

Nebraska Extension is proud to announce its first, in-person Part 107 Remote Pilot Knowledge Test Preparation Course for Nebraska!

This 1-day (8-hour) course will prepare you to successfully pass the FAA Aeronautical Knowledge Exam to acquire your Remote Pilot Certificate (License) to fly drones commercially.

Registration is available for each location (access registration [online](#) or use QR Code below).

Pre-registration is required with a \$250 registration fee. Study materials and lunch will be provided.

An educational discount is available to students and educators.
