- 1 Enrollment Deadline

Professional Development-

Participated in Extension Assistant zoom conference call where constructing small professional development circles were being discussed. Fillmore/Clay county held an open house and leaders training at the extension office. At the training program updates were discussed as well as some professional development working with the essential elements was provided. Had a short meeting discussing Summer Reading Program with the Fillmore County Librarians. I participated in the Southeast/Metro Leadership Circle with other assistance discussing professional development. Participated in the Trust Edge training where we focused on creating trust in Extension, in our offices, and in our personal lives.

School Enrichment-

How did that get in my lunch box in the Shickley Kindergarten classroom was a huge hit! We discussed how several agricultural products got into their lunch box from the farm/field to the plate. Then we did an activity and discussed the different products from a cheese burger with assistance from the poem “The Old Lady Who Swallow a Pickle”. Husker Mobile Beef lab went to the Lincoln Science Fair, the steer was visited by over 400 people who learned about the steer’s digestive system and viewed the window into his stomach.

4-H-

I have been meeting with the animal science 101 group of youth. We have met twice so far and have discussed livestock equipment, parts of the animal, started discussing livestock judging.
