

Bubble Fun [lesson guide](#)

The Science of
Bubbles Video https://youtu.be/XxU_QenIO54

Choose to make one of these and save for the fair!

Bubble Painting--Add some liquid tempera to bubble mixture, and hang poster paper on the easel, have the children blow bubbles on to the paper, and watch the design that forms when they pop.

Bubble Page--Cut out a big round circle from white finger-paint paper. Have children use watercolor paints on it so looks like a bubble.

Bubble Pens--Mix a T. of dry tempera paint with 2T. dishwashing liquid and 1/2 cup water. Pour a small amount into a clean glue bottle. Shake the bottle really hard to create bubbles and make designs on paper.
