

GOBBLING GOOD THANKSGIVING FUN

ACTIVITY:

Turkey in the Clay

Grab some clay and let your students come up with an unusual turkey decoration.

Give each child 12 wooden craft sticks and one half of a craft stick. Use markers to color the sticks, red, orange, yellow, and brown.

Give each student a piece of self-hardening clay and allow them to roll the clay into a small ball.

Push the 12 craft sticks into the clay ball and position them so they resemble turkey feathers.

Push the half craft stick in front of the clay ball. Draw and cut out a turkey face and glue it to the half craft stick.

After the clay has dried, paint it brown.
