BIRD IDENTIFICATION

Download the free
Merlin Bird ID app on a
mobile device and have
fun identifying birds in
your yard and
community!

Learn about birds and their habitat!

Bird Watching Tips for Beginners

1. Find a good spot and wait for the birds to come to you. Be patient.
2. Be quiet. Birds are easily startled by loud noises.
3. Avoid sudden movements.
4. Birds are often hard to spot, but easy to hear. Close your eyes and listen!
5. Get the sun at your back. It will make it easier to see birds, take photos, and identify them.
