

## How to print PDF documents from online sources, i.e. Animal Affidavits, etc.

1. From the online pdf view, select the “Download” icon.  
This is usually at the upper right of the page.

2. Select “Open with Adobe Acrobat”

Note: Acrobat Reader must be installed on your computer to view and print PDF documents. Select this link if you do not have [Adobe Acrobat Reader](#) and would like to find out how to obtain it.

3. Adjust printer settings, such as portrait/landscape orientation, etc.
4. Print

\* Some pdf documents are fillable. If this is an option and you are to send a copy by email, fill in your information, save as a new document to save the information, and email it as an attachment.

If it is not an option, you will need to print it, fill in your information, and either scan it for email, take a cell phone photo and email, or send the hard copy by regular mail.
