

ANIMAL SCIENCE DEPARTMENT G

SWINE

Quality Assurance required. Please see general 4-H rules on page 4

An exhibitor is allowed a total of three head of swine. This number must be a mixture of barrows and gilts. Entry must consist of two of one sex and one of another. Example two barrows and one gilt or two gilts and one barrow

☞ If a 4-H member is also an FFA member then he/she is allowed to bring four head of swine, but not more than three animals per organization. Example: two FFA hogs and two 4-H hogs OR three 4-H hogs and one FFA hog.

☞ FFA members and 4-H members will show together to form a youth show.

Market swine will be split into barrow and gilt classes. The classes will be divided according to weight by the swine committee, so a reasonable number of animals will be shown at one time.

Overweight class - hogs weighing ore than 320 lbs. (No purples awarded and no champion selected from this class.)

A Champion and Reserve Barrow and Gilt will be selected - NO over all champion. The Champion and Reserve Champion of each division will be determined by the official judge.

The animals of at least two exhibitors must be represented in the Club Pen of Three Class. Contestants must show their own livestock.

Our county fair will comply with the Nebraska Pseudorabies regulations.

☞ There will be NO SPF Scanning. Swine Show will not be a terminal show. 4-H members are responsible for disposition of their hogs following the show.
