Health Requirements: Health requirements printed in the Nebraska State Fair Book WILL apply. Refer to policy on ringworm and abscesses in front of 4-H section. Visual inspection required before weighing. Lambs should be dry, have all covers removed, and have been sheared within the last two weeks. The committee has the right to reject any lambs that are suspect. A veterinarian can be called and overrule the committee if they feel the health requirements are met.

A club member may enter two breeding sheep and three market lambs. The market lamb show will be divided by weight only.

Age Classification of Breeding Ewes – Ewes born September 1, 2015 or after are classed as lambs. Ewes born between September 1, 2014 and August 31, 2015 will be classed as yearlings. Ewes born prior to September 1, 2014 are ineligible to show. All ewe lambs must have all lamb or temporary teeth present; yearling ewes can have yearling teeth but cannot have two-year old teeth up. Ewes exhibiting two-year old teeth will be allowed to show, but will not be eligible to compete for champion. Classes may be divided at discretion of show management.

Sheep shown in breeding classes must be registered with the breed association by entry date and have flock tag, or tattoo and registration tag (if required by breed association) and be in the animal's ear at check-in. 4-H ear tags are not official identification for registered breeding ewes. Registration papers should be available upon request. Registration must be completed by fair date.

Commercial ewes must have official commercial 4-H breeding sheep ear tag in the ear. Tag number must be on the ID affidavit and be in the animal's ear at check-in.

USA Official Identification: All ewes and ewe lambs (market and breeding) must be individually identified with USDA Official ID tag in place (part of scrapie eradication program). This is in addition to 4-H identification.
