As a livestock exhibitor, I understand that I have an obligation to be a responsible producer. All market animals will enter the food chain and become edible food products for the consuming public. This subjects every exhibit animal to all state and federal regulations involving proper drug usage and all Food & Drug Administration, Animal Plant Health Inspection Service, Food Safety Inspection Service and Environmental Protection Agency regulations.

**We, the undersigned, certify that:**

- We certify that we have read, and in consideration for being permitted to exhibit at the event, agree and consent to abide by the rules of competition including in the National Code of Show Ring Ethics that is attached to this document and printed in the premium book. We agree to the condition that these entries (identified below) and/or milk from these entries may be screened for violative residues.
- These animals were produced in accordance with applicable USDA and FDA regulations for drug residues and withdrawal periods, are free of drug residues not in compliance with applicable USDA and FDA regulations and have not been supplied drugs in a form or at levels not approved by the USDA and FDA. This means the animals have not received any non-approved drug(s); and that our entries are not within any withdrawal time relative to the administration of any legal drug, vaccine or other substance UNLESS NOTED BELOW.
- That to the best of our knowledge, while under our ownership, possession or direct control, none of the livestock are adulterated within the meaning of the Federal Food, Drug and Cosmetic Act, i.e. none of the cattle or other ruminants have been fed any feed containing ruminant derived meat and bone meal. We certify that we have reviewed the treatment and feed medication records for all exhibit swine and they meet or exceed the suggested withdrawal periods for Japan Maximum residue Levels (RLs) of pharmaceutical products listed on the National Port Board web site.
- We verify that the exhibitor has completed the requirements for Youth Livestock Quality Assurance program for this year.
- We certify that these animals did not originate from a herd under quarantine.

**If violations are detected, we will not challenge the validity of testing or sampling procedures, and we will be subjected to penalties determined by show management.**
