Feb 28-Started our new cohort meeting which is a combination of new and seasoned extension professionals idea sharing. This month's topic was goal setting.

Throughout the last two months I have been working on fair preparations and other programming that is taking place. I worked with the 4-H council to setup the fair schedule and hired all the applicable judges as well as found superintendents. I drafted the 2023 trophy/booster letter for Jean to mail out. I worked on the theme for this year's fair, which is Sweet Summertime. I have been working on the Southern Plains Livestock Judging contest that will be held in Nelson this year as part of the Great Plains Livestock Judging Circuit by setting up registration, contacting producers to provide livestock, and finding judges/helpers for the day.
