CLASS 8 - Maker Space/Digital Fabrication — This project is a computer generated project created using a laser cutter, vinyl cutter, heat press or CNC router. 4-H Welding Project Tips and Suggestions

CLASS 1

1. All welds should be made with the same electrode/wire/rod size and number.
2. Welds should be made only on one side of metal so penetration can be judged.
3. Welds should be cleaned with a chipping hammer and wire brush. Apply a coat of light oil (penetrating oil) to the metal to prevent rusting. Wipe off excess oil.
4. It is suggested that all welds be of the same size and thickness as metal. These pieces, referred to as coupons, should be 1.5 to 2 inches wide and 3.5 to 4 inches long. A good way to get this size is to buy a new cold rolled strap iron and cut it to length. The extra width is needed to provide enough metal to absorb the heat from the welding process and prevent the coupons from becoming too hot before the bead is completed. Narrower coupons will become very hot, making an average welder setting too cold at the bead start, just about right in the middle, and too hot at the end. The correct way to weld narrow strips is to make short beads and allow time to cool, however this project requires a full length bead.
5. Stick welding: Suggested coupon thickness - 1/4" inch if using 1/8" inch rod. Suggested rod - AC and DC straight or reverse polarity - first E-7014, second E-6013
6. MIG welding: Suggested coupon thickness - 1/4" inch if using .035 wire and 1/8" inch if using .023 wire
7. Oxy-Acetylene: Suggested coupon thickness - 1/8" inch. Suggested rod - 1/8" inch mild steel rod

CLASS 2

1. It is suggested that all welds be of the same size and thickness of metal. These pieces are referred to as coupons. The welds can be on one coupon that is about 4 inches x 4 inches or on individual coupons that are about 2 inches x 4 inches and 1/4 inch thick. Suggested rods for this class of position welds for AC and DC straight or reverse polarity is, first E-6013, second E-7014 and E-6010 for DC reverse polarity only.
2. Welds should be cleaned with a chipping hammer and wire brush. Apply a coat of light oil (penetrating oil) to the metal to prevent rusting. Wipe off excess oil.

CLASSES 3 & 4

All welds should be cleaned and protected from rust with paint or light oil. Plans are to be complete enough that if they were given to a welding shop, the item could be made without further instructions. Bill of materials should include a cost for all items used including steel, electrodes, paint, wheels, etc.

Exploring Animals

Clover Kid livestock showmanship will happen as part of the species livestock show (e.g. calves during the beef show on Friday). Clover Kid showmanship classes will be the last class of showmanship for each species.

Clover Kids are allowed to exhibit ONE animal of each species. Species include: calf (dairy or beef), sheep, swine, goat, poultry, rabbit, cat and small pet. Clover Kid animal exhibits are to be no more than 350 pounds at time of show. (No dogs can be exhibited.)

Clover Kid animal entries MUST abide by the "Care of Exhibits" and "Livestock/Animal Health Requirements" found in the General and Animal Rules and Regulations and by the "Dress Code" for the species exhibited. Entries must follow rules and requirements of each species division (e.g: cats must be 4 months of age or older.)

Exhibition will consist of judge's discussions with youth based on their knowledge of the care and raising of the animal.

The 4-H Clover Kid Class will be noncompetitive. All exhibitors will receive the same premium (\$1.50) and a participation ribbon.

Animals are not required to be housed on the fairgrounds during the fair, they may just be brought in and taken home on the day of the show. Exhibitors may house their animals at the fairgrounds, but they must notify Extension Staff prior to pre-entry deadline (for stalling purposes). If exhibitors choose to keep their animals at the fairgrounds, they must follow all livestock rules listed under the General Rules of the Colfax County fair book (e.g. animals must stay for the duration of the fair and cannot leave the fairgrounds until 6:00 p.m. on Sunday of the fair.)

Clover Kids showing livestock (classes 31-39) must inform the Superintendent of that species of your intentions to show your animal by 9:00 p.m. on Wednesday, July 17, 2024. Your animals will go home after the show unless other arrangements have been made with the show Superintendent.

Age, size, and temperament of animal projects must be appropriate for the exhibitor's age and size.

There MUST be one adult/teen volunteer (preferable family) present for every Clover Kid member that is handling or exhibiting animals. This applies to ALL animal projects.

Clover Kids must ID and pre-enter all livestock exhibits with the Extension Office. Animal ID sheets and pre-entry sheets can be obtained from Extension Staff.

Clover Kid mentoring program — Clover Kids may purchase their own animals to show at the Colfax County Fair. However, the Clover Kid Mentoring Program is an option for Clover Kids to show an animal without purchasing that animal.

A current Colfax County 4-H Member may share an animal with one Clover Kid throughout the year. In order to show that animal, the Clover Kid must complete the identification process and turn in their own identification sheets by proper due dates.

The goal of this program is for Clover Kids to have an opportunity to learn how to care for their animal before, during and after fair. The Clover Kid should be involved in the animal care process throughout the year and not just the day of the show.

PATTY DOSTAL MEMORIAL ROUND ROBIN SHOWMANSHIP CONTEST

This contest will be held on Saturday afternoon, July 20, following the swine show in the livestock arena. The Senior Showmanship contestants will qualify for the contest by winning showmanship in 4-H or FFA in the beef, swine, sheep, goat or dairy areas. If an exhibitor wins more than one showmanship award he or she will then select which species and organization he or she will represent. The vacated spot will then be filled by the next place showman from that species and organization.

For example:

If the Grand Champion Senior Showman in FFA beef also wins in the 4-H division the exhibitor may choose which area they want to show in. If this scenario happens, the Reserve Champion Senior Showman will receive the next opportunity to represent the specie and division. .

The contest will have 10 participants. The contestants will bring their winning animals to the ring. All of the contestants will then show each species including their own. A 4-H or FFA Alumni and community leaders will serve as a judge for each species. Questions will be asked about each species and the judge will evaluate the showman's skill in that species. The results will be combined and a champion Round Robin Showman and Reserve Champion Round Robin Showman will be named.

Prizes:

The Grand Champion and Reserve Champion will receive prizes from the Patty Dostal family.
