

Eagles Activity

Patriotic Bald Eagle Craft

Print a copy of the black & white template for each child.

Color each piece before you do any cutting.

(You may want to consider a color-by-number or color-by-the-letter activity. Before distributing the template, write numbers or letters in the template pieces to represent the different colors. On a separate piece of paper or along the border of the template make a simple graph with the number or letter and color code with designated colors so the children can refer to it.)

Cut out template pieces and assemble.

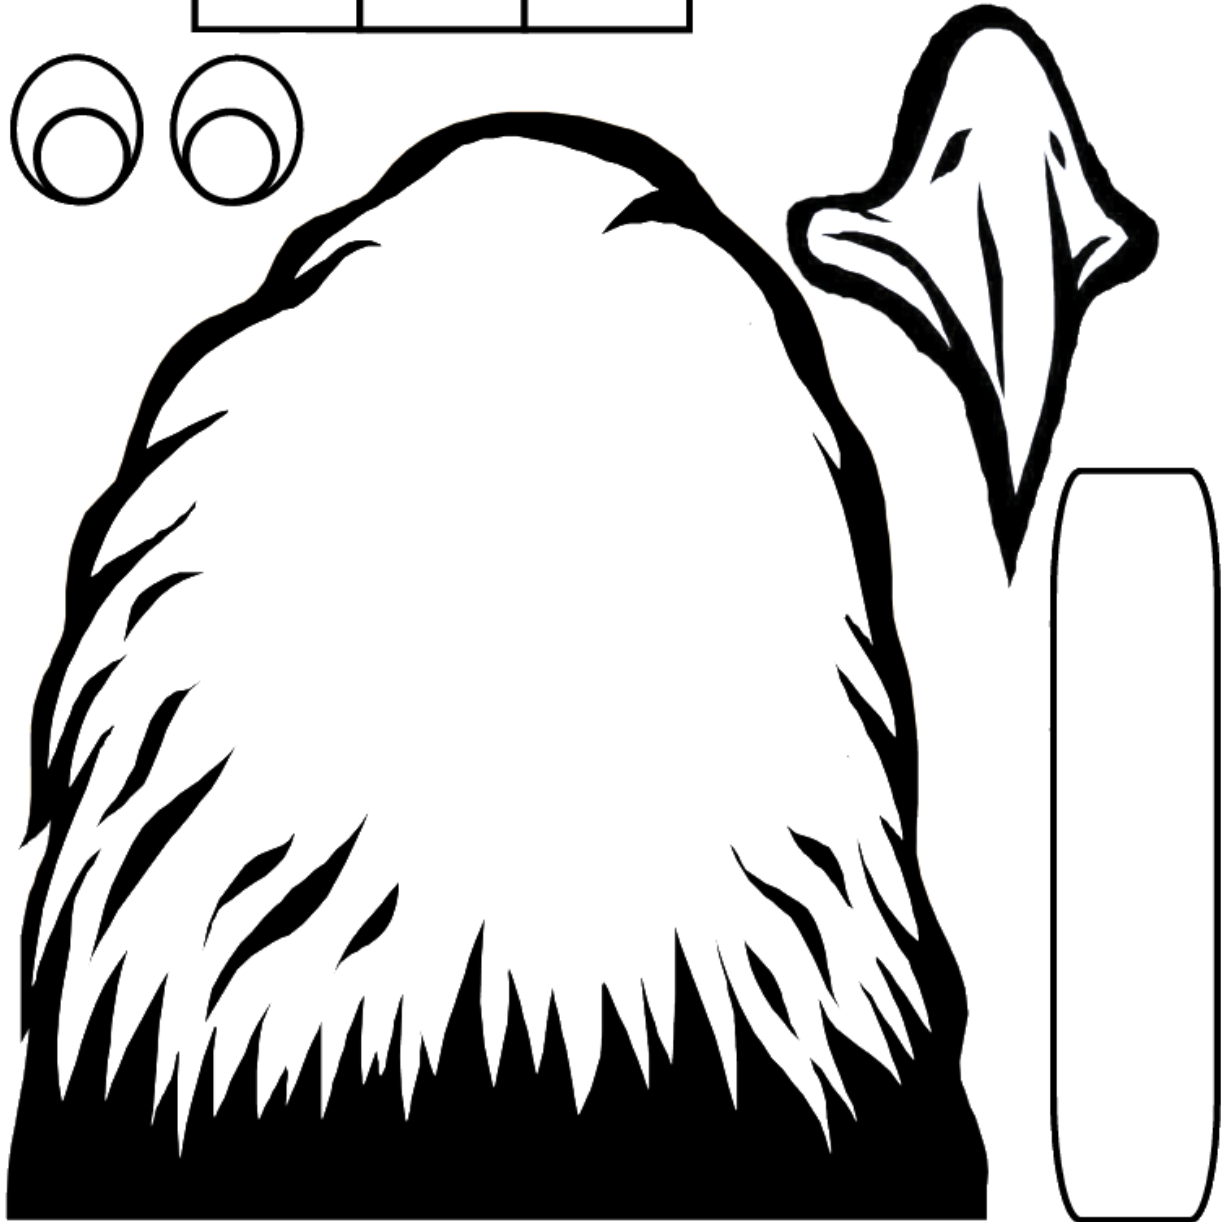

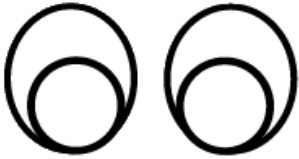

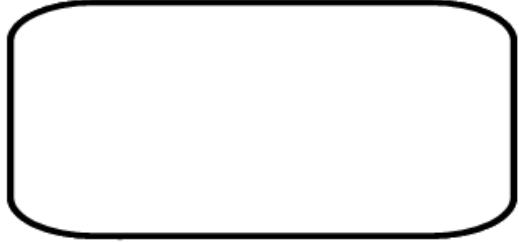

Assemble eagle first, then assemble the hat to focus on the different shapes. Glue assembled hat on the eagle's head last.

Other ideas for decorating, displaying, or using the finished craft:

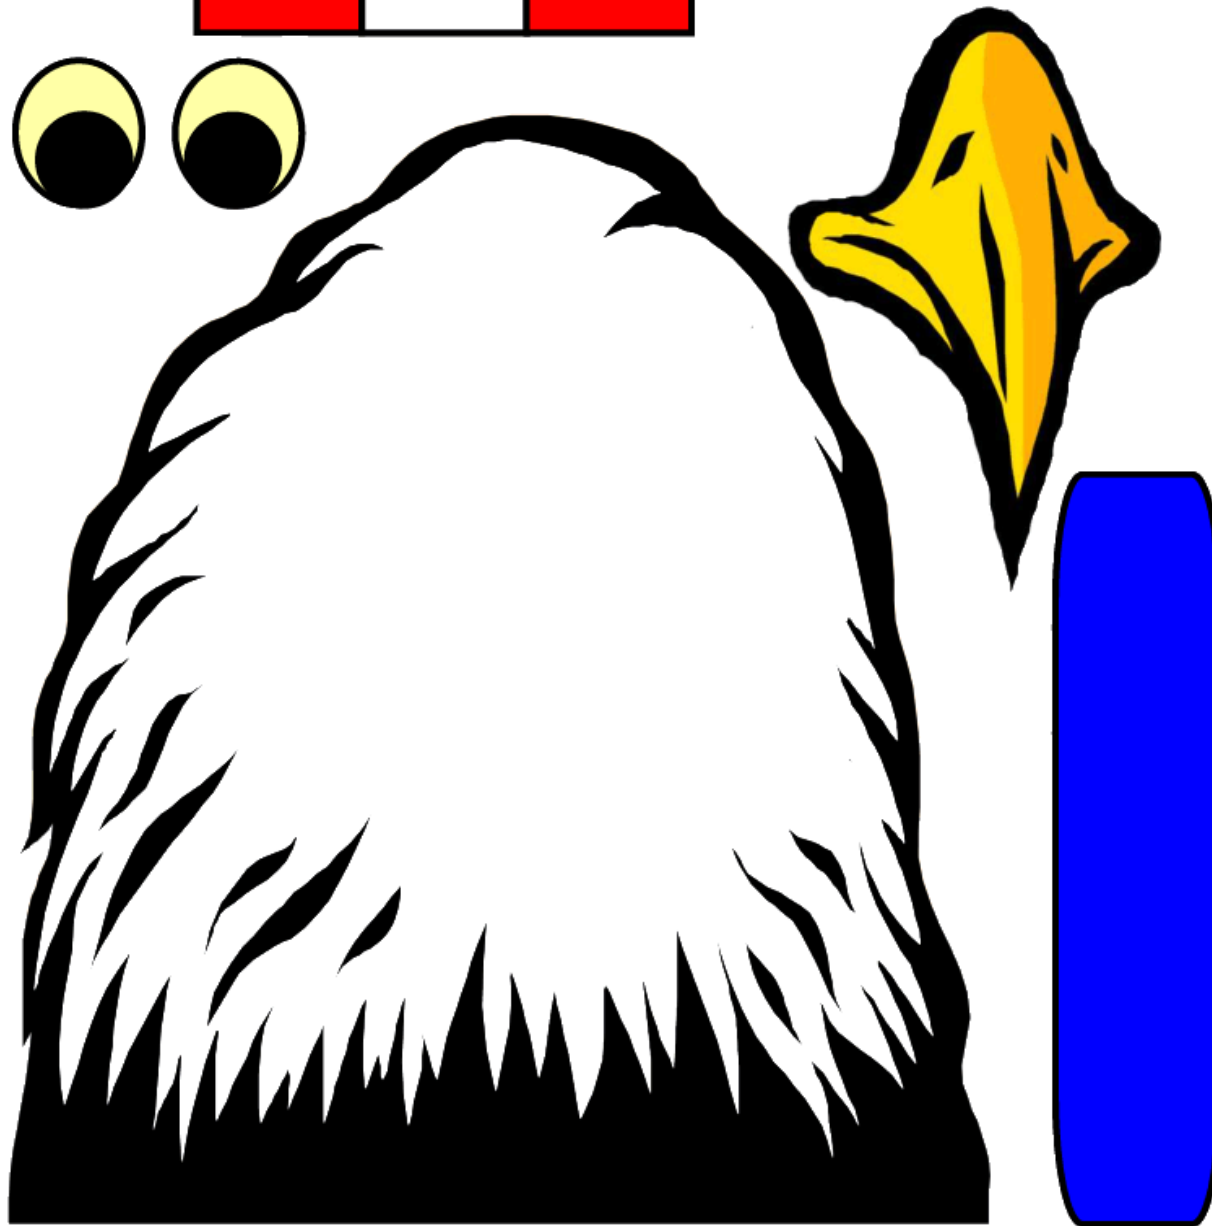

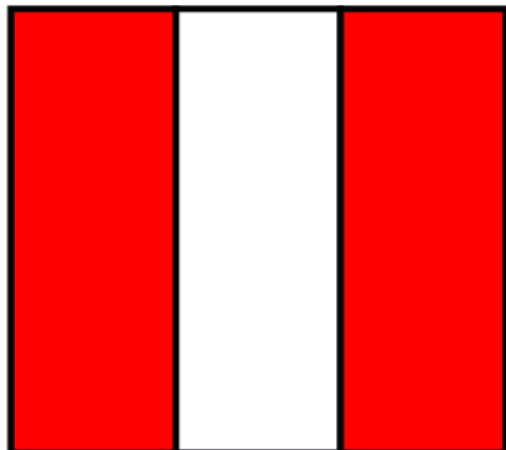

- Replace paper eyes with large wiggly eyes.
- Decoration: Place a piece of magnet paper to back to place on refrigerator or metal surface.
- Make a handprint wreath (red, blue, and white cutouts or painted handprints) and attach the bald eagle for a finishing touch.
- Attach to a card board tube to make a stand up display.
- Dry-Erase Note Holder: Cut out and laminate a piece of white card stock the width of the Eagle and long enough (9-10 inches) – to make a dry-erase note holder. Glue the eagle to the upper border and glue a magnet on back.

Another option is to use the color template and assemble.
