

4-H Friday's

Supporting youth's interests and activities while encouraging growth and skill development in the classroom!

October

Photography

With the changing colors of Fall, it is a great time to head outdoors to capture the beauty! Learners will be introduced to photography basics such as composition, background, and lighting. They will increase the quality of their photographs using photography basics.

Supplies: iPads, iPhones or any camera will work

Optional Zoom for Teachers:
September 29th 3:45 – 4:00 p.m.

November

Kindness in a Jar

"When you are kind to others, it not only changes you, it changes the world." Harold Kushner

Our world could use more kindness, so why not bring it to your classroom? Youth will learn about kindness and apply it in the classroom. You may utilize the video provided or have the learners do the STEM inspired experiment themselves!

Supplies: Clear Glass/Jar; Water; Vegetable Oil; Food Coloring; Salt

Optional Zoom for Teachers:
October 27th 3:45 – 4:00 p.m.

December

Junk Drawer Robotics

Empty out that junk drawer and let the kids' imagination soar! Youth will learn how to use simple, recycled materials to create a car strong enough to hold a box of paperclips!

A video example will be provided.

Supplies:

Junk Drawer Supplies (thread spools, tape canisters, straws, popsicle sticks, binder clips, etc.)

Box of Small Paper Clips for each youth or team of youth to use on their car.

Optional Zoom for Teachers:
November 24th 3:45-4:00 p.m.

We hope this inspires our youth to have fun in your classrooms this year with the opportunity to bring their projects to the fair next summer!

We invite you to sign up for the areas you are interested in with the Google Forms Link below! The only cost you will have are supplies.
