### Youth to Celebrate National 4-H Week: October 2-8

Every year, National 4-H Week sees millions of youth, parents, volunteers and alumni come together to celebrate the many positive youth development opportunities offered by 4-H. The theme for the 2022 National 4-H Week is “Opportunity for All”. National 4-H week runs from October 2-8, 2022.

With so many children struggling to reach their full potential, 4-H believes that young people, in partnership with adults, can play a key role in creating a more promising and equitable future for youth, families and communities across the country. In 4-H, we believe every child should have an equal opportunity to succeed. We believe every child should have the skills they need to make a difference in the world.

Fillmore and Clay County 4-H will observe National 4-H Week this year by highlighting some of the inspirational 4-H youth in our community who are working tirelessly to support each other and their communities. Check out the fun activities being done on the Fillmore County website at [fillmore.unl.edu](http://fillmore.unl.edu), including a pumpkin decorating contest. Wear a 4-H shirt on Wednesday and post on the Fillmore (<https://www.facebook.com/fillmorecounty4h>) or Clay County (<https://www.facebook.com/UNLClayCounty>) FaceBook pages!

In both Clay and Fillmore Counties one out of two, age-eligible 4-H youth from the community are involved in 4-H. One of the most anticipated events of National 4-H Week every year is the 4-H STEM Challenge, formerly known as National Youth Science Day. Designed by Rutgers University, this year’s 4-H Challenge, “Explorers of the Deep”, focuses on the mysteries and adventures of ocean exploration—with robots! Young people learn how to use science, technology, engineering, and math (STEM) to explore Earth’s Ocean and how it relates to all life on the planet.

The 2022 Challenge helps young people develop observational and critical thinking skills while exploring the interconnected nature between the ocean and humans, regardless of where they live. They will learn about the incredibly complex relationship between Earth’s oceans and the global climate. According to a recent survey, 84 percent of teens would like to be involved with shaping the future of our environment. Explorers of the Deep can help empower young people to innovate and take action to drive positive change.

To learn more about how you can get involved, visit <http://www.4-h.org/>.

### About 4-H

4-H is delivered by Cooperative Extension—a community of more than 100 public universities across the nation that provides experiences where young people learn by doing. For more than 100 years, 4-H has welcomed young people of all beliefs and backgrounds, giving kids a voice to express who they are and how they make their lives and communities better. Through life-changing 4-H programs,

nearly six million kids and teens have taken on critical societal issues, such as addressing community health inequities, engaging in civil discourse, and advocating for equity and inclusion for all.

In 4-H programs, kids, and teens complete hands-on projects in areas like health, science, agriculture and civic engagement in a positive environment where they receive guidance from adult mentors and are encouraged to take on proactive leadership roles. Kids experience 4-H in every county and parish in the country through in-school and after-school programs, school, and community clubs and 4-H camps.

4-H's reach and depth are unmatched, reaching kids in every corner of America – from urban neighborhoods to suburban schoolyards to rural farming communities. Our network of 500,000 volunteers and 3,500 4-H professionals provide caring and supportive mentoring to all 6 million 4-H'ers, helping them grow into true leaders today and in life.
