**3** Pick up State Fair Static Exhibit, Ext Off.

After 1:00pm

**10-12** Husker Harvest Days

**Sept 27-29** Aksarben 4-H Stock Show Grand Island

#### School Enrichment-

At the beginning of the school year in September I taught the hot house detectives lesson for the Exeter-Milligan 2<sup>nd</sup> grade. Students learned what it took for a seed to grow into a plant and we made seed necklaces.

The Fillmore Central 3<sup>rd</sup> grade participated in the on your own and ok lesson. We learned about strategies and situations that youth come encounter when they are home and alone.

Ag Venture Day also happened in September. I taught a lesson called commodity carnival. Youth learned about everything it takes to raise a steer and how much it costs. Also they learned about how farmer and ranchers always take a risk when it comes to marketing their animals.

Water Jamboree took place near Lawrence this year, it is an event put on by our local NRD. Brandy and I team taught over 400 youth about water energy and water turbines.

#### 4-H-

We wrapped up county fair items and revved up for the Nebraska State Fair. We transported static items to the state fair, and I helped in the agronomy and range area attaching ribbons to projects, and keeping the judges organized. Also at state fair I helped hand out ribbons and record placings for the 4-H breeding beef show. Also I helped in the show ring with the meat goat show for showmanship, breeding, and market goats.
