

December 7, 2023

To: Certified Chemigator

From: Todd Whitney
Nebraska Extension
1308 Second Street – Ag Center
Holdrege, NE 68949
308-995-4222 (office)
308-995-7272 (cell)

Based on Nebraska Department of Environmental and Energy records, your chemigation certificate will expire on December 31, 2023.

So, if you plan to chemigate during 2024, you will need to complete a training session and pass a written test to become recertified.

Requirements for initial and recertification are the same; however, those needing to be *recertified* may opt for the online training version. The online training directions can be accessed at the bottom of the page at: <http://water.unl.edu/cropswater/chemigation> .

A training manual and calibration workbook will be provided at the training/certification location OR can be picked up (not required) at any Extension office prior to the certification session. A complete list of training locations is listed on the NDEE chemigation page. If you pick up training materials prior to the training session, please bring your Chemigation Training Manual, Calibration Workbook, No. 2 pencil, and calculator along to use for the training and test. If you do not pre-register, you will receive a new copy of the training materials the day of the training. Training and testing will take approximately 2.5 hours.

There is no charge for the training or the manuals.

To learn about the time and location of a training session near you, contact your local Extension Office or the Nebraska Department of Environment and Energy (NDEE) website. For those with internet access, training dates and locations on the NDEE chemigation page:
<https://edmedia.wufoo.com/reports/2024-chemigation-training-dates>

Three afternoon group training sessions beginning at 1:30 p.m. have been scheduled for 2024 at Holdrege and McCook with morning Private Applicator Certification Trainings (see enclosed).

Feb. 29 – Phelps County Fairgrounds – Ag Center – **Holdrege.**

Mar. 21 – Community Building – Red Willow Co. Fairgrounds – **McCook.**

Mar. 28 – Phelps County Fairgrounds – Ag Center – **Holdrege.**

***If inclement weather forces postponement of a training session, another date will be publicized, or you can contact the Extension Office.
