

## Barf Bucket Training for Child Care Facilities

It is important to clean up bodily fluids safely to avoid spreading illnesses, especially in child care settings. This training is designed to teach all child care staff on the importance of the proper way to clean up bodily fluids to avoid spreading illness. Each center or program attending will receive one Barf Bucket Cleanup Kit.

### Why Attend?

After completing this training, participants will be able to:

- Identify components in the Barf Bucket and their purpose
- Describe proper body fluid cleanup procedures
- Explain steps necessary to reopen the contaminated area
- Train other child care personnel how to use the Barf Bucket
