What is the purpose of my job?

- Help Nebraskans develop strategies and skills to manage water more efficiently to assure there is water for future generations
- Improve profitability and sustainability of local cropping systems
- Reduce environmental risk and improve resource stewardship
- Enhance resiliency of cropping systems to extreme weather events

Helping you find local answers to...

- Irrigation Management through
 - Soil Water Sensor Use
 - Irrigation Apps for Smartphones and Tablets
 - Weekly Evapotranspiration
- Herbicide Resistance
- Cash rent & custom rates
- Comparing two products or practices on your farm

Helping Nebraskans enhance their lives through research-based education
