### **FRONTIER COUNTY 4-H LIVESTOCK SHOW ETHICS AFFIDAVIT AND STATEMENT OF DISCLOSURE**

As a livestock exhibitor, I understand that I have an obligation to be a responsible producer. All market animals will enter the food chain and become edible food products for the consuming public. This subjects every exhibit animal to all state and federal regulations involving proper drug usage and all Food & Drug Administration, Animal Plant Health Inspection Service, Food Safety Inspection Service and Environmental Protection Agency regulations.

We, the undersigned, certify that

- We have read, and in consideration for being permitted to exhibit at the event, agree and consent to abide by the rules of competition including the National Code of Show Ring Ethics. We agree to the condition that these entries (identified below) and/or the milk from these entries may be screened for volatile residues.
- These animals were produced in accordance with applicable USDA and FDA regulations for drug residues and withdrawal periods, are free of drug residues not in compliance with applicable USDA and FDA regulations, and have not been supplied drugs in a form or at levels not approved by the FDA and USDA. This means the animals have not received any non-approved drug(s); and that our entries are not within any withdrawal time relative to the administration of any legal drug, vaccine, or other substance UNLESS NOTED BELOW.
- That to the best of our knowledge, while under our ownership, possession or direct control, none of the livestock are adulterated within the meaning of the Federal Food, Drug and Cosmetic Act, i.e. none of the cattle or other ruminants have been fed any feed containing ruminant derived meat and bone meal.
- We certify these animals did not originate from a herd under quarantine.
- We certify that these animals were born and raised exclusively in the United States.
- That we have completed the requirements for a Food Animal Quality Assurance program or test for this year.

**If violations are detected, we will not challenge the validity of testing or sampling procedures, and we will be subjected to penalties determined by show management.**
