VEGETABLES AND FRUIT EXHIBITORS

Please select your Fair entries according to the standards of fruit and vegetable shows. Select with these five factors in mind.

SIZE: Know the normal size of the variety. Select as near to that size as possible. Oversize is not necessary but is good if you can meet the other factors.

TYPE: Each variety of each species has type characteristics. These characteristics should be evident in each specimen of each entry. Don't mix varieties.

CONDITION: In so far as possible, the exhibit should be in the peak of either edible or storage condition. Any evidence of disease or insect damage reduces the score also.

COLOR: Select according to the color characteristics of the variety.

UNIFORMITY: In exhibits of multiple specimens, uniformity of size, type, condition, and color is very important. It is better to sacrifice on size and color and to achieve uniformity. Be very reluctant to sacrifice condition and never sacrifice type.
