Youth Crop Scouting Competition - Connecting Youth with Crops

Looking for a fun club project? Want to unite your club members? Running out of ideas for club meetings? If you answered, “yes” to any of these questions, help is on the way! Nebraska Extension is pleased to present the 6th annual Crop Scouting Competition for Nebraska youth. Youth interested in crops have the opportunity to learn about crop growth & development and basic crop scouting principles.

Don't know a lot about crops? Ask a local agronomist to assist by providing a short lesson on crop production. You can have the agronomist meet with youth a little during each meeting or outside of the meeting. This is one way to engage those youth interested in crops.

This contest will be held at the ARDC near Mead, Nebraska on July 23, 2019. The event will include both indoor and outdoor events. Teams of junior high and high school students (those completing 5-12th grades) from across Nebraska are invited to participate. This event is limited to the first ten teams who sign-up!

Clubs or other organizations may enter a team composed of three to five participants. An adult team leader must accompany each team of students. Team leaders could be FFA advisors, crop consultants, extension staff, coop employees, etc.

Top-scoring teams win prizes: \$500 for first, \$250 for second, \$100 for third place. Top two teams will be eligible for regional competition in August at Iowa this year.

Teams will be expected to know the basics of scouting corn and soybean fields. This includes crop staging; looking for patterns of crop injury; disease, insect and weed seedling identification; etc. Other topics many include but are not limited to, pesticide safety, nutrient disorders, and herbicide injury.

More information about the crop scouting competition and instructions on how to register a team are available online at cropwatch.unl.edu/youth. Register at: go.unl.edu/cropscoutingregistration.

Teams must be registered by July 18. This program is sponsored by Nebraska Independent Crop Consultant Association, DuPont Pioneer, Farm Credit Services of America and Nebraska Extension.

Lawn & Garden Tips

Some of the most frequent calls we receive in our office is lawn and garden questions. Nebraska Extension horticulturist, Nicole Stoner will be in the area with the program, “Lawn & Garden Tips”. This class will discuss water use in your lawn, problems that develop from improper irrigation and diseases found in lawns and vegetable gardens. The course will be in Geneva at the Fillmore County Extension Office on Wednesday, June 5th from 6-7:30 p.m. with a \$5.00 which includes light refreshments. Preregister ASAP to 402-759-3712 or brandy.vandewalle@unl.edu.
